Biography

Stepan Lucyszyn *PhD, DSc, FIEEE*, is Professor of Millimetre-wave Systems and Director of the *Centre for Terahertz Science and Engineering*, at Imperial College London.

After working in industry, as a satellite systems engineer for maritime and military communications, he spent 12 years researching microwave and millimetre-wave RFIC/MMICs. He co-edited a popular book on RFIC/MMICs, published by the IEE (now IET) in 2001. This book was translated into Chinese in 2007. For his contributions to RFIC/MMICs, he was made an *Adjunct Professor* at UESTC (Chengdu, China) in 2008.

In 2001, Prof. Lucyszyn started working on RF MEMS. In 2004, he published a review paper on RF MEMS technology, which won an IEE Premium Award in 2005. He edited the book entitled *Advanced RF MEMS*, published by Cambridge University Press in 2010. For his contributions to RF MEMS, he was made a *Guest Professor* at Tsinghua University (Beijing, China) in 2008.

Prof. Lucyszyn first starting working on millimetre-wave and terahertz technologies in 1992 and 1996, respectively. In 2010, he was awarded the DSc degree (higher doctorate) of Imperial College for his contributions to *Millimetre-wave and Terahertz Electronics*. More recently, he has concentrated his activities on emerging millimetre-wave photonic crystal and 'over the THz horizon' thermal infrared 'THz Torch' technologies. In 2012, he co-founded the cross-disciplinary *Centre for Terahertz Science and Engineering* at Imperial College London. Since 2014, Prof. Lucyszyn has served as a founding member of the Steering Group for the UK's EPSRC Terahertz Network (TeraNet) and in 2016 joined the IEEE Technical Committee for Terahertz Technology and Applications (MTT-4).

Prof. Lucyszyn has (co-)authored over 200 papers and 12 book chapters in applied physics and engineering, and delivered many Plenary and Keynote presentations at international conferences. In addition, he has served as a member of TPCs and prize committees for various international conferences. Over the past few years Prof. Lucyszyn has evaluated numerous international research grant proposals and sat on funding panels within Europe and North America.

Prof. Lucyszyn served as *Editor-in-Chief* for the *International Journal of Electronics* (TandF, 2002-05), *Associate Editor* for the *Journal of Microelectromechanical Systems* (IEEE/ASME, 2005-09) and sat on the Editorial Boards for the international journals *Microwaves, Antennas & Propagation* (IET, 2007-14) and *Wireless Power Transfer* (CUP, since 2014-16). Prof. Lucyszyn was a member of both the EuMA General Assembly, representing Group 4 (UK, Ireland, Gibraltar, Malta), and EuMA Steering Committee (2010-12). He was the *Chairman* of the *41st European Microwave Conference*, held in Manchester (UK, 2011) and co-chaired the *11th European Microwave Integrated Circuits Conference*, held in London (UK, 2016). He was an *IEEE Distinguished Microwave Lecturer (DML)* for 2010-12, *Emeritus DML* for 2013 and appointed a *EuMA European Microwave Lecturer (EML)* for 2013-present. Prof. Lucyszyn has been elected to Fellow of the *Institute of Physics* (UK, 2005), *Institution of Engineering and Technology* (UK, 2005), *The Electromagnetics Academy* (USA, 2008) and *Institute of Electrical and Electronic Engineers* (USA, 2014). In Apr. 2014, he co-founded the Imperial College London spin-out company Drayson Wireless Ltd., being a co-inventor in two patent families associated with radiative and inductive wireless power transfer.
