

CONSTRUCTION UPDATE

White City Campus is Imperial College London's major new campus in west London, bringing together world-class researchers, businesses and partners to work, share ideas and turn cutting-edge research into benefits for society.

The **Construction Update** provides news and information about building works and upcoming construction activities on the campus.

Read more about White City Campus construction activities on our website:

www.imperial.ac.uk/white-city-campus/about/campus-development

RESPONDING TO COVID-19

The Imperial community has shown respect for each other's safety and wellbeing as we deal with coronavirus. That spirit—of individual responsibility and respect for others—continues after lockdown restrictions cease on 19 July.

We still expect everyone to wear a face covering indoors—this applies to most indoor settings on campus, with some local exceptions and unless you are exempt.

We also strongly advise students and staff to take weekly tests if when attending campus regularly or living in halls of residence.

For updates on safety, testing and Imperial's response to COVID-19, visit our webpages:

BUILDING UPDATES

North campus

School of Public Health

On-going works on the construction of the School of Public Health building continue, including the recent installation of a new pit lane on the north side of the site, which is already in use segregating construction vehicles from College operations. This is to enhance convenience and safety on the north campus

Parklets

The College has introduced two new temporary amenity spaces called 'parklets' to provide students and staff with a relaxed space to work and socialise outdoors. Planting was carefully selected to create a pollen-friendly habitat, with timber pergolas and green roofs capturing rainwater for climbing jasmine and wisteria.

Road Widening Works

The road widening works at the north entrance have successfully concluded and the new college road is in use.

South campus

Scale Space

The steel frame works are now complete and the programme, as expected, has now moved to the external walls and roof. The overall project is on programme and works are still expected to complete in Q2 2022.

Sport Space (MUGA Pitch)

The new multi-sports facility located at the front of Scale Space is now complete. It offers a multi-sports pitch located at the front of the Scale Space buildings.

UK Power Networks Substation

The energisation of the first of the two White City primary substation transformers, together with the HV switchboard, took place in mid September. The energisation of the second of the two transformers is due imminently, at which point the substation will be fully energised.

GET IN TOUCH

To contact us with a general enquiry about construction or building management, please email Sarah King, our White City Campus Manager, at s.king@imperial.ac.uk. For urgent and out of hours enquiries, please call our Security Team on 020 7589 1000.
