Cross-CPT Film Night

The Film Night was a great success, we had attendees from 4 of the CDTs, and just over 20 people in attendance (although some came and went over the course of the evening). Students generally enjoyed the movie, although we had a slight problem with volume, which we would need to consider should we wish to run the event again. After the movie, a good number of the students went to continue socialising elsewhere in Imperial. A Facebook group has also been created which the members have joined to organise future social events. Already we have seen a greater degree of social interaction in the communal spaces such as the kitchen and seating areas, and there is good interest in doing more social events in the future.
