

5 ADMISSIONS TIPS

1

Research the course

- Take your time in [researching the course](#)
- Look at the [Study Guides](#)
- Learn about [how you will study](#) your modules in Medical Biosciences

2

Be informed

- Speak to current students on [UniBuddy](#)
- Attend an [Open Day](#)
- Read about [Student Life at Imperial College London](#)

3

Talk about YOU

- Make sure your personal statement includes your interests outside of Science
- Tell us why you are suitable for the course – what are your skills and attributes?
- Write about your knowledge or experience in biomedical field (work, volunteering, projects, lab projects)

4

Talk to your referee

- Make sure your referee knows what courses you are applying for
- Tell your referee about your extra-curricular activities as well as your academic achievements
- [Referee guidance](#) can be viewed on UCAS

5

Make an informed decision

- If you receive an offer, come to Offer Holder events and campus tours
- If you not receive an offer, ask for feedback and re-apply. We look favourably at reapplication / gap years.
