

Curriculum Vitae

NICHOLAS ROBERT JENNINGS

Faculty Building, Imperial College London
 South Kensington Campus, London SW7 2AZ, UK
 Date of birth: 15th December 1966

t: +44 (0) 207 594 8458
 e: n.jennings@imperial.ac.uk
 w: www.imperial.ac.uk/people/n.jennings

I. PERSONAL DETAILS**Appointments**

- 2016- Vice-Provost (Research and Enterprise), Imperial College London
- 2016- Professor of Artificial Intelligence, Imperial College London
- 2016- Visiting Professor, Electronics and Computer Science, Univ. of Southampton
- 2015-16 Head of the Electronics and Computer Science Department, Univ. of Southampton
- 2014-16 Regius Professor of Computer Science, Univ. of Southampton
 (a post bestowed by Queen Elizabeth II on her Diamond Jubilee
 to “recognise exceptionally high quality research”)
- 2010-15 Chief Scientific Advisor for National Security to the UK Government
- 2010-17 Distinguished Adjunct Professor at King Abdulaziz University, Saudi Arabia
- 2008-10 Associate Dean (Research and Enterprise), Faculty of Engineering, Science and
 Mathematics, Univ. of Southampton
- 2000-14 Professor, Electronics and Computer Science, Univ. of Southampton
- 1998-99 Professor, Electronic Engineering, Queen Mary Univ. of London
- 1995-98 Reader, Electronic Engineering, Queen Mary Univ. of London
- 1989-95 Lecturer, Electronic Engineering, Queen Mary Univ. of London
- 1988-89 Research Assistant, Electronic Engineering, Queen Mary Univ. of London

Qualifications

- 1992 PhD Artificial Intelligence, Queen Mary University of London
- 1988 BSc (Hons.) Computer Science (First Class), University of Exeter

National Honours

- 2016 Companion of The Order of the Bath (CB)
 “For services to Computer Science and National Security Science”

Fellowships and Professional Society Memberships

- Fellow of the City and Guilds Institute (2018)
- Fellow of the Royal Society of Arts (2018)
- Fellow of the German Research Centre for Artificial Intelligence (2012)
- Fellow of the Association for the Advancement of Artificial Intelligence (2010)
- Fellow of the Institute of Electrical and Electronic Engineers (2008)
- Member of Academia Europaea (2008)
- Fellow of the Society for the Study of AI and Simulation of Behaviour (2006)
- Fellow of the Royal Academy of Engineering (2005)
- Fellow of the Institution of Engineering and Technology (2004)
- Chartered IT Professional (2004)
- Fellow of the British Computer Society (2003)
- Fellow of the European Artificial Intelligence Association (2003)
- Chartered Engineer (2003)

II. RESEARCH AND SCHOLARSHIP

My research focuses on developing artificial intelligence (AI) systems for large-scale, open and dynamic environments. I focus on how to endow individual autonomous agents with the ability to act and interact in flexible ways and with effectively engineering systems that contain both humans and agents.

My main scientific contributions are in three areas. First, in the analysis and design of automated negotiation strategies; including computationally-tractable strategies for complex and uncertain settings such as bilateral encounters and online auctions and argumentation-based models for persuasive encounters. Second, developing new mechanisms and algorithms for inter-agent cooperation and coordination. This includes coalition formation techniques based on game theory, message-passing algorithms that rely on decision and information theory to achieve effective coordination in resource-constrained environments and principled models of trust and reputation. Third, in the establishment and development of the discipline of agent-oriented software engineering; including laying out the key tenets of the field of agent-based computing for building complex software systems and developing associated software engineering methodologies.

I am passionate about the real-world impact of research. I was the lead system architect for one of the world's first industrial deployments of multi-agent technology, in the area of electricity transportation, and have subsequently been involved with deployments of agent-based solutions for: environmental sensor network monitoring in the Briksdalsbreen glacier in Norway and in the River Solent in Southampton; controlling Daimler-Chrysler's engine manufacturing production lines; workforce scheduling within BT; interpreting seismic data for oil exploration with BHP Billiton; managing supply chains and providing in-theatre situational awareness with BAE Systems; assessing and predicting race conditions for the 2012 British Olympic sailing team; disaster assessment and response planning with Rescue Global; analysing and predicting home energy use for those in fuel poverty with the Centre for Sustainable Energy and scheduling the repair of aircraft engines with Rolls-Royce. All of these systems have been used operationally — saving and improving lives, protecting the environment, making business processes more efficient, providing insights on complex data science problems, and helping to win gold medals.

