Welcome to the College

Congratulations on joining Imperial College London, the only university in the UK to focus exclusively on science, medicine, engineering and business.

From Fleming’s discovery of Penicillin to Gabor’s invention of holography, Imperial has been changing the world for well over 100 years. You’re now part of this prestigious community of discovery and we hope you will take this opportunity to make your own unique contribution.

We’re committed to providing you with the very best academic resources to enrich your experience. We also provide a dedicated support network and a range of specialist support services to make sure you have access to the appropriate help, whether that’s further training in an academic skill like note taking or simply having someone to talk to.

You’ll have access to an innovative range of professional development courses within our Graduate School throughout your time here, as well as opportunities to meet students from across the College at academic and social events.

We actively encourage you to seek out help when you need it and try to maintain a healthy work-life balance. Our choice of over 340 clubs, societies and projects is one of the largest of any UK university, making it easy to do something different with your downtime. You also have access to gym and swimming facilities (following an annual fee of £30 in 2019-20) across our campuses.

As one of the best universities in the world, we are committed to inspiring the next generation of scientists, engineers, clinicians and business leaders by continuing to share the wonder of what we do through public engagement events. Postgraduate students, alongside our academics and undergraduate students, make a significant contribution to events such as our annual Imperial Festival and our term-time Imperial Fringe events – if you’re interested in getting involved then there will be opportunities for you to do so.
Our Principles

In 2012 the College and Imperial College Union agreed ‘Our Principles’ a series of commitments made between students and the College. The Principles are reviewed annually by the Quality Assurance and Enhancement Committee and changes recommended for Senate approval.

**Imperial will provide through its staff:**
- A world class education embedded in a research environment
- Advice, guidance and support
- The opportunity for students to contribute to the evaluation and development of programmes and services

**Imperial will provide students with:**
- Clear programme information and assessment criteria
- Clear and fair academic regulations, policies and procedures
- Details of full programme costs and financial support
- An appropriate and inclusive framework for study, learning and research

**Imperial students should:**
- Take responsibility for managing their own learning
- Engage with the College to review and enhance provision
- Respect, and contribute to, the Imperial community

**The Imperial College Students’ Union will:**
- Support all students through the provision of independent academic and welfare assistance
- Encourage student participation in all aspects of the College
- Provide a range of clubs, societies, student-led projects and social activities throughout the year
- Represent the interests of students at local, national and international level

[www.imperial.ac.uk/students/our-principles](http://www.imperial.ac.uk/students/our-principles)
1. Introduction to the Department

Welcome from the Head of Department

I trust you have had a great summer, whether you were gaining work experience or taking a well-earned rest, and I hope that you are now ready to study again with renewed vigour!

You will be working alongside some of the brightest and most motivated students from around the world, taught by an exceptional group of internationally-leading experts. A strength of our Department, and the College as a whole, is its national and cultural diversity (well over 50 nationalities are represented in our Department alone) and we don’t intend to allow Brexit, or any other outside influence, to change that.

London is a wonderful place to be a student. Please take full advantage of your once-in-a-lifetime opportunity and find a good balance between studying hard to fulfil your potential, and enjoying the company of your fellow students and life in London.

Good luck for the coming year!

Professor Nick Buenfeld

Welcome from the Programme Director

We very much hope that all our MSc students will enjoy the year they spend at Imperial College. Part of that enjoyment will come from an awareness of all that the College has to offer, as well as more directly from the courses themselves.

This handbook attempts to set out background information on the College and the many and various facilities the College provides, as well as some information on the MSc courses themselves. We hope that it will prove to be useful; if you have any suggestions that might improve it, please let me know.

Dr Stavroula Kontoe

</table>
English language requirement

The linguistic medium of the MSc Programmes is UK English. This includes all course-related activities, including groupwork exercises and discussions. You should observe this practice to ensure inclusion of group members in your discussions: you have a responsibility to your classmates in this.

Whilst studying on these programmes in London, you have the important opportunity to develop your skills in technical English as used in the transport field, which is in itself part of your education. This practice will also be beneficial to you in writing your research dissertation to the required standard.

For information on English language support available while you’re here, see 11 Wellbeing, Support and Advice.

Attendance and absence

You must inform your Cluster Administrator if you are absent from the College for more than three days during term. If the absence is due to illness you must produce a medical certificate after seven days. If you miss an examination through illness you must produce a medical certificate immediately on your return to College. In such circumstances, a Mitigating Circumstances Form must also be completed.

http://www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/

The Registry will be informed of all student non-attendances, as the College is obliged to report the non-attendance of students on Tier 4 to the Home Office.

Read through Appendix A – Monitoring Attendance, for information on the procedures in the Department of Civil and Environmental Engineering.

Summer Term: Formal teaching may have finished for the year, but while you are working on your project and writing your dissertation, you are still subject to the attendance conditions of your degree, up to the expiry of your student registration at the end of September 2019. The exceptions to this are:

- Short breaks (approved by your supervisor and notified to your Cluster Administrator by email).
- Completion of all the academic requirements of your degree.
- Approved External Study Leave (e.g. Fieldwork) (specific form to be completed – see Appendix A).

Recording of External Study Leave

For those of you spending periods of time abroad which form part of your research project (e.g. Fieldwork), such absences must be covered by the Postgraduate Taught (MSc): Recording of External Study Leave Form (see Appendix A). This form must be completed and submitted, via your Cluster Administrator, in advance of the requested absence. A record will be held in the Department and you must register your return from Study Leave in person to your Cluster Administrator in order that your record may be updated for audit purposes.

The Registry will be informed of all student non-attendances, as the College is obliged to report the non-attendance of students on Tier 4 visas to the Home Office.

