Welcome back to 2nd Year Students

Professor Paul Robinson
Head, Aeronautics Department

2 October 2018
Welcome back

Congratulations on completing the 1st year

2nd year counts for 2x(1st year)
Some advice

Tutorial sheets – a key part of consolidating your learning

Think about how you are spending your time between the various parts of the course (look at marks to help with this)

If things didn’t work out last year as well as you’d hoped – think about how to change that this year (talk with personal tutor for advice)

Aim to achieve a good balance between academic studies and university life
Only two summer vacations left before you will be applying for a job.
Best wishes for a successful year
