7. Feedback to Unsuccessful Applicants
8. Appeals & Complaints

1. BACKGROUND

1.1. Admission to Postgraduate Taught Courses at Imperial College:

1.1.1. Consistently rated amongst the world’s top universities, Imperial College London is a science-based institution with an international reputation for excellence in both teaching and research.

1.1.2. We provide rigorous and intensive Master’s, Postgraduate Diploma and Postgraduate Certificate courses in science, engineering, business and medicine. These Master’s level courses are designed to produce graduates for fast-track graduate employment, business, or research. They are intended to benefit students of high ability, whatever their ethnic or national origin, religion, politics or gender in accordance with our Equal Opportunities Policy. In order to cope with, enjoy and succeed on these courses, our students need to be extremely well-qualified on entry, see Section 3. This Postgraduate Taught Admissions Policy is approved and monitored by the College’s Quality Assurance and Enhancement Committee (QAEC).

1.1.3. This policy includes MRes courses which, although they form part of the postgraduate research provision of the College, are treated for admission purposes under the postgraduate taught admissions policy as they are deemed FHEQ Level 7 both at the point of application and intended exit award level.

1.2. Equal Opportunities Statement:

1.2.1. The College’s mission is to maintain excellent standards of achievement in teaching and research in order to attract and admit students of the highest calibre, and its national and international reputation relies on the people who make up its diverse and high-achieving community. In pursuing its aim of excellence, Imperial adheres to a comprehensive policy of equal opportunities which ensures that it does not discriminate against any individual, from the
first point of contact through to graduation. Selection for entry is based on consideration of academic ability, motivation for study, interest in the subject area and the potential both to benefit from the experience and to contribute to College life while on course. All applications are considered and evaluated on the basis of individual potential.

2. APPLICATION ROUTES AND DEADLINES

2.1. How to Apply:

2.1.1. All applications for admission to our postgraduate taught courses should be submitted online via the Imperial College website: www.imperial.ac.uk. Receipt of an application will be acknowledged, following which an initial assessment will be made by Admissions. The application will then be forwarded to the relevant department who will consider suitability for a place. Applicants are only permitted consideration for two course choices in one application cycle. These will be processed in series according to the stated preference of the applicant. Some first choice course selections may limit or prohibit the selection of other second choice courses in certain circumstances.

2.2. When to Apply:

2.2.1. The majority of our taught postgraduate programmes start in September or October each year. There are some variants to this which can be found in the prospectus: www.imperial.ac.uk/study/pg/. Applications usually open in November prior to the year of entry (though some courses may open for applications earlier). The majority of our courses are oversubscribed and are closed to new applicants as they become full. Scholarships may be available for some courses, therefore applicants are advised to check the relevant department’s study page for further information and in particular, where a scholarship deadline may be in place. International applicants should note that an application submitted after 31 July may leave insufficient time to obtain a student visa prior to the start of the course in September/October.

3. ENTRANCE REQUIREMENTS

3.1. Academic Requirements:

3.1.1. We welcome applications from those who already possess the required qualifications or those who expect to obtain them before the degree course commences. Candidates will be required to have satisfied both the College general entrance requirements and the course requirements before they can join their chosen degree course. Applicants should consult the individual course study pages on www.imperial.ac.uk for more specific guidance. The following paragraph outlines the College’s minimum general entrance requirements for entry to our postgraduate taught courses:

- The College normally requires at least a lower Second Class Honours Bachelor degree (although in practice most successful applicants have at least an Upper Second Class Honours degree) or a taught Master’s
degree awarded by an approved UK university / institution, or a degree approved by the College as of a comparable standard awarded by a recognised overseas university / institution in a subject deemed appropriate for the programme to which admission is sought.

OR

- A registrable qualification in Medicine, awarded by an approved UK university / institution, or a qualification approved by the College as of a comparable standard awarded by a recognised overseas university / institution in a subject deemed appropriate for the programme to which admission is sought.

OR

- A professional or other qualification obtained by written examinations and approved by the College for admission.

3.1.2 The College Registry, including the Senior Directorate of Academic Registrar and Head of Admissions, is responsible for publishing clear and definitive guidance to departments regarding the comparability of international qualifications and academic standards. This guidance will be reviewed annually based on best practice and established sector norms.

3.2. Special Cases

3.2.1. The College will consider applications where the individual’s qualifications are at the required level, but where the grades achieved do not meet the College’s normal minimum entry requirement. In such circumstances, it will be at the discretion of the admitting Department to make a special case, which will only be valid for someone who has considerable work experience that compensates for the degree grades being below the minimum requirement. If the Department wishes to offer a place to such an applicant, the Programme Director (or equivalent) will make a case to the Director of Postgraduate Studies (or department equivalent) for consideration. Once a decision has been made it will be conveyed to the Programme Director (or equivalent) and department administrator, who will submit the decision to Admissions for approval. Subject to these requirements being fulfilled, Admissions will then issue the offer.