Read through Appendix A – Monitoring Attendance, for information on the procedures in the Department of Civil and Environmental Engineering.
Key dates 2019–20

Term dates
Autumn term: 28 September 2019 - 13 December 2019
Spring term: 4 January 2020 - 20 March 2020
Summer term: 25 April 2020 - 26 June 2020

Closure dates
Christmas/New year: 23 December 2020 – 1 January 2020
(College reopens on 2 January 2020)
Easter Holiday: 9 April 2020 – 14 April 2020
(College reopens on 15 April 2020)
Early May Bank Holiday: 8 May 2020
Spring Bank Holiday: 25 May 2020
Summer Bank Holiday: 31 August 2020

Programme dates
Written examinations: End of April / beginning of May 2020
Project hand-in: 28 August 2020
Board of Examiners meeting End of September 2020 (TBC)
End of course: 30 September 2020

Key events
Postgraduate Awards Ceremonies: 6 May 2020
Great Exhibition Road Festival: 3 -5 July 2020
2. Programme Information

Programme overview

Established in 1950 the MSc course cluster in Soil Mechanics remains the flagship course in its subject. The staff profile, present, past and Emeritus (including seven Rankine Lecturers), and first class facilities make the course internationally renowned. Alumni from the course hold senior positions in industry and academia around the world and their work and engagement in the profession ensures the high reputation of these qualifications from Imperial College. Our close links with our Structures and Environmental and Water Resource Engineering research sections ensures that our MSc students are exposed to the latest developments in all aspects of Geotechnics.

The aims of our extensive suite of MSc programme titles are to:

- Attract very able engineers, scientists and related professionals from around the world by offering in-depth courses that focus on particular specialist areas and develop and extend students’ knowledge, professional skills and research experience.
- Meet the expectations of industry and academia, preparing graduates for professional or research careers in the UK and overseas, developing curricula that evolve to match the subjects' changing requirements.
- Advance understanding of the underlying engineering science and practical techniques that underpin civil and environmental engineering.
- Provide teaching and learning that is informed by research and practice at the forefront of academic or professional disciplines.
- Provide an opportunity for students to show originality in the application of knowledge, and an understanding of how the boundaries of that knowledge are advanced through research.
- Develop students’ ability to deal with complex issues both systematically and creatively, demonstrating originality in tackling and solving problems.
- Engender the qualities needed for employment in circumstances requiring sound judgement, personal responsibility and initiative, in complex and unpredictable professional environments.
- Meet the career needs of students seeking specialist employment in civil and environmental engineering, addressing the skill needs of their potential employers.
- Provide students with a solid technical basis in the key areas of the engineering profession through delivery of a coherent, coordinated and balanced degree programme, integrating core engineering science with practical application.
- Enable students to acquire a mature appreciation of the context in which engineering projects are developed within the industry.
- Develop our students’ excellence in oral and written communication, and poster presentations.
- Provide students with sufficient material to explore the subject, to carry out self-organised study, and to think about the issues and challenges of the material, in preparation for professional practice.
**Programme structure**

The full time programme is taken over 12 months, with a single entry point per year at the beginning of October.

Part time options are:
- Term release (taken part time on a term-by-term basis, over two years): [http://www.imperial.ac.uk/civil-engineering/prospective-students/postgraduate-taught-admissions/geotechnics-cluster/term-release/](http://www.imperial.ac.uk/civil-engineering/prospective-students/postgraduate-taught-admissions/geotechnics-cluster/term-release/)

**Programme delivery**

Modules will be delivered through a series of lectures, although teaching methods will vary between individual modules. Other teaching methods employed may include tutorials, group discussions, group work, progress tests, computer laboratory sessions, practical work, and others depending on the member of academic staff responsible. Some lectures will be delivered by visiting academics or industry professionals, where appropriate.

**Submission of Coursework**

Coursework submissions may be online or in paper copy, depending on the preference of the setter.

**Coursework Cover Sheets**

Coursework coversheets for group and individual work can be found in the General Office. Each one contains a plagiarism declaration on the front which must be signed. An example of the coursework cover sheets used for individual and group work can be found in Appendix C.

**Submitting Coursework**

MSc coursework will be set with a due date and time, and specific submission information will be made available to students.

**Receiving Marked Coursework**

Lecturers should return coursework within three weeks of it being handed in (four, if this period includes a College vacation). If there is a delay you should consult your MSc Cluster Administrator.

**Returned Marked Coursework**

You are required to submit all your marked coursework to your MSc Cluster Administrator, unless instructed otherwise, by the end of the academic session for inspection by the External Examiners.
Penalties for late submission

Submissions made within 24 hours after the deadline has passed will have the mark capped at 50%. Submissions made more than 24 hours after the deadline has passed will receive a mark of zero.

Module descriptors

A full list of all MSc Geotechnics module descriptors can be found on the following link:

http://www3.imperial.ac.uk/civilengineering/prospectivestudents/postgraduatetaughtadmissions/soilmechanicssyllabus

Research Dissertation

The Dissertation is the main element of coursework submitted for the MSc. Students are asked to agree a topic in conjunction with their personal tutors.

Dissertation work may consist, for example, of a laboratory study, a computer project, a literature review, a case history or a parametric study. The work normally continues through from May until the deadline at the end of August, although a report could be handed in earlier if it was complete. All students should make sure that they leave sufficient time to write up their work and prepare their reports to a high standard. ACADEMIC SUPERVISION CANNOT BE RELIED UPON FROM MID-JULY ONWARDS. STUDENTS SHOULD AVOID TAKING VACATIONS BETWEEN THE FIELD TRIP AND THIS PERIOD TO ENSURE THAT THEY ARE SELF-SUFFICIENT WHEN STAFF ARE AWAY.

The Dissertation should demonstrate the student’s mastery of the specialist topic and their ability to both review existing information critically, and add to knowledge through their own research of re-interpretation of data. A literature review that is a straightforward summary of published material would not be passable and so they should contain critical analyses and discussion of the existing literature, as well as recommendations for future research needs.

