

Partner(s)	Partner Location	Level	Type	Award	Awarding Body	Programme Title	Faculty	Department	Responsibilities of Imperial	Responsibilities of Partner	Status
Imperial Recognised Locations Registration for a doctoral programme of a student studying full-time at a specialist research institution where the proposed College supervisor is based full-time. A successful student would receive an Imperial College award.											
Francis Crick Institute	Uk	PGR	Imperial Recognised Locations (IRL)	PhD	Imperial	Crick Studentship			Responsible for quality and standards	Co-supervision	Active
Diamond Light Source and Harwell Campus	UK	PGR	Imperial Recognised Locations (IRL)	PhD	Imperial	PhD			Responsible for quality and standards	Co-supervision	Active
CERN	Switzerland	PGR	Imperial Recognised Locations (IRL)	PhD	Imperial	PhD			Responsible for quality and standards	Co-supervision	Active
Joint award A programme of study which leads to a qualification which is jointly awarded by Imperial College and normally one other institution with degree-awarding powers. The programme is jointly designed, delivered and assessed by Imperial and the partner. A successful student would receive a single award made jointly by both institutions.											
Nanyang Technological University (Lee Kong Chian School of Medicine)	Singapore	UG	Joint Award	MBBS	Imperial and NTU	MBBS	Medicine	Medicine	Jointly responsible for quality and standards	Jointly responsible for quality and standards	Winding down
Double award One programme of study which leads to two linked qualifications of the same level, duration and credit value - one from each of the two partner institutions. The programme of study is either collaboratively designed, delivered and/or assessed or consists of two awards of the same level and value which have been linked via collaborative activity such as joint teaching. There is no double counting of credit. A successful student would receive separate awards from both Imperial and the partner. Each institution will only award their own degree if the requirements for both institutions' awards have been met.											
Royal College of Art	UK	PGT	Double Award	MSc and MA	Imperial and RCA	Innovation Design Engineering	Engineering	Dyson School of Design Engineering	Jointly responsible for quality and standards	Jointly responsible for quality and standards Lead administrative party	Active
Collaborative Imperial award An Imperial programme of study which leads to an Imperial award which is either wholly or partially collaboratively designed, delivered and/or assessed by Imperial College and the partner(s). A successful student would receive a single Imperial award, however the diploma supplement will record the contribution from the partner(s).

Collaborative External award

A programme of study leading to an award from a partner institution which is either wholly or partially collaboratively designed, delivered and/or assessed by Imperial College and the partner(s). A successful student would receive an award from the partner institution however the diploma supplement should record Imperial's contribution.

Royal College of Art	UK	PGT	Collaborative External Award	MRes	RCA	Healthcare and Design	Medicine	Surgery and Cancer	RCA responsible for the quality and standards of the Shared marking of collaborative modules (Imperial lead institution for collaborative modules) Possibility of projects co-supervised by Imperial (the primary supervisor would be from RCA)	Imperial responsible for Module 1b Introduction to Healthcare, Module 3 a health research tool kit, Module 5 Innovation, Module 6 Helix Design Dash, Module 7 Designing for behaviour change and Module 8 Leadership Shared marking of collaborative modules (Imperial lead institution for collaborative modules)	Active
----------------------	----	-----	------------------------------	------	-----	-----------------------	----------	--------------------	--	---	--------

Collaborative Module agreement

Relates to 1) an individual module which contributes to an Imperial College award but which is wholly delivered, taught and assessed by another institution/organisation or 2) an individual module which contributes to an Imperial College award which is partially or jointly delivered, taught and/or assessed by another institution.

Partner Research Institute (PRI) scheme

Registration for a doctoral programme at an approved PRI which provides for each student to be guided jointly by an Imperial College supervisor and a local supervisor at the PRI. PRIs may be established with businesses, universities, or organisations without degree-awarding powers where the partner offers particular research opportunities that are not available elsewhere and is the only place that the research can be carried out. A minimum period of attendance at Imperial is required. A successful student would receive an Imperial College award only.

Split PhD scheme

Registration for a doctoral programme of a student undertaking a specified duration of their research training at an overseas institution with which 1) Imperial College has established links or connections and/or 2) in cases where the research problem requires local fieldwork. Students would be jointly guided by an Imperial College supervisor and a local supervisor. A minimum period of attendance at Imperial is required. A successful student would receive an Imperial College award only.
