# START-OF-SESSION

We have created a space on our webpage for Start-of-Session information relating to the MSc programme of studies for new entrants and returning students. Answers to FAQs are included in these webpages, along with timetables for your very first week. We will continue to update this site as further information becomes available:

<http://www.imperial.ac.uk/civil-engineering/prospective-students/postgraduate-taught-admissions/start-of-session-2019-2020/>

**Note:** At this time the processing of documents by the College Registry is taking up to two weeks, this is due to the amount of material being received and processed. In the interests of efficiency, please keep email correspondence to a minimum.

### **Timetables**

We are currently compiling week 1 timetables, which will follow. We will also provide a snapshot of a draft indicative timetable of typical lectures per group, note that this will be advisory and for information, as timetables are still in draft. Provisional timetables are scheduled for release in early September – more to follow on this.

### **Part-time Students**

Returning students: please contact your Cluster Administrator.

New students: further details will be provided in the coming week.

# MSc CAREERS INTRODUCTION

In conjunction with the Imperial College Careers Service, we have arranged introductory sessions for the afternoon of **9 October 2019**. These will be reflected in your online timetables when they are released.

The majority of graduate roles are open for applications in September onwards, which means that MSc students do not have a lot of time to get settled into their course before needing to start applications.

Attend these sessions to discover the support available to you from the Careers Service, learn the key information you need to make your applications, and know where to go to get them checked before sending them off.

**Take a look at our website to see the breadth of support areas provided by the Careers Service:**

<https://www.imperial.ac.uk/careers>

We are hoping to have a member of staff from the International Team in attendance at these sessions, in the meantime the following may be of interest to those of you who are Tier 4 Visa-dependent.

**For international student specific advice, regarding visas and more, from the International Student Support Team:**

<https://www.imperial.ac.uk/study/international-students/visas-and-immigration/faq/>

**Visa specific advice:**