I have been involved with a number of start-ups. At Aerogility, I helped with the design and rollout of a decision support tool suite that optimises the scheduling and maintenance activities for fleets of aircraft and allows forward simulation of strategic policy and resourcing choices. This system has been used by: BAE Systems for the Tornado, Harrier, Typhoon, Nimrod and Hawk fleets; Lockheed Martin for the F-22 Raptor and F-35 fleets; Sikorsky Aerospace Services for the S-92 fleet; and Boeing for the TLCS UK Chinook fleet. At Mentat, I advise on machine learning technologies for real-time analysis of sensor data for enterprise applications. At Contact Engine, I advise on using AI techniques to help improve and personalise consumer interactions. At Crossword and Reliance Cyber Science, I provide strategic advice on a broad range of cyber security challenges and opportunities.

Citations

- 75,000 citations and h-index = 117 (Google Scholar, Oct. 2018)
- ISI Web of Science “highly cited” in both the Computer Science and the Engineering categories
- Top 25 in the world for h-index for Computer Science (www.cs.ucla.edu/~palsberg/h-number.html)

Awards

- *Int. Foundation for Autonomous Agents and Multi-Agent Systems Influential Paper Award* for “Developing multiagent systems: the Gaia methodology” in ACM Trans. on Software Engineering and Methodology (2018)
- *The Engineer's “Collaborate to Innovate” Award* for ORCHID (2016)
- *IJCAI-JAIR Best Paper Prize* (Honourable Mention) for “Theoretical and practical foundations of large-scale agent-based micro-storage in the smart grid” in Journal of AI Research (2016)

- *The Engineer's Award for Best Aerospace and Defence Project* for ALADDIN (2009)
- *BAE Systems Chairman's Award* for ALADDIN's Technology Transfer activities (2009)
- *Int. Conf. on Autonomous Agents and Multi-Systems Best Industrial Demonstrator Award* (2008)
- *Int. Foundation for Autonomous Agents and Multi-Agent Systems Special Recognition Award* for "Intelligent agents: theory and practice" in *The Knowledge Engineering Review* [> 11,000 citations]
- *The Engineer's Award for Large Company/Univ. Collaboration* for ARGUS II (2007)
- *ACM Autonomous Agents Research Award* (2003) for contributions to agent-based computing
- *IEE Achievement Medal* (2000) for contributions to agent-based computing
- *Computer and Thought Award* (1999) for contributions to multi-agent systems. [The most prestigious award for a young AI researcher and first time in the award's 40-year history the recipient was based in Europe]
- Winner of 10 best paper awards at international conferences; including AAMAS (x3), ISWC and IAT and 11 honourable mentions (AAAI, AAMAS (x4) and ECAI (x6))

Research Fellows and Students

- Current:

PhD students: F. Bi (17-), E. Manino (15-), N. V. Q. Truong (15-)

Research Fellows: Y. Luo (17-)

- Previous:

Research Fellows: A. Byde (Royal Society Industrial Fellow) (06-09), R. Cavalcante (09-11), G. Chalkiadakis (06-11), A. Chapman (09-10), V. D. Dang (04-06), R. K. Dash (05-07), E. David (03-06), P. S. Dutta (05-06), E. Elkind (RCUK Fellow) (07-09), A. Farinelli (07-09), P. Faratin (95-00), E. Gerding (05-07), S. Ghosh (10-13), M. Gibney (97-00), M. He (04-06), G. Hines (11-13), L. M. J. Hogg (98-01), M. Johnson (94-95), N. C. Karunatillake (06-09), A. Lomuscio (99-00), X. Luo (01-06), T. Michalak (09-11), E. Munoz de Cote (08-10), V. Naroditskiy (09-14), T. J. Norman (96-99), P. Panzarasa (99-02), S. Paurobally (02-05), M. Polukarov (07-10), J. Pople (91-93), Z. Rabinovich (07-10), T. Rahwan (06-13), S. D. Ramchurn (04-09), V. Robu (09-14), A. Rogers (03-06), C. Skinner (09-10), J. Stein (94-95), S. Stein (07-15), R. Stranders (10-12), W. T. L. Teacy (06-09, 12-15), L. Tran-Thanh (11-15), P. Turner (95-03), L. Z. Varga (91-93), M. Venanzi (14-15), I. A. Vetsikas (05-11), M. Vinyals (12-14), T. Voice (09-12), P. Vytelingum (06-11), S. Williamson (09-10), F. Wu (11-14), D. Yuen (05-07), D. Zhao (14-16).

