${ }^{1}$ The student:staff ratio is the ratio of student load to academic staff.
${ }^{2}$ This relates to staff hosted by Imperial who manage and co-ordinate Climate KIC activities.
Student load is the full-time equivalent teaching load undertaken by a department, taking account of service teaching supplied to and received from other departments. It includes research postgraduate supervision load.
Short courses are excluded. Occasional student load is included.
Staff numbers are inclusive of all sources of funding.

## Academic expenditure 2013-14

${ }^{1}$ Departmental bursaries ( $£ 21 \mathrm{~m}$ ) have been excluded following changes in statutory reporting requirements.
${ }^{2}$ This covers the management and co-ordination costs only. Climate KIC associated research grants are recognised in other academic departments across the College.
${ }^{3}$ Includes Continuing Education plus individual research projects accounted for in non-faculty areas.

## Notes

These statistics are the latest available and an element of judgement has been involved in selecting and presenting the figures. They cover various periods and comparisons should be made with care. Numbers have been rounded as appropriate and so may not sum to totals.

Financial data are for the year ending 31 July 2014.

Staff numbers are as recorded on 31 December 2014, and FTE staff numbers are calculated according to actual contracted time.

Student numbers are as recorded on 31 December 2014 unless otherwise stated.

Full-time equivalent (FTE) student numbers include part-time students counted pro-rata to full-time.

Home and $\mathrm{EU}(\mathrm{H} / \mathrm{EU})=$ students from the UK and European Union. Overseas $(0 / \mathrm{S})=$ students from non-EU countries.

MRes students are counted as postgraduate research (PGR) from 2010-11 entry onwards.

From 1 August 2010, members of the Institute of Biomedical Engineering were employed by one or more home department.

All statistics regarding the MSc in Sustainable Energy Futures are shown under the Energy Futures Lab.

Departments have been named in full wherever possible. Exceptions are as follows:

- CHoSTM is the Centre for History of Science, Technology \& Medicine. It transferred to King's College London with effect from August 2013.
- Climate KIC is the Climate Knowledge and Innovation Community.

The front and inside cover show the quality profiles from the 2014 Research Excellence Framework (REF), an assessment of the quality of research in UK higher education institutions. The REF quality profiles present the proportion of each submission judged
by the panels to have met each of the quality levels defined below. Quality levels of research activity are defined in terms of originality, significance and rigour:

- $4^{*}$ : World-leading
- $3^{*}$ : Internationally excellent
- $2^{*}$ : Recognised internationally
- 1*: Recognised nationally
- Unclassified ( $\mathrm{u} / \mathrm{c}$ ): Falls below the standard of nationally recognised work.

For the front cover please note:

- The institutional quality profile is comprised of the aggregate of individual Unit of Assessment (UoA) quality profiles weighted by Category A Staff FTE.
- Category A Staff FTE = academic staff in post on 31 October 2013 who were selected for submission into REF2014.
- For each institution, the data include submissions to all UoAs.
- The data exclude specialist institutions (i.e. those submitting to two or fewer UoAs).

For the inside cover please note that the REF UoAs are broad subject areas that in some cases do not map exactly onto the College's departments. In particular:

- Departments within the Faculty of Medicine submitted to UoAs 1 (Clinical Medicine), 2 (Public Health, Health Services and Primary Care), and 4 (Psychology, Psychiatry and Neuroscience).
- The Department of Bioengineering submitted to UoA 15 (General Engineering).
- The Departments of Aeronautics, Chemical Engineering, Earth Science and Engineering and Mechanical Engineering submitted to UoA 12 (Aeronautical, Mechanical, Chemical and Manufacturing Engineering).
