To Pick Up a call

1. Lift the receiver
Guide to using your CISCO IP 7906 phone at Imperial College London

2. Press More

3. Press PickUp

Directories

1. Press
2. Use up and down navigation buttons to highlight Directories and then press Select
3. Use up and down navigation buttons to highlight Missed Calls, Received Calls or Placed Calls and then press Select
4. Use up and down navigation buttons to highlight the relevant call and then press Dial or EditDial
5. Press Exit until the screen returns to the default screen

Please note: For Missed Calls and Received Calls you must prefix the external call entry you chose to dial (by pressing EditDial) with a 9 or 7 otherwise the first digit the system will dial is 0 which will take you to the Interactive Voice Response (IVR), and then the Imperial College operator. Also, it is not possible to ring telephone numbers which start 44 as these are incoming calls across campuses.

Do Not Disturb [DND]

To Activate the Do Not Disturb (i.e. stop the phone ringing)
1. Press More
2. Press DND
   Screen will change and display Do Not Disturb is active

To Deactivate the Do Not Disturb (i.e. allow the phone to ring)
1. Press More
2. Press DND
   Screen will change and display “Your current options”

Redial [Redial]

Press Redial to redial the last telephone number you dialed.

Hunt Group Log in/ out [HLog]

If you are part of a HUNT GROUP you can opt to log out if you are going to be aware from your desk for a long duration or if when you are closed you expect an out of hours message is to play.

1. Press More
2. Press HLog

When the display says “Your current options” it means you logged into the Hunt Group. If your screen says you “Logged out of Hunt Group” you are not going to receive Hunt Group calls.
Messages [Msgs]

If you do not have Unified Messaging when you press Msgs nothing will happen. To request Unified Messaging please contact your Telecoms Rep.

To access Unified Messenger
1. Press Msgs
2. The system will then say “You are connect to Microsoft Exchange, “Name” (if you have already set up your voicemail box ) please enter your pin then press the # key”
3. Enter your pin and press the # key
4. The system will then say “You have X new voice message and X new email message. Main menu to listen to your voicemail messages say voicemail ...” you just follow the prompts.

To Make a Conference Call
1. Lift the receiver
2. Dial the first conference delegate. If it is an external call remember to prefix your call with a ‘9’.
3. Press More
4. Press Confrn and the first call will go on hold.
5. Dial the second delegate and let them answer.
6. Press Confrn and all calls will be connected
7. Repeat steps 3 to 6 until you have all the delegates in the call

Please note:
• The destination to which you can conference in is limited by the class of service the extension has. ☐ The max number is 8

How to change your ring tone
1. Press 🔗
2. Use up and down navigation buttons to highlight Settings and then press Select
3. Press Select now that User Preferences is highlighted
4. Press Select now that Rings is highlighted
5. Press Select now that Default Ring is highlighted
6. Scroll up and down the Select Ringer List using the up and down buttons. Press Play to hear the ringer tune
7. Press Select
8. Press Save
9. Press Exit until you are back at the default screen
