Project Fact Sheet

Project Brief:

The South entry to the ACE Extension building from the walkway is the main entrance to the Department of Chemical Engineering and the Department of Aeronautics. This acts as a point of entry/exit through the ACE complex of buildings.

This project will address the visibility of the building entrance for all users and will include the redesign of the staircase.

Due to the completion of recent projects such as the Pilot Plant Redevelopment project and the start of a new project on Level 5 for the Business School, the building now requires a new and impressive entrance to accommodate the increased footfall.

Project Update:

- Works completed September 2012
- In Defects until September 2013
- Post-completion work to replace vinyl flooring underway, to complete end December 2013

For more information please contact Rob Pask r.pask@imperial.ac.uk

Project Manager: Rob Pask

Location: ACE Extension Building

Number: ACEX 1102

Stage: Post-completion

Project Champion: Andrew Livingston

Project Director: Nick Roalfe

User Co-ordinator: Peter Schreiber

Construction Project Team:

Project Manager: Imperial College

Architect: BMJ Architects

Electrical Engineer: Crofton

Structural Engineer: Curtins

Contractor: Quest Interiors

Mechanical Contractor: n/a

Electrical Contractor: W&L Installations

Cost Consultant: Mortimer Isaacs

Project Facts & Figures:

Budget: £750,000

Funding Source: Capital

Construction Project Programme:

Start on Site: June 2012

End Date: October 2012

Occupation Date: n/a