Students may wish to consider possible choices of dissertation topics during the first two terms of the course, but it is usually unwise to devote too much time to dissertation work before completing the examinations.

ARRANGEMENTS FOR THE SUBMISSION OF DISSERTATIONS

TWO COPIES (spiral bound) of your dissertations are required – one of them must include a copy of your Dissertation on a USB stick. The USB stick should also include any data that your supervisor may have requested. An executive summary must be given at the start which informs readers of the subject, the contents and the main points of the Dissertation, identifying clearly any original work undertaken by the candidate. The length of the executive summary should not exceed two pages and the main points should be set out under clear ‘bullet points’. All figures should be clear with a decent scale. Proper referencing is essential. Extensive test data, etc. should be put in one or more appendices. These are to be submitted to Sue Feller on Friday 28 August 2020.

The Section is keen to encourage industrial involvement with Dissertation work, but students must remember the need to agree the topic with their Tutor, and must maintain regular contact with them during this period. It follows that, unless in exceptional circumstances
(when you should contact your Tutor), you will need to attend College on a regular basis and that you will need to continue to live within convenient travelling distance of the College.

**Risk assessment forms**

For those of you taking a *fieldwork or lab-based project* it is **compulsory** that you complete and submit a risk assessment form.

**Purely desk-based projects conducted at the College do not need a risk assessment.**

See the image below for where to find the form. This must be done on the Safety Management Site on SharePoint: [https://imperiallondon.sharepoint.com/sites/foe/CivilEng/Healthandsafety/default.aspx](https://imperiallondon.sharepoint.com/sites/foe/CivilEng/Healthandsafety/default.aspx)

Please let the General Office know if you have any issues accessing the SharePoint site.

**Supervision arrangements**

Research projects will differ in their area of focus, but their role is to challenge the student to complete an independent piece of research under the direct supervision of a member of academic staff and may involve supervision from external parties where fieldwork is involved. Staff will provide one-on-one support and students are encouraged to maintain good contact with their supervisor throughout the period of research. The extent and nature of supervision will vary from one member of staff to another, so should a student have any difficulty, during the course of research, interfacing with his/her supervisor s/he should advise the Course Administrator as soon as possible.

**December test**

All students must sit an informal test which is taken towards the end of the first term. The purpose of the test is to give students a chance to experience the form and style of an examination at Imperial College and to gauge how well they are coping with the course. This is the principal means of feedback on progress as it is normally later in the spring term before students receive feedback on their coursework. The test papers are marked in the same way as the final exams, but the scores obtained do not count towards your degree. Students review their results and progress with their personal tutors in mid-January.

**Field trips**

Emphasis on fieldwork forms a substantial component of the coursework of the programme, and comprises three field trips, of which two take place in the UK and one overseas:

The first two-day field course will take place in October, and will consist of visits to sites in the Kent area of South-East England, with an overnight stay in Folkestone.

The second two-day field course will take place in March, with the location to be confirmed in due course.

The third field course will last for a full week and will take place after the main examinations in May. The entire class will be travelling to Greece and visiting many sites of interest in connection with geomorphology, geology and geotechnical engineering.
The member of staff responsible for the Geotechnics field trips is: Dr James Lawrence.

The MSc course requires all students to attend three field courses.

**All students should bring safety boots with metal toe protection and waterproof clothing. We will supply hard hats and high-vis vests.**

**Timetable**

Your timetable will be delivered direct to your Imperial College Outlook calendar.

**Reading Lists**

The College has introduced a new interactive system, Reading Lists, for students to view their reading lists, and create their own virtual library collections. Each of your modules on Blackboard Learn will include a direct link to the core and supplementary recommended texts on Reading Lists. You can also view where in the Central Library your recommended texts are available, and how many copies are available, as well as commenting and collaborating with other students. [http://www.imperial.ac.uk/admin-services/library/learning-support/reading-lists/](http://www.imperial.ac.uk/admin-services/library/learning-support/reading-lists/)

**Programme specification**

Once available, the revised programme specification will be located here: [http://www.imperial.ac.uk/staff/tools-and-reference/quality-assurance-enhancement/programme-information/programme-specifications/](http://www.imperial.ac.uk/staff/tools-and-reference/quality-assurance-enhancement/programme-information/programme-specifications/)

**Transferring between courses**

Students wishing to transfer between courses should first contact the member of staff below, who will advise you as to whether or not this may be possible. Please note that for MSc students, transfers must be requested by the end of the first cycle of lectures, and may be restricted for those students under Tier 4 Visa restrictions.

Sue Feller
Room 529
s.feller@imperial.ac.uk

**Accreditation**

Details of our accreditation are to be found at:

[http://www.imperial.ac.uk/civil-engineering/prospective-students/postgraduate-taught-admissions/](http://www.imperial.ac.uk/civil-engineering/prospective-students/postgraduate-taught-admissions/)

**Development of professional skills**

Professional skills development will be delivered throughout the curriculum in various forms, including teamwork, problem-solving, applying concepts to real-world situations, and formal
Work opportunities

The Department encourages you to take early advantage of the careers education, information and guidance available from the following sources:

- College Careers Advisory Service (Level 5, Sherfield Building), with which you can book careers appointments, quick interview sessions, skills workshops, mock interviews, and much more. [http://www.imperial.ac.uk/careers/](http://www.imperial.ac.uk/careers/)

- The transferable skills training programme run by the Graduate School. [http://www3.imperial.ac.uk/graduateschools/](http://www3.imperial.ac.uk/graduateschools/)

- Careers presentations and careers fairs, which occur throughout the autumn and spring terms. Details are circulated to all students closer to the dates.

