* The values of the premia could be reviewed and increased (or decreased) annually in the NHS; pay premia linked to specialties could also be ceased, or new ones created. NHS Employers will issue a pay circular as and when values are revised, which UCEA will translate into a pay Update for HEIs. Any increases linked to a general pay award would apply to all trainees currently in receipt of such an award; any other increases / changes would only apply to trainees joining the relevant training programmes after the change has been announced.

** Depending on the length of training programme. See the NHS pay circular for details.
