## Imperial College Tribology Course: Friction Wear and Lubrication

8 - 10 September 2025

Venue: Imperial College London, South Kensington Campus

**An intensive course providing a comprehensive and up-to-date understanding of friction, lubrication and wear.**

### Course aims:

The course will focus on aspects of Tribology relevant to the design and performance of machine components and will cover underlying principles to analyse and solve tribological problems.

### Course content:

The course covers a range of topics:

- **Contact mechanics**
- **Surface roughness**
- **Fluid film lubrication**
- **Lubricant chemistry and rheology**
- **Boundary lubrication**
- **Case studies**

### Course details:

**Duration:** 3 days

**Fees (VAT exempt):**

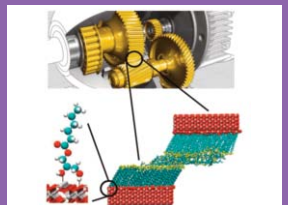

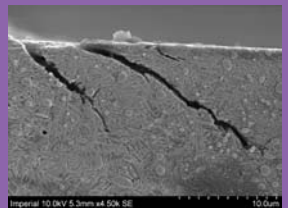

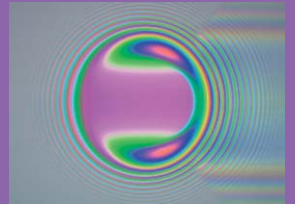

- **£2500** before 30 July 2025

- **£3000** after 30 July 2025

- 25% discount for groups of 3+ attendees

from the same organisation

- Please contact us for groups of 10 or more

Imperial College  
London

## Imperial College Tribology Course: Friction Wear and Lubrication

8 - 10 September 2025

### Who should attend?

The course is designed for engineers, scientists and technical managers working within Tribology who need a comprehensive understanding of the subject.

### Benefits of attending:

Will provide participants an extensive appreciation and knowledge of the underlying concepts of tribology including friction, wear, lubrication and contact mechanics that can be applied to solve real problems encountered in industrial practice.