- Details of jobs will be posted on the careers sections of the website. New posts are notified to us throughout the year, so check online regularly: [http://www.imperial.ac.uk/careers](http://www.imperial.ac.uk/careers)

- Additionally you can contact the Departmental Careers Advisor for further guidance and information:

  Dr Peter Stafford  
  Room 321  
  020 7594 7916  
  p.stafford@imperial.ac.uk

Employability statement

Planning for your future is an important aspect of postgraduate study. At Imperial you'll be well-supported by our Careers Service, who are on hand to help in a variety of ways.

[http://www.imperial.ac.uk/careers](http://www.imperial.ac.uk/careers)

Imperial is one of the UK universities most targeted by graduate recruiters who also play an active role in our career development programme.

This provides access to hundreds of potential employers in a range of settings including industry sector forums, employer presentations, careers fairs, mock interviews and our one to one ‘recruiter-in-residence’ sessions.

A large number of employers also advertise their opportunities each year through JobsLive — our online careers platform, which Imperial students can access from the first day of term.

Imperial Mobile app

Don’t forget to download the free Imperial Mobile app for access to College information and services, including College emails and a library catalogue search tool. [www.imperial.ac.uk/imperialmobile](http://www.imperial.ac.uk/imperialmobile)
3. Assessment

College Policy

Imperial College awards Postgraduate Taught Course Degrees according to “Advanced Courses Marking Scheme Policy”, where Master’s students are required to pass every element of their course (examinations, coursework and dissertation) with an aggregate mark of at least 50%.

In order to be awarded a result of Merit, a candidate must obtain an aggregate mark of 60% or greater; a result of Distinction requires an aggregate mark of 70% or greater.

Where appropriate, a Board of Examiners may award a result of Merit where a candidate has achieved an aggregate mark of 60% or greater across the programme as a whole AND has obtained a mark of 60% or greater in each element with the exception of one element AND has obtained a mark of 50% or greater in this latter element.

Where appropriate, a Board of Examiners may award a result of Distinction where a candidate has achieved an aggregate mark of 70% or greater across the programme as a whole AND has obtained a mark of 70% or greater in each element with the exception of one element AND has obtained a mark of 60% or greater in this latter element.

Geotechnics Section Policy for Soil Mechanics Students

The Board of Examiners for the Geotechnics MSc cluster abide by the College Policy but assess the 3 (three) individual elements (Examination, Coursework and Dissertation) of the course according to the following mark scheme:

1. Candidates must pass all examination papers (or components), all coursework and the dissertation.
   a. There are 5 (five) examination papers (or components) in total. Each examination paper is considered as one component of the examination element of the course.
   b. There are 3 (three) coursework components in total, with their combined value being considered as the coursework element of the course:
      i. Laboratory Reports
      ii. Field Notebooks (a total of 3 (three) field trips)
      iii. All other coursework
   c. A Dissertation thesis on a research project carried out during the Summer Term of the course, which is considered as one element of the course.

2. Any individual element with a mark below 40% will be considered as a failure in that element.

3. The Board of Examiners considers 40% as the Pass mark, 60% as the Merit mark and 75% as the Distinction mark for each element. This scale is converted to the College scale in which 50% as the Pass mark, 60% as the Merit mark and 70% as the Distinction mark for each element before being reported to the Registry. This set of adjusted marks is reflected in your online transcript.
Mitigating circumstances

If you have a problem or issue affecting your study, coursework, or examinations, you must ensure that you inform a member of staff immediately, this might be your Personal Tutor, a member of the administrative staff, or the Senior Tutor (Postgraduate) as soon as possible.

A wide variety of things can be considered in mitigation, from health issues (physical or mental, acute or chronic) to bereavement or financial hardship.

If something out of your control affects your ability to study or to take assessments then it may be considered as a mitigating circumstance.

Process:

- If these circumstances affect examinations or other assessments, you should submit a mitigating circumstances form to your Department **within 5 working days** of the assessment or coursework submission deadline.
- The form **must** be supported by appropriate documentation, which may follow the submission of the mitigating circumstances form, if not immediately available. A medical certificate is essential where illness affects an exam – telling someone afterwards is not sufficient.
- Please contact your Cluster Administrator, or the General Office if a problem arises on the day of an exam.

Submissions will be considered by the Departmental MSc Mitigating Circumstances Board, further information on which is available at the following: [https://www.imperial.ac.uk/civil-engineering/intranet/committees-and-representatives/mitigation-advisory-board-msc/](https://www.imperial.ac.uk/civil-engineering/intranet/committees-and-representatives/mitigation-advisory-board-msc/)

Forms are available from: [http://www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/](http://www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/)

Please note:

- The College Health Centre cannot certify an illness if you have not been seen at the Health Centre during the illness.
- The College Student Counselling Service can only provide a letter on request if you already attend counselling.
- The College Disability Advisory Service can only help students to obtain appropriate evidence of disability prior to examinations taking place and are not able to certify for absences due to disability.

For independent support and advice, please contact the Imperial College Union Advice Centre on [https://www.imperialcollegeunion.org/advice](https://www.imperialcollegeunion.org/advice)
**Past examination papers**

A sample examination paper for each examined module will be made available on the Blackboard Learn Virtual Learning Environment (VLE).

**Progression**

**All Students**

For those students not attending or progressing to the satisfaction of the Cluster Director during the term, a note of warning may be issued to him/her. This is called a "six-week warning" and is the equivalent to notice of withdrawal. If there is not satisfactory improvement then withdrawal will be required. The regulations may be found at the following:

This may result in:

- (For Visa-dependent students) a report being sent to the UK-VI, and curtailment of the student Visa, and potentially revoking the right to remain in the UK.
- (For sponsored students) a report being made to your sponsors.
- Withdrawal from the programme.