PhD students graduated:

1. P. Faratin (2000) "Automated service negotiation between autonomous agents"
2. L. M. J. Hogg (2001) "Control of social reasoning in resource bounded agents"
3. S. Kalenka (2001) "Modelling social interaction attitudes in multi-agent systems"
4. C. B. Excelente-Toledo (2003) "The dynamic selection of coordination mechanisms in multi-agent systems"
5. P. Anthony (2003) "Bidding agents for multiple heterogeneous on-line auctions"
6. S. K. Bussmann (2003) "An agent-oriented design methodology for production control"
7. M. He (2004) "Bidding strategies for autonomous trading agents" [Nominated for European AI Association's Distinguished Dissertation award]
8. V. D. Dang (2004) "Coalition formation and operation in virtual organisations"
9. S. D. Ramchurn (2004) "Multiagent negotiation using trust and persuasion"
10. Y. Z. Wei (2005) "A market-based approach to recommender systems"
11. T. D. Nguyen (2005) "A heuristic model for concurrent bilateral negotiations in incomplete information settings"
12. P. S. Dutta (2005) "Adaptive distributed resource allocation using cooperative information-sharing"

13. R. K. Dash (2006) "Distributed mechanisms for multi-agent systems: analysis and design" [Winner BCS Distinguished Dissertation award]
14. Y. K. Peña (2006) "Optimal allocation and scheduling of demand in deregulated energy markets" (registered at Technical University of Vienna)
15. T. D. Huynh (2006) "Trust and reputation in open multi-agent systems"
16. N. A. Haque (2006) "Resource allocation in networks using market-based agents"
17. N. C. Karunatilake (2006) "Argumentation-based negotiation in a social context"
18. P. Vytelingum (2006) "The structure and behaviour of the continuous double auction"
19. J. Patel (2007) "A trust and reputation model for agent-based virtual organisations"
20. W. T. L. Teacy (2007) "Agent-based trust and reputation in the context of inaccurate information sources"
21. T. Rahwan (2007) "Algorithms for coalition formation in multi-agent systems" [Winner BCS Distinguished Dissertation award]
22. V. Narayanan (2008) "A learning-based approach to modelling bilateral, adaptive agent negotiations"
23. S. Stein (2008) "Flexible provisioning for service workflows" [Honourable mention for European AI Association's Distinguished Dissertation award]
24. I. Ponka (2009) "Commitment models and concurrent negotiation strategies in dynamic service markets"
25. M. Allen-Williams (2009) "Bayesian learning for multi-agent coordination"
26. J. Kho (2009) "Decentralised control of wireless sensor networks"
27. A. C. Chapman (2009) "Control of large distributed systems using games with pure strategy Nash equilibria"
28. R. C. Kota (2009) "Decentralised methods for self-adapting agent organisations"
29. S. A. Williamson (2009) "Valuing communication in multi-agent coordination"
30. A. Papakonstantinou (2010) "Mechanism design for the elicitation of costly probabilistic estimates in next generation citizen sensor networks"
31. R. Stranders (2010) "Decentralised coordination of information gathering agents" [Nominated BCS Distinguished Dissertation award]
32. B. Shi (2011) "Analysis and design of competing double auction marketplaces"
33. H. S. Packer (2011) "Evolving ontologies with online learning and forgetting algorithms"
34. A. M. Sykulis (2011) "The exploration-exploitation trade-off in sequential decision making problems"
35. K. S. Macarthur (2012) "Multi-agent coordination for dynamic, decentralised task allocation"
36. L. Tran-Thanh (2012) "Budget-limited multi-arm bandits" [Runner-up BCS Distinguished Dissertation award & Honourable mention for European AI Association's Distinguished Dissertation award]
37. F. M. D. Fave (2012) "Theory and practice of coordination algorithms exploiting the Generalised Distributive Law"
38. C. Williams (2013) "Practical strategies for agent-based negotiation in complex environments"
39. O. Prymak (2013) "Achieving accurate opinion consensus in large multi-agent systems"
40. J. McInerney (2014) "Intelligent agents for mobile location services"
41. M. Venanzi (2014) "Trust-based algorithms for fusing crowdsourced estimates"
42. C. A. Baker (2015) "A combined mechanism for UAV explorative path planning, task allocation and predictive placement"
43. T. Panagopoulos (2016) "Efficient control of domestic space heating systems and intermittent energy resources"
44. Z. Beck (2016) "Collaborative search and rescue by heterogeneous robot teams"
45. E. Alkayal (2017) "Agents for cloud computing applications"
46. A. Zenonos (2017) "Coordinating measurements for participatory sensing applications"
47. M. M. Kahn (2018) "Speeding up GDL-based distributed constraint optimisation algorithms in cooperative multi-agent systems"

Curriculum Vitae

48. R. Pruna “Behavioural biases and agent-based asset price modelling” (submitted)
 49. A. Augustin “Unsupervised statistical learning of topics from text and distributed human evaluation” (writing up)