3.3. Special Qualifying Examination (SQE)

3.3.1. An applicant with qualifications which fall below the College’s minimum entry requirement may be considered for a place at the discretion of the Department, and will be required to sit a Special Qualifying Examination (SQE). Such applicants follow the normal application process and in the first instance are considered by the Department in the same way as all other applicants. If after consideration the Department decides that the applicant should be invited to take an SQE, it will submit a case to an independent panel of academic staff. If the panel supports the Department’s case, the
Department is informed and makes the necessary arrangements for the SQE. The SQE is marked by the Department and is sent to the external examiner(s) to moderate. The external examiner(s) will then advise whether an offer should be made on the basis of the SQE result. The result of the SQE and recommendation of the external examiner(s) is sent by the Department to Admissions, who will then confirm the decision to the applicant.

3.4. **Accreditation of Prior Learning (APL)**

3.4.1. The College has the discretion to grant a candidate credit towards the award of a Master’s level degree for study undertaken at the College or another institution when admission is sought for a part-time mode of study and subject to the following conditions:

(a) Acceptability for credit transfer of work undertaken at the College or another institution does not confer right of entry to any programme;
(b) The work accepted for credit must be sufficiently contemporary and appropriate in range and quality to form a coherent whole with the proposed programme of study;
(c) A candidate granted credit transfer may be exempted from not more than 30 ECTS credits of a Master’s programme of study, 20 ECTS from a PG Diploma or 10 ECTS from a PG Certificate;
(d) A candidate may not be granted exemption from the dissertation element of the programme.

3.5. **English Language Qualifications:**

3.5.1. All courses in the College are taught in English. To obtain maximum benefit from studies at Imperial College all students must fulfil the College minimum English general entry requirement (referred to in the published English requirements as the Standard Level) from a College approved test. Some Departments may:

A) Operate a Departmental English entry requirement above the College minimum (referred to in the published English requirements as the Higher Level). Applicants should view the departmental pages for specific information regarding the required English level.
B) Not accept the "exemptions" to English entry requirements published by the College.
C) Not accept the College’s pre-sessional English programme as a route to fulfilling the English entry requirement.

3.5.2. Students coming to the College for postgraduate study must normally have a minimum of grade B (pre 2017) or grade 6 (post 2017) in GCSE English
Language or an acceptable alternative English Language qualification accepted by the College before admission can be confirmed.

3.5.3. Overseas applicants for whom English is not the first language must provide evidence of a satisfactory command of English before commencing the course. Full details of our English language requirements can be found here: www.imperial.ac.uk/study/pg/apply/requirements/english/

4. SELECTION POLICIES & PROCEDURES

4.1. Timetabling of Selection:

4.1.1. The selection process for taught courses is continuous from November, when the first applications are received, until August, except when courses become full (2.2 above). All applications are given careful consideration. Applicants can normally expect to receive a decision on their application within 6-8 weeks of submission, however we advise applicants to check the relevant department’s web page for specific information.

4.2. Selection Criteria:

4.2.1. While the specific selection criteria vary by course there are, however, certain general points which are equally applicable to all departments.

(i) Interviews

4.2.2. Applicants for Master’s, PG Diploma and PG Certificate courses may be asked to attend an interview. You can find more information about a Department’s interview process, including its policy on interviewing applicants based overseas, on the individual department websites via: www.imperial.ac.uk/study/pg/apply/selection/

(ii) The References

4.2.3. References can be an important additional source of information of an applicant’s suitability for study, experiences to date and verification of credentials for Selectors consideration. This may assist Selectors in determining who is called for interview and in determining whether an offer is made. The assessment of previous academic performance is of particular value, as are indications of the strength of an applicant's motivation to study the chosen subject at higher degree level. A professional reference can also be of use in establishing an applicant’s postgraduate career development and is a requirement for certain courses which stipulate relevant experience as an entry requirement. Departments reserve the right to process an unsuccessful outcome on an application prior to the receipt of references, where in their academic judgment the receipt of acceptable references would have no bearing on that outcome.
(iii) **The Supporting Statement**

4.2.4. The supporting statement should outline; the motivations for applying for the course, relevant academic and professional experience to date, interests, future career aspirations, as well as the ability to gain from and contribute to the College community.

