Tier 4 student visa holders taking their medical degree at a UK Medical School applying for a Medical Elective at a hospital associated with Imperial College London

UKVI rules for overseas students studying in the UK at one educational institution apply for those also wishing to undertake short periods of their studies at another UK educational institution.

If you are successful in your application for an Elective here, your time with us will be treated as a work placement as an assessed part of your course at your home UK Medical School.

In order to register you as a work placement student here, the following documents are required:

1. a copy of your current Tier 4 visa (sponsored by your home UK university), and
2. a letter from your home UK university confirming that they are still sponsoring your Tier 4 status during the medical elective at Imperial. This letter should ideally show your home UK university’s Sponsor Licence Number

These documents should be submitted at the time you make your application for an elective placement.

Issued: 27th February 2015
