White City Campus is Imperial College London’s major new campus in West London, bringing together world class researchers, businesses and partners to work, share ideas and turn cutting-edge research into benefits for society.

The Construction Update provides news and information about building works and upcoming construction activities on campus.

Read more about construction activities on campus on our website at:

---

**North site**

**Residential Tower**

Contractors Laing O’Rourke continue work in apartments across a number of floors of the building. Landscaping works around the base of the building are progressing.

**Sir Michael Uren Biomedical Engineering Research Hub**

During September, contractors ISG worked on finishing touches inside the building. External landscaping works to the north, west and south of the building are complete. External work to the east of the building is expected to continue until December.
**BUILDING UPDATES**

**South site**

*Scale Space*
In October, contractors Western Building Systems will install the gold mesh cladding on Building A. The steel core structure of Building B will also be installed this month.

**OTHER WORKS ON CAMPUS**

The construction of the new electrical substation beneath the Westway is progressing well and in accordance with the expected power-on date of January 2021.

Arrangements are underway to prepare the route across the north of the Campus for the delivery of the two transformers in early December of this year. The installation of the transformers will represent completion of a major milestone in the overall construction progress.