**Part-Time Students**

- Where a mark is below 40% in an individual component the student is permitted to re-take that component (normally an examination paper) at the next available opportunity (normally in the subsequent year).

- Where the overall element performance is below 50%, the student is permitted to re-enter for the elements of assessment in question, but not to attend or to progress to a subsequent year.

Part-time students are normally permitted to progress to a subsequent year, provided that their average performance is in excess of 50%.

*All percentages refer to the College scale.*
Assessment criteria (College scale)

Criteria for Award of Pass
A Pass would normally be awarded when all the following criteria are met:

- The examination mark is 50% or higher
- The dissertation mark is 50% or higher
- The coursework mark is 50% or higher

Criteria for Award of Merit
A Merit would normally be awarded when all the following criteria are met:

- The examination mark is 60% or higher
- The dissertation mark is 60% or higher
- The coursework mark is 60% or higher

Criteria for Award of Distinction
A Distinction would normally be awarded when all the following criteria are met:

- The examination mark is 70% or higher
- The dissertation mark is 70% or higher
- The coursework mark is 70% or higher
## Criteria for the Marking of Projects, Dissertations and Coursework Exercises

<table>
<thead>
<tr>
<th>Mark</th>
<th>Grade</th>
<th>Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>85-100</td>
<td>A*</td>
<td><strong>Distinction Standard</strong>: Outstanding achievement and presentation beyond the expectation of the supervisor, and making little demand for supervisory support.</td>
</tr>
<tr>
<td>70-84</td>
<td>A</td>
<td><strong>Distinction Standard</strong>: Excellent work and presentation; substantial level of independent enquiry, of critical thought or creative ability.</td>
</tr>
<tr>
<td>60-69</td>
<td>B</td>
<td><strong>Good</strong>: Well organised, clearly presented and adequately detailed; thorough grasp of relevant principles; some evidence of independent enquiry, of critical thought or creative ability; assessment of alternative solutions, designs or approaches.</td>
</tr>
<tr>
<td>50-59</td>
<td>C</td>
<td><strong>Pass</strong>: Substantially correct; basic understanding of relevant principles; some evidence of enquiry; substantially competent in design, calculation and organisation; modest evidence of creative or critical ability; adequately presented; adequate level of consistent effort.</td>
</tr>
<tr>
<td>40-49</td>
<td>D</td>
<td><strong>Unsatisfactory/Borderline</strong>: Some elements correct; incomplete understanding of relevant principles; some competence in routine tasks; somewhat lacking in presentation or in the application of consistent effort. Just acceptable.</td>
</tr>
<tr>
<td>30-39</td>
<td>E</td>
<td><strong>Possibly recoverable</strong>: Work displaying little or no understanding of the relevant principles; failure to develop an approach that would achieve the desired outcome; major elements incorrect. Unacceptable.</td>
</tr>
<tr>
<td>0-29</td>
<td>F</td>
<td><strong>Not Satisfactory.</strong></td>
</tr>
</tbody>
</table>

In the case of major projects/dissertations, assessment should first be made under four general categories:

1. Evidence of enquiry, creative ability, critical thought
2. Level of understanding
3. Level of effort, competence and quality
4. Clarity and style of presentation

Particular value should be attached to work that is regarded as intellectually challenging. The project/dissertation should then be considered as a whole and its features matched against the written criteria as a benchmark.
Instruction to Candidates for Examinations

Students who are candidates for examinations are asked to note that all examinations are conducted in accordance with the College’s Academic Regulations, the Regulations for Programmes of Study and the Examination Regulations (All continuing students) and the Single Set of Regulations (all new entrant undergraduate students, and selected postgraduate programmes).

Instructions for exam candidates can be found here:

Academic Integrity and Academic Misconduct

As your programme of study continues, you will be taught the concept of academic integrity and how you can ensure that any work that you complete now, or in the future, conforms to these principles. This means that your work acknowledges the ideas and results of others, that it is conducted in an ethical way and that it is free from plagiarism.

Academic misconduct is the attempt to gain an academic advantage, whether intentionally or unintentionally, in any piece of assessment submitted to the College. This includes plagiarism, self-plagiarism, collusion, exam offences (cheating) or dishonest practice. Full details of the policy can be found at:

Definitions of the main forms of academic misconduct can be found below:

Plagiarism

Please refer to section 5 Plagiarism of this handbook for full Departmental guidelines.

Plagiarism is the presentation of another person’s thoughts, words, images or diagrams as though they were your own. Another form of plagiarism is self-plagiarism, which involves using your own prior work without acknowledging its reuse. Plagiarism may be intentional, by deliberately trying to use another person’s work by disguising it or not citing the source, or unintentional where citation and/or referencing is incorrect.

Plagiarism must be avoided, with particular care on coursework, essays, reports and projects written in your own time and also in open and closed book written examinations. You can support your understanding of proper referencing and citation by using the resources available from the College such as the Library learning support webpages at:

www.imperial.ac.uk/admin-services/library/learning-support/plagiarism-awareness/

Where plagiarism is detected in group work, members of that group may be deemed to have collective responsibility for the integrity of work submitted by that group and may be liable for any penalty imposed, proportionate to their contribution.
Collusion

This is the term used for work that has been conducted by more than one individual, in contravention of the assessment brief. Where it is alleged that there has been collusion, all parties will be investigated under the Academic Misconduct procedure.

You should note that whilst the College encourages students to support each other in your studies you should be careful to ensure that you do not exceed any assessment brief with regards to individual work, acknowledge the contributions of others in your work, and do not leave yourself open to allegations that you have supplied answers to enable another student to commit academic misconduct.