Academic visitors: J Campos (94-95), K. Decker (02-03), S. Fatima (08), A. Giovannucci (06-07), K. Larson (08), V. R. Lesser (05), M. Mamokas (17), R. A. Micello (08), E. Oliveira (98), T. Paulussen (02), T. Playa-Alba (13), I. Rahwan (02), C. Sierra (96- 97), N. Stefanovitch (09), M. Vinyals (10), Z. Wei (13-14), Z. Xu (09-10), F. Zambonelli (99-00), Y. Zick (12), C. Zhang (96)

94-95	JRC ISPRA	Information economies for sharing earth observation data		10k

Patents

- US patent for negotiation technology with co-inventors at Variab.ly
- European patent for decentralised coordination with co-inventors at BAE Systems
- European and Canadian patent for flexible agent based negotiators with co-inventors at Nortel Networks
- European, US & Japanese patent for autonomous agent architecture with co-inventors at ZUNO
- European and US patent for intelligent agents in business process management with co-inventors at BT Research Labs, ICI Engineering and Loughborough University

Conference Leadership and Participation

- Co-initiator and conference co-chair of 1st Int. Conf. on the Practical Applications of Intelligent Agents and Multi-Agent Systems (1996)
- Co-initiator and conference co-chair for ACM's 1st Int. Conf. on Autonomous Agents (1997)
- Co-initiator Int. Workshop on Agent Theories, Architectures and Languages series. Co-chair 1st (1994), 2nd (1995), 3rd (1996) and 6th (1999) workshops
- Co-initiator and co-organiser of UK Special Interest Group on Multi-Agent Systems (1996-2000)
- Program co-chair 3rd Int. Conf. on Multi-Agent Systems (1998)
- General co-chair 3rd Int. Joint Conf. on Autonomous Agents and Multi-Agent Systems (2004)
- Selected keynote and major presentations:
 - Scientific Discourse, Royal Institution (London, UK) 6/17
 - Ideas Lab, World Economic Forum (Davos, Switzerland) 1/17
 - 7th Int. Conf. on Agents and AI (Lisbon, Portugal) 1/15
 - 3rd Int. Conf. on Computational Sustainability (Copenhagen, Denmark) 7/12
 - Abe Mamdani Memorial Lecture (London, UK) 2/12

Curriculum Vitae

- Patterson Lecture (Warwick, UK) 1/12
- 1st Int. W. on Uncertainty Reasoning for Sensor Networks (Belfast, Northern Ireland) 6/11
- 3rd Int. Symposium on Intelligent Distributed Computing (Ayia Napa, Cyprus) 10/09
- The BCS Computer Journal Lecture (London, UK) 6/09
- 1st Int. Conf. on Visions of Computer Science (London, UK) 9/08
- 22nd Int. Sym. on Computer and Information Science (Ankara, Turkey) 11/07
- 8th Int. Conf. on Business Information Systems (Karlsruhe, Germany) 03/07
- 33rd Int. Conf. on Current Trends in Computer Science (Horrachov, Czech Republic) 01/07
- 18th Belgium-Dutch Conf. on AI (Namur, Belgium) 10/06
- 5th IEEE/WIC/ACM Int. J. Conf. on Web Intelligence (Compiègne, France) 9/05
- 1st Int. Workshop on Autonomous Intelligent Systems (St. Petersburg, Russia) 6/05
- PriceWaterhouseCoopers E-Business Lect. (Leuven, Belgium) 4/05
- Int. Workshop on Intelligent Information Management Systems (Shanghai, China) 3/05
- 2nd Int. Conf. on AI in Engineering and Technology (Kota Kinabulu, Malaysia) 8/04
- 1st Int. Conf. on Autonomic Computing (New York, USA) 5/04
- The BCS Sidney Michaelson Memorial Lecture (Edinburgh, UK) 4/04
- German Nat. Conf. on AI (Hamburg, Germany) 9/03
- ACM Autonomous Agents Research Award Lecture (Melbourne, Australia) 7/03
- Int. Conf. on Intelligent Information Technology (Beijing, China) 9/02
- IFIP Intelligent Information Processing Conf. (Montreal, Canada) 8/02
- 2nd Multiagent Systems Workshop of Central & Eastern Europe (Krakov, Poland) 9/01
- 4th Pacific Rim Int. Workshop on Multi-Agent Systems (Taipei, Taiwan) 7/01
- 2nd Int. Conf. on Intelligent Data Engineering (Shatin, Hong Kong) 12/00
- 16th ACM Conf. on Object-Oriented Programming, Systems, Languages, & Applications (Minneapolis, USA) 10/00
- 6th Pacific Rim Conf. on AI (Melbourne, Australia) 9/00
- 1st Int. Workshop on Group Decision and Negotiation (Glasgow, UK) 7/00
- 15th European Conf. on Cybernetics and Systems Research (Vienna, Austria) 4/00
- 5th Int. Conf. on Practical Aspects of Agents & Multiagent Systems (Manchester, UK) 4/00
- 18th Humphrey Davis Lecture (London, UK) 3/00
- Distinguished Lecture Series in Software Engineering (Austin, USA) 2/00
- 19th Int. Conf. on Expert Systems and Applied AI (Cambridge, UK) 12/99
- 4th Int. Conf. on Cooperative Information Systems (Edinburgh, UK) 9/99
- Computers and Thought Lecture (Stockholm, Sweden) 8/99
- 9th European Workshop on Multi-Agent Systems (Valencia, Spain) 6/99
- 12th Int. Conf. on Industrial and Engineering Applications of AI (Cairo, Egypt) 6/99
- 1st Catalanian Conf. on Artificial Intelligence (Taragona, Spain) 10/98
- European IT Conf. (Brussels, Belgium) 11/97
- 5th Int. Conf. on Cognitive Science (San Sebastian, Spain) 7/97
- 1st Int. Conf. on Practical Aspects of Agents & Multi-Agent Systems (London, UK) 4/96
- 1st Int. Conf. on Multi-Agent Systems (San Francisco, USA) 6/95
- 2nd Int. Conf. on Cooperating Knowledge Based Systems (Keele, UK) 6/94
- Int. Conf. on Solving Complex Problems with Agent Systems (Bielefeld, Germany) 2/94
- 1st Int. Workshop on Cooperative Knowledge Processing (Trento, Italy) 6/91
- Member steering committees for: Int. Workshop on Agent Theories, Architectures and Languages (1994-2007; chair: 2004-2007); Int. Conf. on Autonomous Agents (1997-2006); Int. Conf. on Multi-Agent Systems (1996-98); European Workshop on Multi-Agent Systems (1997-2001); Int. Conf. on Electronic Commerce (2003); and UK Workshop on Multi-Agent Systems (1996-2003)
- Co-organiser OOPSLA Workshop on Agent Oriented Methodologies (2002), IJCAI Workshop on AI and Autonomic Computing (2003), AAMAS Workshop on Smart Grid Technologies (2005), AAMAS Workshop on Defence Applications of Multi-Agent Systems (2005), Fusion Workshop on Autonomous Agents for Data and Information Fusion (2006), AAMAS Workshop on Applications

