

Partner(s)	Partner Location	Level	Type	Award	Awarding Body	Programme Title	Faculty	Department	Academic Lead (or equivalent)	Responsibilities of Imperial	Responsibilities of Partner	Status
<b>Imperial Recognised Locations</b> Registration for a doctoral programme of a student studying full-time at a specialist research institution where the proposed College supervisor is based full-time. A successful student would receive an Imperial College award.												
Francis Crick Institute	UK	PGR	Imperial Recognised Locations (IRL)	PhD	Imperial	Crick Studentship				Responsible for quality and standards	Co-supervision	Active
Diamond Light Source and Harwell Campus	UK	PGR	Imperial Recognised Locations (IRL)	PhD	Imperial	PhD				Responsible for quality and standards	Co-supervision	Active
CERN	Switzerland	PGR	Imperial Recognised Locations (IRL)	PhD	Imperial	PhD				Responsible for quality and standards	Co-supervision	Active
<b>Joint award</b> A programme of study which leads to a qualification which is jointly awarded by Imperial College and normally one other institution with degree-awarding powers. The programme is jointly designed, delivered and assessed by Imperial and the partner. A successful student would receive a single award made jointly by both institutions.												
Nanyang Technological University (Lee Kong Chian School of Medicine)	Singapore	UG	Joint Award	MBBS	Imperial and NTU	MBBS	Medicine	Medicine	Emma Horan	Jointly responsible for quality and standards	Jointly responsible for quality and standards	Winding down
<b>Double award</b> One programme of study which leads to two linked qualificationa of the same level, duration and credit value - one from each of the two partner institutions. The programme of study is either collaboratively designed, delivered and/or assessed or consists of two awards of the same level and value which have been linked via collaborative activity such as joint teaching. There is no double counting of credit. A successful student would receive separate awards from both Imperial and the partner. Each institution will only award their own degree if the requirements for both institutions' awards have been met.												
Royal College of Art	UK	PGT	Double Award	MSc and MA	Imperial and RCA	Innovation Design Engineering	Engineering	Dyson School of Design Engineering	Dr Stephen Green / Dr Leila Sheldrick	Jointly responsible for quality and standards	Jointly responsible for quality and standards Lead administrative party	Active
<b>Collaborative Imperial award</b> An Imperial programme of study which leads to an Imperial award which is either wholly or partially collaboratively designed, delivered and/or assessed by Imperial College and the partner(s). A successful student would receive a single Imperial award, however the diploma supplement will record the contribution from the partner(s).												
University of Cumbria	UK	UG	Collaborative Imperial Award	MBBS	Imperial	Medicine (Graduate Entry)	Medicine	Pears Cumbria School of Medicine	Professor Mary Morrell	Responsible for quality and standards  Responsible for curriculum  Lead administrative party	Responsible for teaching spaces and resources  Responsible for student services and support	Active
Natural History Museum	UK	PGT	Collaborative Imperial Award	MSc	Imperial	Taxonomy, Biodiversity and Evolution	Natural Sciences	Life Sciences	Prof Alfried Vogler	Jointly responsible for quality and standards  Jointly responsible for curriculum  Lead administrative party	Jointly responsible for curriculum  Responsible for delivery of teaching ad resources	Active
Natural History Museum	UK	PGT	Collaborative Imperial Award	MRes	Imperial	Biosystematics	Natural Sciences	Life Sciences	Prof Alfried Vogler	Jointly responsible for quality and standards  Jointly responsible for curriculum  Lead administrative party	Jointly responsible for curriculum  Responsible for delivery of teaching ad resources	Active
Royal College of Art	UK	PGT	Collaborative Imperial Award	MSc	Imperial	Healthcare and Design	Medicine	Surgery and Cancer	Prof Ara Darzi	Imperial responsible for the quality and standards of the award and for Imperial owned modules which are also taught on the RCA’s MRes in Healthcare and Design (see below)  Shared marking of collaborative modules  Possibility of projects co-supervised by RCA (the primary supervisor would be from Imperial)	RCA responsible for Module 1a – Introduction to design and innovation	Active

<b>Collaborative External award</b> A programme of study leading to an award from a partner institution which is either wholly or partially collaboratively designed, delivered and/or assessed by Imperial College and the partner(s). A successful student would receive an award from the partner institution however the diploma supplement should record Imperial's contribution.												
Royal College of Art	UK	PGT	Collaborative External Award	MRes	RCA	Healthcare and Design	Medicine	Surgery and Cancer	Prof Ara Darzi	RCA responsible for the quality and standards of the Shared marking of collaborative modules (Imperial lead institution for collaborative modules)  Possibility of projects co-supervised by Imperial (the primary supervisor would be from RCA)	Imperial responsible for Module 1b Introduction to Healthcare, Module 3 a health research tool kit, Module 5 Innovation, Module 6 Helix Design Dash, Module 7 Designing for behaviour change and Module 8 Leadership  Shared marking of collaborative modules (Imperial lead institution for collaborative modules)	Active
<b>Collaborative Module agreement</b> Relates to 1) an individual module which contributes to an Imperial College award but which is wholly delivered, taught and assessed by another institution/organistion or 2) an individual module whic contributes to an Imperial College award which is partially or jointly delivered, taught and/or assessed by another institution.												
London Business School	UK	PGT	Collaborative Module(s)	MRes / PhD	Imperial / LBS	All MRes / PhD programmes	Business School	Business School	Nicola Hahn	Responsible for quality and standards for Imperial modules	Responsible for quality and standards for LBS modules	Active
Queen Mary University of London	UK	PGT	Collaborative Module(s)	MRes / PhD	Imperial / QMUL	All MRes / PhD programmes	Business School	Business School	Nicola Hahn	Responsible for quality and standards for Imperial modules	Responsible for quality and standards for QMUL modules	Active
University of Surrey	UK	PGT	Collaborative Module(s)	MSc	Imperial	MSc Genomic Medicine	Medicine	National Heart and Lung Institute	Mike Lovett	Responsible for quality and standards for Imperial modules	Responsible for quality and standards for Surrey module	Active
Institute of Cancer Research (ICR)	UK	PGT	Collaborative Module(s)	MSc	Imperial	MSc Genomic Medicine	Medicine	National Heart and Lung Institute	Mike Lovett	Responsible for quality and standards for Imperial modules	Responsible for quality and standards for ICR module	Active
<b>Partner Research Institute (PRI) scheme</b> Registration for a doctoral programme at an approved PRI which provides for each student to be guided jointly by an Imperial College supervisor and a local supervisor at the PRI. PRIs may be established with businesses, universities, or organisations without degree-awarding powers where the partner offers particular research opportunities that are not available elsewhere and is the only place that the research can be carried out. A minimum period of attendance at Imperial is required. A successful student would receive an Imperial College award only.
