PRODUCT DESCRIPTION

ICL APPROVED SPECIFICATION

Range: Altro Whiterock DigiClad

Description: Hygienic Wall Cladding.

Application: Areas of use include feature walls, foyers, reception areas, retail, bedrooms

Other: Hygienic wall cladding with high quality photographic print that is impact resistant, grout-free and easy to clean is made from a high-quality, PVCu polymer that can handle temperatures up to 60°C. Hard coat technology provides scratch resistant properties for added surface protection. It meets all current European Union (EU) Directives on health and hygiene. Fully compatible with Altro Safety Flooring.

TYPICAL NBS SPECIFICATION

M50: 110

WALL FINISH

Standard: Approved Hygienic Wall Cladding to Imperial College London Architectural Standards

Location: To architects finishes schedules.

Base:

- Good quality fairfaced brick or blockwork. Well aligned joints bagged up flush. Straight to within 3mm over a 2m straight edge and bricks/blocks flush with ones adjacent.
- Sand & cement rendering 1:3 to steel trowel finish.
- 12.5mm thick plasterboard.
- Minimum 9mm MDF dense wood based panels fixed at 200mm centres to suitable studwork, or direct to solid substrate.
- Ceramic tiles which are clean and securely bonded to substrate.
- Certain sound painted surfaces
- Plastered surfaces - finished with steel trowel. (pink lightweight plasters generally not suitable).

Preparation: Porous surfaces to be thoroughly sealed with diluted PVA applied to the surface 12 hours prior to the installation. Make good as needed by local patching or filling with a repair mortar or sand and cement with Unibond mix, to give a smooth, even surface.

Manufacturer: Altro Ltd, Works Road, Letchworth Garden City, Hertfordshire, SG6 1NW

Range: Altro Whiterock DigiClad

Type: Hygienic Wall Cladding to EN15102

Width: 1220mm