- of Agent Technology to Disaster Management (2006), Dagstuhl on Negotiation and Market Engineering (2006), AAMAS Workshop on Optimisation in Multi-Agent Systems (2008 and 2009)
- Programme or Senior Programme committee [SPC] member: Autonomous Agents and Multi-Agent Systems (AAMAS) (02 [SPC], 03 [SPC], 05 [SPC]; 07 [SPC]; 08 [SPC]; 09, 10 [SPC]); Int. Conf. on Multi-Agent Systems (95, 96, 98, 00: all); Autonomous Agents (97, 98, 99 [SPC], 00 [SPC], 01 [SPC]: all); Agent Theories, Architectures and Languages (94, 95, 96, 97, 98, 99, 00, 01: all); Practical Applications of Agents and Multi-agent Systems (96, 97, 98, 99); Association for Advancement of AI (AAAI) (98, 07, 08, 10 [SPC]); European Workshop on Multi-Agent Systems (97, 98, 99, 00, 01); Australian Distributed AI Workshop (95, 96); Agent-Mediated Electronic Commerce (98, 99, 00, 02, 03, 04, 05); Agent Oriented Software Engineering (00, 01, 02, 03); Intelligent Agents for Telecoms Applications (96, 97, 98); Int. Semantic Web Conf. (02); World Wide Web Conf. (03, 06); Automated Planning and Scheduling (03); ACM E-Commerce Conf. (04, 07, 09, 10 [SPC]); Autonomic Computing (04, 05); European Conf. on AI (00 [SPC], 06)

International Competitions

- Winner US State Department's TAG Challenge on social mobilization and rapid information gathering (2012)
- Second place in RoboCup Rescue Simulation League (2010)
- Winner 1st and 2nd Int. competitions on the Lemonade Stand Game (2010 & 2011)
- Winner RoboCup Rescue infrastructure development competition (2007)
- Winner 1st and 2nd Int. Competitions on Agent Reputation and Trust (2006 & 2007)
- Winner 20th Anniversary Iterated Prisoner's Dilemma Competition (2004)
- International Trading Agent Competitions in: Market Design (3rd in 09, 1st in 07); Travel Game (3rd in 06, 4th in 05, 2nd in 02; 3rd in 01) and Supply Chain Management (2nd in 05, 6th in 04).