Exam offences

Exam offences fall into two main areas. This may be an attempt to gain academic advantage (cheating) or acting in such a way that is potentially disruptive to others in the same venue (sometimes referred to as a technical offence). Examples of cheating can include behaviour such as bringing unauthorised material into an exam, attempting to communicate with others apart from the invigilator, using an unauthorised electronic device, trying to remove examination material without permission, taking an exam for someone else or getting someone else to take an exam for you. Examples of being potentially disruptive include having an electronic device that has not been fully turned off or failing to follow a reasonable instruction of the invigilators.

Dishonest practice

Examples of dishonest practice include bribery, contact cheating (buying work from an essay mill or other individual to submit as your own), attempting to access exam papers before the exam, making a false claim for mitigating circumstances or providing fraudulent evidence, falsifying documentation or signatures in relation to assessment or a claim for mitigating circumstances.
4. Examinations

Examination guidance and regulations

Materials Permitted in Examinations

- Pencil cases which must be clear plastic.
- College identity cards (i.e. swipe card) which must be displayed on your desk.
- Pens, erasers and other drawing instruments as required.

Unless specified or designated “Open Book”, no additional materials may be introduced into examinations by candidates. If, in the opinion of the Board of Examiners, such materials are required, they will be provided or notified to all candidates and the standard examination rubric amended to state that they will be provided or allowed. Calculators will be provided by the Department, you will be advised of the make and model in advance, to give you an opportunity to purchase one for personal use. Dictionaries are not permitted.

No food is permitted in an examination room unless prior permission has been given due to medical need. No drinks are permitted except for water in clear plastic bottles.

Conduct of Examinations

- Be prepared.
- Take with you only the items listed above.
- Arrive 15 minutes before the exam is scheduled to begin.
- When you enter the examination room, do so in SILENCE.
- Switch off your phones (and other electronic devices) and place them in your bag.
- Electronic watch devices are not permitted.
- Leave your bags in the area indicated by the Invigilator or Supervising Academic.
- Find the desk with the examination card which has your candidate number (or name) on it, then sit down at this desk.
- **DO NOT turn over or open your examination paper until you are instructed to do so by the Invigilator.** However you may start to fill in the front of your answer book giving:
  1. Candidate number (CID).
  2. Degree (Subject).
  3. Title of Paper.
  4. Date.
- You **MAY NOT SPEAK** to anyone other than the Invigilator. If you do need to speak to the Invigilator, raise your hand. Speak in a quiet voice so as not to disturb the other candidates.
- Write in **black or blue** ink. Candidates are **not permitted to use** red or green ink, or to use any writing implement that is capable of producing red or green marks on the script. You should **not** write in pencil.
- If unsure of the meaning of a word or question in the examination, write down your interpretation of that word or question, and continue.
- The use of correction fluids (e.g. Snopake® and Tippex®) is explicitly not permitted.
- Candidates should indicate incorrect work by drawing a single diagonal line through the work concerned.
- At the end of the examination, stop writing when instructed to do so by the Invigilator or Supervising Academic.
• Ensure that your answer book and all supplementary papers carry your College Identifier Number (which is also your candidate number), and that all graph paper and supplementary answer books are securely tied together inside the back cover of the main answer book. All of your exam materials will be collected in a designated folder.
• Remain seated and silent.
• When all examination materials have been collected by the examination team and you have been told you may leave, please do so in silence, collecting your belongings on the way out. You may not remove any examination material from the room.

Exam Technique
• Read the rubric carefully BEFORE answering any questions.
• Take some time to read through the questions and make a sensible decision as to which questions to tackle.
• Ask yourself:
  o Which questions can I answer fully?
  o Out of the questions I cannot answer fully, which ones can I answer the majority of?
  o Am I fulfilling the exam rubric? You must make sure you have understood the rubric; ask your invigilators if you need clarification.
  o Example: How much time should you spend answering each question? If there are four questions to complete in two hours, that is approximately 30 minutes per question.
• If you make a mistake just put a line through your work.
1. Introduction to Plagiarism

You are reminded that all work submitted as part of the requirements for any examination (including coursework) of Imperial College must be expressed in your own words and incorporate your own ideas and judgements.

Plagiarism, that is the presentation of another person's work, thoughts or words as though they were your own, must be avoided, with particular care in coursework, essays and reports written in your own time. Note that you are encouraged to read and criticise the work of others as much as possible. You are expected to incorporate this in your thinking and in your coursework and assessments, but you must acknowledge and label your sources. Direct quotations from the published or unpublished work of others, from the internet, or from any other source must always be clearly identified as such. A full reference to their source must be provided in the proper form and quotation marks used. Remember that a series of short quotations from several different sources, if not clearly identified as such, constitutes plagiarism just as much as a single unacknowledged long quotation from a single source. Equally, if you summarise another person's ideas or judgements, figures, diagrams or software, you must refer to that person in your text, and include the work referred to in your reference list or bibliography. Staff are able to give advice about the appropriate use and correct acknowledgement of other sources in your own work.

The direct and unacknowledged repetition of your own work which has already been submitted for assessment can constitute self-plagiarism. Where group work is submitted, this should be presented in a way approved by your Department. You should therefore consult your tutor or course director if you are in any doubt about what is permissible. You should be aware that you have a collective responsibility for the integrity of group work submitted for assessment.

The use of the work of another student, past or present, constitutes plagiarism. Where work is used without the consent of that student, this will normally be regarded as a major offence of plagiarism.

Failure to observe these rules may result in an allegation of cheating. Cases of suspected plagiarism will be dealt with under the College’s Exams, Assessments and Regulations, & Plagiarism, Academic Integrity & Exam Offences, a full copy of which can be found at the following: http://www.imperial.ac.uk/student-records-and-data/for-current-students/undergraduate-and-taught-postgraduate/exams-assessments-and-regulations/ and is likely to result in a penalty being taken against any student found guilty of plagiarism.