4.3. **Applicants with disabilities**

4.3.1. The College's policy is to consider all applications solely on academic grounds. Any reasonable adjustments that may be necessary will be put in place to enable all students to compete on an equal basis. It is important therefore that the College is informed of any disability well in advance so that early discussion can take place to determine the reasonable adjustments that it may be possible to put in place. Every effort is made to ensure that our courses are accessible, but occasionally, due to the nature of the course competency standards, it may not be possible to make the necessary adjustments to enable an individual candidate to study a particular course. We therefore encourage those with disabilities to contact us as early as possible and preferably before making an application, indicating the course or courses they are interested in, together with the nature of the disability, so that a meeting can be arranged to discuss any adjustments that may need to be made. The Disability Advisory Service (DAS) works closely with the Registry, the Student Accommodation Centre and academic departments to provide a variety of support initiatives that enable students to access their studies successfully. The Disability Advisers are available to discuss on a confidential basis any issues of concern which people with disabilities may have and can advise on necessary documentary evidence that may be required.

4.3.2. More information can be found here:

4.4. **Criminal Convictions**

4.4.1. Applicants for medical courses who declare a criminal conviction should note that whilst we do not wish to penalise an ex-offender, the College does have a duty of care to its wider community and there may be occasions when an academically suitable applicant will be refused entry.

4.1.2. The College's policy is that applicants who declare a criminal conviction at the point of application are initially reviewed on the same academic grounds that apply to all applicants. It is the responsibility of applicants to inform the College of any convictions occurring after an application has been submitted and throughout any period of registration as a Student of the College.

4.1.3. The relevant Policy for the admission of applicants who disclose a criminal conviction can be found here:

   [http://www.imperial.ac.uk/about/governance/academic-governance/academic-policy/admissions/](http://www.imperial.ac.uk/about/governance/academic-governance/academic-policy/admissions/)
5. CHECKING THE STATUS OF AN APPLICATION

5.1. The acknowledgment email sent to applicants following receipt of the application contains information regarding how to track your application via the College’s online system.

6. ACCEPTING OUR OFFER & CONTRACT OF ADMISSION

6.1. All offers for a place on postgraduate Master’s, PG Diploma or PG Certificate courses are transmitted electronically via the College’s applicant portal, subject to the details outlined in 5.1. Any offer of a place made by the College is made on the basis of the applicant’s:

- Acceptance of the College’s rules and regulations as published and amended from time to time. Acceptance of the following statement: The College prospectus and website describes the courses offered by the College. Further documents describe the educational services offered by the College, the regulations governing the conduct of students and details of registration and assessment. Further details can be found at [http://www.imperial.ac.uk/students/terms-and-conditions/](http://www.imperial.ac.uk/students/terms-and-conditions/). The College takes all reasonable steps to provide the educational services described in the prospectus and in the documents listed, but it does not guarantee the provision of such services. Should industrial action or circumstances beyond the control of the College interfere with its ability to provide educational services, the College undertakes to use all reasonable steps to minimise any resultant disruption.

- Payment of the fees required for the course and any other fees for services offered by the College and accepted, such as accommodation.

- Payment of the deposit (10% of the total year one tuition fee).

- Ensuring that statements made in applying for entry are accurate, as the discovery of false statements or omissions may lead to the offer being withdrawn (or in the case of students registered, to their registration being terminated).

7. FEEDBACK TO UNSUCCESSFUL APPLICANTS

7.1. The College receives a large number of applications for every place and as entry is very competitive, it is unable to make offers to all applicants. Imperial College acknowledges that it is important that unsuccessful applicants are informed as early as possible so that they can consider other options. We will provide feedback to all unsuccessful postgraduate applicants at their request.

7.2. When to request feedback:

7.2.1. Feedback can only be requested during the application cycle in which the application was made.

7.3. How to request feedback:
7.3.1. Applicants should request feedback by emailing the appropriate admissions team, details can be found at [www.imperial.ac.uk/study/pg/apply/contact/](http://www.imperial.ac.uk/study/pg/apply/contact/) quoting their full name, College ID number and the programme applied for. Please note the College cannot provide feedback to third parties such as parents, guardians, teachers or referees without the express written permission of the applicant.

7.4. **How you will receive feedback:**

7.4.1. Feedback will be issued via an email (normally within 15 working days of a request being made).

8. **APPEALS AND COMPLAINTS**

8.1. Please note that you may not appeal against the academic or professional judgement of those making a decision but you may appeal the decision if you believe an administrative error has occurred in the processing of your application. For further information see: [http://www.imperial.ac.uk/students/terms-and-conditions/appeals/](http://www.imperial.ac.uk/students/terms-and-conditions/appeals/)