Service to Journals and Research Funders

- Founding editor-in-chief of the Int. Journal of Autonomous Agents and Multi-Agent Systems. [First journal in this area; 1998-2002]
- Editorial board member of: J. of Computer Science and Technology (2004-08), Int. J. of Autonomous Agents and Multi-Agent Systems (2003-13), ACM Trans. on Internet Technology (2003-09), Computational Intelligence (2003-09), Int. J. of Applied Logic (2003-11), Int. J. of Electronic Commerce Research (2002-10), Int. J. of Web Semantics (2002-10), J. of Logic and Computation (1998-11), Int. J. of AI Communications (1996-04), The Knowledge Engineering Review (1994-08), and the AISB Journal (2004-05)
- Referee for following international journals: ACM Computing Surveys, ACM Trans. on Internet Technology, ACM Trans. on Software Engineering and Methodology, Acta Informatica, Artificial Intelligence, AI Review, AI and Law, Chemical Engineering Communications, Comms. of the ACM, The Computer Journal, Computational Intelligence, Concurrent Engineering Research and Applications, Decision Support Systems, Electronic Commerce Research Journal, Int. J. Man-Machine Studies, IEE Proc. on Software, IEE Proc. on Distributed Systems Engineering, IEE Electronics Letters, IEEE Intelligent Systems, IEEE Journal on Selected Areas of Communications, IEEE Internet Computing, IEEE Trans. on Systems Man and Cybernetics, IEEE Trans. on Data and Knowledge Engineering, IEEE Spectrum, IEEE Trans. on Robotics and Automation, Information Fusion Journal, Intelligent and Cooperative Information Systems, Intelligent Systems Engineering, Journal of the ACM, Journal of AI Research, Journal of Web Semantics, Machine Learning Journal, Pervasive and Mobile Computing, Software Practice and Experience, User Modelling and User-Adaptation Interaction
- Evaluator: Academy of Finland; Australian Research Council; Biotechnology and Biological Sciences Research Council; British Academy; Economic and Social Research Council; Engineering and Physical Sciences Research Council; European Research Council; European Science Foundation; Fulbright Scholarship Program; Helmholtz Society; Innovate UK; Israel Science Foundation; Leverhulme Trust; Medical Research Council; Natural Environment Research Council;

Netherlands Computer Science Research Foundation; Norwegian Research Council; Nuffield Foundation; Oxford Martin School; Polish Science Foundation; Research Council of Canada; Royal Academy of Engineering; Royal Irish Academy; Royal Society; Science Foundation Ireland; Swiss National Science Foundation; (US) Department of Homeland Security; (US) National Science Foundation; and Welsh Government.

III. EDUCATION AND OUTREACH

I have taught courses at all levels, from first year introductory courses to specialised final year, masters level and executive education. These courses are typically a mixture of formal lectures, small group tutorials and labs. However, in several cases, I have used a flipped classroom structured around software competitions and the presentation and discussion of research topics. I have also supervised 80+ final year and MSc projects, several of which have led to research publications with the student. I have delivered public lectures on science at the Royal Institution, Pint of Science and Funzing, spoken about robotics at local primary and secondary schools, and presented work at the British Science Festival, the University of Southampton Science Fair, and the Big Bang Science and Engineering Fair.

- **Courses taught** (responsible for course design and delivery): *Programming Fundamentals* introduced principles behind production of quality software and the Pascal programming language (year 1); *Programming Languages* detailed the key structures present in modern high-level programming languages (year 2); *Data Structures* explored the use and development of data structures in programming systems (year 2); *Information Systems Design* covered a broad range of topics related to the design and implementation of distributed information systems (years 3 and 4); *Artificial Intelligence* covered the theories and principles behind the design of intelligent systems (years 3 and 4); *Network Programming* introduced basic concepts of programming for the Internet (year 2); *Intelligent Agents* advanced topics in multiagent systems (years 3 and 4); *E-Business Techniques* advanced information processing techniques for E-Business applications and electronic marketplaces (years 3 and 4). Also taught on the *Executive Education* programme at Imperial College Business School (on AI, internet of things and cybersecurity) and the *British Telecom MSc* (on software engineering and human-computer interaction).
- **Examination duties:** External examiner for University of Edinburgh MSc in AI (1999-02). External examiner for Computer Science Undergraduate Degrees at Universities of York (03-05), Sabah (04-06), Bath (06-08) and Etisalat (05-07). PhD examiner at Universities of: Aberdeen, Hebrew University, Edinburgh, Essex, EPFL, Imperial College, Loughborough, Mannheim, Maastricht, Queensland Univ. of Technology, Queen Mary, Southampton, Strathclyde, Surrey, Swinburne Univ. of Technology, Sydney, Technical Univ. of Eindhoven, University College Dublin, UCL, Universitat Autònoma de Barcelona, Universitat Politècnica de Catalunya, Warwick, Westminster

