

26 April 2016

COLLEGE NOTICE

VICE-DEAN (RESEARCH), FACULTY OF ENGINEERING

Professor Nigel Brandon has accepted appointment as Vice-Dean (Research) for the Faculty of Engineering from 1 May 2016 until 31 July 2018.

Professor Brandon will continue to hold his current roles within the Faculty of Engineering as Director of the Sustainable Gas Institute, BG Chair in Sustainable Gas, and Professor of Sustainable Development in Energy in the Department of Earth Science and Engineering.

Professor Brandon joined the College in 1998 as Senior Lecturer in Electrochemical Engineering, and since then he has occupied a number of leadership positions including serving as Director of the Energy Futures Lab. His research is focused on electrochemical devices for energy applications, with a particular focus on fuel cells, electrolysers, and batteries. In 2011 he was awarded the OBE for services to UK-China science.