There have been in the past a few cases of plagiarism in this Department, where we operate a zero-tolerance policy, leading to penalties that range from voiding a coursework mark to expulsion from the course. In the majority of these cases, plagiarism was the result of poor practice and lack of awareness, so you are strongly advised to familiarise yourself with what constitutes plagiarism and to seek clarification if and when in doubt.
2. Ethics and Academic Integrity

There are at least two very good reasons why plagiarism should be allowed no place in the academic business of Imperial College, and why it must therefore be met by severe punishment whenever it is encountered.

At its most fundamental, plagiarism is seeking to deceive somebody – one's teachers or examiners, for example – by presenting the ideas of another person as though the ideas were one's own – whether with that person's assistance, or by theft. Deception and intellectual theft are morally unacceptable in any well-ordered society. In a society of professionally licensed engineers, such conduct is even more reprehensible in that it undermines the ethical foundation on which professional practice is based.

There is also a question of academic integrity. Students who knowingly use plagiarism as a painless way of compiling the work needed for assessments, and teachers who knowingly allow students to do it, are both contributing to a blight that undermines the quality and integrity of the degree qualification.

Students under intense pressure to produce a design, a technical report, or a dissertation may feel tempted to resort to plagiarism. They must resist. The Imperial College degree is highly prized because it is respected far and wide as a true mark of achievement. To safeguard the integrity of its degrees, Imperial College staff must take action whenever plagiarism is suspected. As for students, they must expect that the penalty for a student who is guilty of this offence will normally be severe.

3. Definition of Plagiarism

Plagiarism is the presentation of another person’s thoughts, words, images or diagrams as though they were your own – for example when you copy someone else’s work or use their ideas in your coursework, thesis, report etc, and then do not acknowledge that you have done this.

Definition:

‘The wrongful appropriation or purloining, and publication as one’s own, of the ideas, or the expression of the idea (literary, artistic, musical, mechanical, etc.) of another.’

Other forms of plagiarism include self-plagiarism, which involves using your own prior work without acknowledging its reuse; and collusion, which involves sharing or copying (individual) coursework.

Plagiarism, whether intentional or unintentional, is considered a cheating offence and must be avoided, with particular care on coursework, essays, reports and projects written in your own time, and also in open and closed book written examinations.

Plagiarism is classified as either Minor or Major in nature, this is normally determined by the weight, or marks value, attached to the work submitted. However, the following would also be classified as major:

- Two cases of Minor plagiarism by the same individual
- Copying the work of another student without their knowledge
- Dissertation/Major Project
• Where the student does not admit that plagiarism has occurred, and that the plagiarism offence is upheld on appeal.

You are not permitted to act in collusion with another student or person, nor are you permitted to request or arrange for another individual to submit your coursework for you.

You must NEVER:

• Share your work, either electronically or in paper copy. If copying of material occurs as a result of such sharing, both parties are considered to have actively taken part in plagiarism.
• Give your work, whether electronically or in paper copy, to someone else to submit. If copying of material occurs as a result of such activity, both parties are considered to have actively taken part in plagiarism.
• Submit work on behalf of another student.

4. Collaboration (joint & group work) and Collusion

Students can struggle to understand the difference between collaboration and collusion.

Collaboration: Unlike collusion (where the work of another student is intentionally used with that student’s consent) which equates to deception, collaboration is encouraged as a professional skill much needed in engineering work. Collaboration involves mutual effort and joint work, to the benefit of all the parties involved, and where appropriate it should always be acknowledged, via footnotes for example. Students required to submit individual pieces must be clear on the distinction between the two.

Discussing coursework exercise submission with colleagues is fine: – what does the teacher expect from the work, what different approaches might there be, how much detail would be needed, how structured should the report be? In exploring with a colleague a range of approaches, or how to obtain specific solutions, one finds a positive help in learning something new. However, if the work is required to be an individual submission, then a line must be drawn where joint work is left behind and the individual work which is submitted for assessment should take over.

The results or calculations that form the basis of the report should be obtained by the individual student who is submitting the report as his/her own work, unless there is a clear expectation that others would be involved – as in the results of a survey – but then the contribution of the others should be made clear (for example, as footnotes in the report). The student is expected to write the report in his/her own words, to think of his/her own interpretations of the results and to make his/her own conclusions and recommendations.

Group work, for example group design projects, is work which is set by the teacher for joint working between two or more students and in which it is clearly understood that the teacher will give the assessment for the joint work undertaken. This provides valuable working experiences and learning opportunities, but these high-minded intentions can be severely undermined if any member of the group should not contribute in equal measure with his/her colleagues.

A student should always assume that coursework is individual work, unless it is clear that group assessment is planned by the teacher. If in doubt, seek the teacher’s advice about what working practices are acceptable. Do not hand over your work, under any circumstances, to another student.
**Collusion:** Where the work of another student is used with that student’s consent.

### 5. Exam Offences and Dishonest Practice

Exam offences include behaviour such as bringing authorised material into an exam, attempting to communicate with others apart from the invigilator, trying to remove examination material without permission, taking an exam for someone else or getting someone else to take an exam for you.

Examples of dishonest practice include bribery, contact cheating (buying work from an essay mill or other individual to submit as your own), attempting to access exam papers before the exam, making a false claim for mitigating circumstances or providing fraudulent evidence, falsifying documentation or signatures in relation to assessment.

### 6. Referencing

The recommended method of referencing is the Harvard style (author-date). All students have free access to RefWorks, an online reference management software package. More information is at the library website:

http://www.imperial.ac.uk/admin-services/library/learning-support/reference-management/

and library staff will provide training (contact details in section 6).

### 7. Advisory Services

**Academic Staff**

Your main source of information, and the College’s main source for the recognition of plagiarism, is the academic staff. Please be aware that you can approach them for advice and information if you are unsure or require clarification.