IV. POLICY AND ADVISORY ROLES

Governments

As the UK Government's Chief Scientific Advisor (CSA) for National Security, I worked with a range of departments and agencies both in the UK and abroad. I was the head of profession for all scientists and engineers (covering the natural, physical, information and social sciences) and championed science at board level. My team responded to urgent operational situations, delivered new capabilities that helped keep the country safe and secure, and undertook longer term research on disruptive technologies. I devised and deployed new mechanisms for delivering innovative technologies in partnership with academia, government labs and a range of companies (both large and small). I was the inaugural post holder and created this multi-agency section from scratch. I worked closely with two Government CSAs, Sir Mark Walport and Sir John Beddington, as an active member of the network of departmental CSAs and provided scientific advice across government.

Curriculum Vitae

- National Security Council: Science and Technology Committee (2013-)
- National Risk Register: lead the cyber risks group (2013-)
- Science Advisory Councils in the National Security area (2010-)
- Non-Executive Board member of CERT-UK (2014-16)
- Prime Minister's Council for Science and Technology: Report on "The age of algorithms" that led to the creation of the Alan Turing Institute (2013)
- Monaco Digital Advisory Council (2018-)
- Defence Scientific Advisory Council: Register of independent members (1997-2017)
- Government Office of Science:
 - Foresight panel member on: Cognitive Systems (2003), CyberTrust (2003), Intelligent Infrastructure Systems (2004) and The Future of Identity (2013)
 - Blackett review team member on: Cybersecurity (2010), Low Probability High Impact Events (2011), Wide-Area Biological Detection (2013), Internet of Things (2014), and Influence and Persuasion (2016)
 - Technology and Innovation Futures working group (2016)
 - Several Departmental Science reviews, including Ministry of Defence and DSTL
- Contributions to Green/White papers and reports, including:
 - "Future Technology Trends in Security" (2018)
 - "Growing the Artificial Intelligence Industry in the UK" (2017)
 - "National Security Strategy and Strategic Defence and Security Review" (2015)
 - "National Security through Technology" (2012)
 - "The UK Cyber Security Strategy" (2011)
 - "Securing Britain in an Age of Uncertainty" (2010)
- Select committees:
 - House of Commons Science and Technology Committee "Algorithms in decision making" (2017)
 - House of Lords Committee on "Artificial Intelligence" (2017)
 - House of Commons Science and Technology Committee "Robotics and AI" (2016)

Industry

- Non-Executive Board member of Imperial College London ThinkSpace (2017-)
- Trustee of the Building Research Establishment (2015-18)
- Advisor to:
 - Contact Engine (2017-)
 - BAE Systems (2016-)
 - Crossword Cybersecurity (2016-)
 - Reliance Cyber Science (2016-)
 - Mentat (2016-)
 - Defence Technology Centre on Systems Engineering and Integrated Systems (2005-08)
 - IBM Autonomic Computing Initiative (2002-05)
 - Aerogility (2000-)

National Academies, Research Institutes and Professional Societies

- Royal Academy of Engineering:
 - Report on "Cyber safety and resilience: strengthening the digital systems that support the modern economy" (chair of working group) (2018)
 - MacRobert Award Committee (2017-)
 - Engineering Policy Committee (2016-)
 - Report on "Connecting data: driving productivity and innovation" (2015)
 - Research and Secondments Committee (2008-11)
 - Membership Panel (2008-11)
 - Industrial Secondment Scheme (Chair: 2008-10)

Curriculum Vitae

- Royal Society:
 - Report on “The impact of artificial intelligence on work” (joint with the British Academy) (2018)
 - Report on “Machine learning: the power and promise of computers that learn by example” (2017)
 - Newton Prize Committee (2017-)
 - University Research Fellows Appointment Panel (2009-13)
- IEE: IT Sector Panel (2002-06)
- UK Computing Research Committee: Member (2004-); Membership Committee (2007-10)
- Founding Director Int. Foundation on Autonomous Agents and Multi-Agent Systems (1998-2012)
- European Network of Excellence in Agent-Based Computing: Management Board (1999-2002)
- Scientific Advisory Boards
 - Alan Turing Institute (2018-)
 - Southampton Univ. Academic Centre of Excellence in Cyber Security Research (2012-16)
 - Imperial College Institute for Security Science and Technology (2011-16)
 - UK National Research and Training Initiative in Large-Scale Complex IT Systems (2007-12)
 - Web Science Research Initiative (2006-10)
 - German Research Centre for AI (DFKI) (2000-12)

