Important Information for Correct Disposal of the Product in accordance with EC Directive 2002/96/EC.

This appliance has been manufactured to the strictest standards and complies with all applicable legislation, including Electromagnetic Compatibility (EMC) and Low Voltage (LVD) Directives.

CE Declaration of Conformity:

Serial Number: [Provide serial number]

Appliance Model: [Provide appliance model]

Your appliance and its packaging contain chemicals that are harmful to the environment. If your appliance has a refrigerator or freezer compartment, it may contain ozone-depleting substances.

Please enter the details on the appliance serial plate below for reference to assist CDA Customer Care in the event of a fault with your appliance.

Appliance Information:

[Blank space for user to fill in information]
FIRST USE OF THE OVEN

To cool down before using it again, the interior should be switched off. After a power outage, you must wait for the oven to cool down again. If the oven was left for a long period of time, the enamel surface may smoke if it is then used. Do not use abrasive cleaners or powders that will scratch the surface. Do not allow vinegar, coffee, milk, saltwater, lemon or tomato juice to remain in contact with enamel parts. Do not allow food splatters to remain on porcelain. Before using the oven for the first time, we recommend that you clean it.
Functions

Please note: the oven light will operate on all cooking functions. This function switches on the oven light in the cavity.

Oven lamp
