

Guidance on how to get involved in UROP can be found at: www.imperial.ac.uk/urop

UROP is a flexible environment aimed at maximising the ability of staff and students to collaborate in a way that suits both parties. Therefore, there is no standard or template UROP, and as in 2020 the pandemic may impact on plans. **Contact academic staff directly.** Be prepared for polite refusals, to persevere, to perhaps wait a year for that ideal UROP (*develop your research network and opportunities may follow!!!*) **Good luck in finding that research opportunity.** If you have a query about the UROP process feel free to email: urop@imperial.ac.uk

Imperial College's 2021 Summer UROP Bursary Competition : DEADLINE for bursary applications will be **mid-February**

Bookmark this page for precise details from January: <http://www.imperial.ac.uk/students/fees-and-funding/undergraduate-funding/loans-and-grants/funding-for-placements/urop/>

The dept supervising a UROP does not need to have registered the UROP in order for a student to apply for a bursary

Other sources of funding (not exhaustive) are suggested at: <http://www.imperial.ac.uk/urop/how-to-get-involved/funding/sources-of-funding/>

Quick points to note about UROP: <https://www.imperial.ac.uk/urop/how-to-get-involved/>

Perhaps start with a chat with your personal tutor if you are new to the idea of pursuing some undergraduate research. Review [motivations for doing a UROP](#).

- UROP is an extra-curricula activity normally undertaken during the summer vacation (*some staff might consider a term-time UROP*)
- Most UROPs involve second and penultimate year students. First and final year students can get involved at the discretion of staff.
- UROPs are either advertised (*UROP website or more often locally in depts*) or are personally negotiated by a student with a member of staff. The vast majority are not advertised on the UROP website, although some interesting stuff does appear. Be led by your own research interests or by skills you wish to develop/gain experience of.
- Local selection procedures apply if more than one student expresses an interest in devising a UROP with any one academic.
- You are not confined to your own department. ➤ The usual duration (excluding gaps) is 6-10 weeks full or near to full-time. ➤ however, a viable UROP can also be delivered in a shorter period, and indeed a longer period (*longer periods may also be part-time during term-time*).
- The duration (*and the inclusion of breaks/holidays within a summer UROP*) and hours of attendance are matters for negotiation with the supervisor.
- Vacation UROPs ought to take place between 1 July and 30 Sept. They can start in June at the discretion of your home dept (so ask).
- While a supervisor is at liberty to provide a bursary to support a student with their living costs it is not a requirement as the UROP is not employment. However, supervisors who are not in a position to provide a bursary from their own departmental funds need to be willing to support you with a bursary application to a third party.
- Bursary schemes have eligibility criteria (e.g. year of study; nationality; minimum/maximum length) so check carefully.
- Secure funding first – if that is your plan - before worrying about having the host department register the UROP (*the aim of the "registration" is to ensure appropriate management of the confirmed funded or unfunded **extra-curricula** research experience.*)