Funders

- Engineering and Physical Sciences Research Council
 - Council member (2018-)
 - Autonomous and Intelligent Systems programme advisor (2012-16)
 - Information Technology Computing College (1997-2015)
- Singapore Sustainable Built Environment Strategic Research Panel (2018-)
- Wallenberg Foundation Program on AI, Autonomous Systems and Software (2018-)
- RCUK Partnership for Conflict, Crime and Security Research programme: Advisor (2013-16)
- RCUK Global Uncertainties Programme: Strategic assessor (2012-13)
- European Research Council: Informatics Panel for Advanced Fellowships (2008-12)

V. UNIVERSITY LEADERSHIP

At Imperial, I am a member of the President’s Board (which plans for and addresses issues of broad, strategic, and College-wide significance; identifying, endorsing and approving strategic initiatives, governance matters, major policies, and the financial strategy) and the Provost’s Board (which is responsible for the delivery of the College’s core academic missions of education, research and translation; including oversight of the quality and efficacy of education and research; recruitment, development and retention of academic and research staff; and student life and well-being). I am also the College lead on two major building projects (Michael Uren Biomedical Engineering and London Institute for Medical Sciences, total budget £200m), budget holder for our HEIF funding, and a member of the transformation investment board which is responsible for the system and process changes associated with enhancing our academic and professional support services. I have previously been a head of section (18 academics and 100 researchers), head of a large department (110 academics, 2000 students) and an associate dean for engineering, science and maths.

As Vice-Provost for Research and Enterprise at Imperial, I am responsible for developing and delivering the College’s research and enterprise strategy across all the faculties (Engineering, Natural Sciences, Medicine and the Business School). The total research budget is £475 million, we engage with 500+ corporate partners and have 130 active start-ups. Our overarching aim is to achieve enduring excellence for the benefit of society and we have the greatest concentration of high-impact research of any major UK university (according to REF 2014). My role is to enhance the quality, impact, management and delivery of research and the main areas of focus include: nurturing research talent, sustaining world-class core academic disciplines, fostering multidisciplinary research,

Curriculum Vitae

establishing effective partnerships and ensuring our research informs, influences and impacts. To enable this, we need to have world-class research facilities and infrastructure, a vibrant and healthy research environment and adequate research funding. In terms of enterprise, my main areas of focus include our corporate partnerships, technology transfer and spin outs, developing our entrepreneurial eco-system and technology foresight. New initiatives include re-invigorating the global challenge institutes, setting up 25 Imperial College Networks and Centres of Excellence, establishing the excellence fund for frontier research and the EU partners fund, redesigning the College ethics functions, signing the College up to the San Francisco Declaration on Research Assessment, establishing the College as a significant contributor to the Global Challenge Research Fund, facilitating the development of the Enterprise Lab and the Imperial College Advanced Hackspace, and helping establish the Techcelerate programme for entrepreneurial post-docs.

Imperial College

- 2017- Chair of Michael Uren Biomedical Engineering Research Hub Strategic Board
- 2017- Stakeholder Board for the London Institute for Medical Sciences
- 2017- Equality, Diversity and Inclusion Strategy Group
- 2017- Transformation and Investment Board
- 2017- Audit and Risk Committee
- 2016- President's Board
- 2016- Provost's Board
- 2016- Chair Cross College Research Proposals Review Group which, amongst other things, selects the President's PhD Scholars and the Imperial College Research Fellows, and allocates the Impact Acceleration Account Funds.

University of Southampton

- 2015-16 Head of the Electronics and Computer Science Department
 - Staff: 110 academics, 150 researchers, 35 other
 - Students: 1300 undergrads; 300 postgrad taught, 400 postgrad research
 - Annual turnover: £40m
- 2011-15 Founding Head of the Agents, Interaction and Complexity Group (14 academics, 50 RFs and PhD students)
- 2008-10 Associate Dean (Research and Enterprise) for Faculty of Engineering, Science and Mathematics
- 2008-10 University's Research and Enterprise Leadership Group
- 2008-10 Chair Faculty Research and Enterprise Committee
- 2008-10 Faculty Strategy and Policy Committee
- 2008-10 Member of Senate
- 2007 Responsible for Computer Science RAE return (rated joint second in terms of GPA)
- 2007-10 University's Knowledge Creation and Transfer Management Board
- 2004-07 Advisory Panel for University's Research Support Office
- 2003-08 Deputy Head of School (Research)
- 2001-03 Chair School's Research Committee
- 2001-11 Head Intelligence, Agents, Multimedia Group (18 academics, 100 RFs and PhD students)
- 2001 Responsible for Computer Science RAE return (move from 5 to 5*)

Queen Mary University of London

- 1995-99 Head of the Intelligent Systems Group (4 academics, 12 RFs and PhD students)

VI. PUBLICATIONS**BOOKS**
