Standards for members of NHS boards and Clinical Commissioning Group governing bodies in England

November 2013

All members of NHS boards and CCG governing bodies should understand and be committed to the practice of good governance and to the legal and regulatory frameworks in which they operate. As individuals they must understand both the extent and limitations of their personal responsibilities.

To justify the trust placed in me by patients, service users, and the public, I will abide by these Standards at all times when at the service of the NHS.

I understand that care, compassion and respect for others are central to quality in healthcare; and that the purpose of the NHS is to improve the health and well-being of patients and service users, supporting them to keep mentally and physically well, to get better when they are ill and, when they cannot fully recover, to stay as well as they can to the end of their lives.

I understand that I must act in the interests of patients, service users, and the community I serve, and that I must uphold the law and be fair and honest in all my dealings.
Personal behaviour

1. As a Member¹ I commit to:
   The values of the NHS Constitution
   Promoting equality
   Promoting human rights
   in the treatment of patients and service users, their families and carers, the community, colleagues and staff, and in the design and delivery of services for which I am responsible.

2. I will apply the following values in my work and relationships with others:
   - **Responsibility**: I will be fully accountable for my work and the decisions that I make, for the work and decisions of the board², including delegated responsibilities, and for the staff and services for which I am responsible
   - **Honesty**: I will act with honesty in all my actions, transactions, communications, behaviours and decision-making, and will resolve any conflicts arising from personal, professional or financial interests that could influence or be thought to influence my decisions as a board member
   - **Openness**: I will be open about the reasoning, reasons, and processes underpinning my actions, transactions, communications, behaviours, and decision-making and about any conflicts of interest
   - **Respect**: I will treat patients and service users, their families and carers, the community, colleagues and staff with dignity and respect at all times
   - **Professionalism**: I will take responsibility for ensuring that I have the relevant knowledge and skills to perform as a board member and that I reflect on and identify any gaps in my knowledge and skills, and will participate constructively in appraisal of myself and others. I will adhere to any professional or other codes by which I am bound
   - **Leadership**: I will lead by example in upholding and promoting these Standards, and use them to create a culture in which their values can be adopted by all
   - **Integrity**: I will act consistently and fairly by applying these values in all my actions, transactions, communications, behaviours, and decision-making, and always raise concerns if I see harmful behaviour or misconduct by others.