**The Library**

You can contact your librarian for advice, either in person or by emailing:

**Liaison Librarian:** Nicole Urquhart, n.urquhart@imperial.ac.uk

**Department Librarian:** Callum Munro c.munro@imperial.ac.uk

If you do have a query about a reference layout, include as much information as you have about the item you need help with.

The Central Library provides several sources of further information relating to referencing and plagiarism awareness:

- A guide to referencing and citing correctly, including how to use the Harvard style is available at http://www.imperial.ac.uk/admin-services/library/learning-support/reference-management/
• Further information about plagiarism awareness within College, please see the library website at http://www.imperial.ac.uk/admin-services/library/learning-support/plagiarism-awareness/

• In addition, you can access the Library’s online Blackboard course, “Ensuring Integrity 1: Plagiarism Awareness” for Master’s students, using your College username and password. The course is available at http://bb.imperial.ac.uk and contains a section on plagiarism and how to avoid it.

**Turnitin-UK**

TurnitinUK is an online service hosted at www.submit.ac.uk that enables institutions and staff to carry out electronic comparison of students' work against electronic sources including other students' work. Once papers have been submitted to the system they become part of the database, and will be used for future checking.

**IP / Data Protection**

Some people have asked whether departments need to seek permission from students before submitting their work to a plagiarism detection system. The answer is no as the registration form, which is signed by students, states the following: The College may submit your coursework to an external plagiarism detection service. By registering with the College, you are giving your consent for any of your work to be submitted to such a service’.

**JISC Plagiarism Advice.org**

www.plagiarismadvice.org/

Emphasis is on academic good practice from the lecturer's perspective, but the service can also provide help to students.

**8. Submission of Individual Items of Coursework**

Copying the work of others without acknowledgement of the source of the information is academic fraud, known as plagiarism. Wilfully copying is outright cheating, forgetting to list references and reference material is ineptitude. Neither form of plagiarism is acceptable and may well result in one or more parties, deemed to be involved, being awarded a mark of zero.

All coursework, project work and research submissions, including dissertation must contain the following statement, signed by the student.
Declaration: I confirm that this submission is my own work. In it, I give references and citations whenever I refer to, describe or quote from the published, or unpublished, work of others.

Signature: ______________________

Failure to submit the signed declaration with all written works will result in their being unmarked, or returned with a mark of zero.

An example of a Coursework Cover Sheet is given in Appendix C.
6. Board of Examiners

CHAIR
Professor Lidija Zdravkovic

EXAMINATIONS OFFICER
Dr Giulia Ghiadistri

MEMBER OF THE DEPARTMENTAL MSc MITIGATING CIRCUMSTANCES BOARD
Dr Antonio Carraro (or alternate)

SECRETARY
N/A

MEMBERS
All staff involved in the delivery, setting, and marking of assessment for the programmes.

EXTERNAL EXAMINERS
Professor Abir Al-Tabbaa, University of Cambridge
Professor Federica Cottechia, Politecnico di Bari
Professor Ioannis Anastasopoulos, ETH Zurich

Master’s level students may have the opportunity to meet the external examiner during the assessment process.

External examining acts as an essential part of the College’s quality assurance and enhancement process, serving to ensure that academic standards are maintained. The knowledgeable and independent views of external examiners are invaluable in certifying that the College’s awards are appropriate and comparable as well as highlighting good practice and potential areas of enhancement.

It is inappropriate for you to submit complaints or representations direct to external examiners or to seek to influence your external examiners. Inappropriate communication towards an examiner would make you liable for disciplinary action.

A summary of External examiners reports from the previous academic year can be found here:

www.imperial.ac.uk/about/governance/academic-governance/academic-policy/external-examining/
7. Location and Facilities

Imperial has a number of campuses in London and the South East. All have excellent travel links and are easily accessible via public transport.

Your main location of study will be:
Department of Civil and Environmental Engineering
Skempton Building
South Kensington Campus
Imperial College London
London SW7 2AZ

The Skempton building can be accessed from 07.00-00.00 daily. The main entrance requires the use of your college ID card between the hours of 07.00-08.00 and 18.00-00.00. During weekends and vacation periods you will be required to use your college ID card each time you enter and exit the building.
Your ID cards will be required to access PC laboratories and certain other rooms and spaces.
The Department’s postgraduate office is located at SKEM 118 (ground floor) in the Skempton Building and open Monday – Friday, 08.00 – 17.00.

Facilities

PC laboratories
The Skempton Building houses three PC laboratories located in rooms 208, 314, and 317. These facilities are shared with the Department of Aeronautics and the Department of Mechanical Engineering. They are open to all registered students of the aforementioned Departments from 08.00-22.30 daily, except when timetabled for classes. Further PC facilities are available in, and shared with, the City and Guilds Building, and the College’s Central Library.
A full list of the College rules regarding computer use are available at:
http://www.imperial.ac.uk/admin-services/ict/

ICT resources
Find information on activating your College account, connecting to Wifi, using the Virtual Learning Environment (Blackboard Learn), and more ICT resources available for new students, visit: http://www.imperial.ac.uk/admin-services/ict/new-to-imperial/students/

Shared teaching space
The Faculty of Engineering is committed to utilising its facilities and teaching space, hence there are a number of shared teaching spaces between Departments/Buildings. Teaching
space in the Skempton Building is often timetabled to accommodate lectures between the Civil and Environmental, Mechanical, and Aeronautical Engineering Departments. See the table below for full teaching space details.

(P) = Panopto-enabled room
**College ID cards**

For MSc students who have uploaded their photos and registered online, ID cards can be collected from the General Office, Skempton Building following confirmed attendance at the day 2 Health and Safety induction. For those who have their photos taken on arrival, the ID card is normally available from the General Office in the Skempton Building within two days.

**Printing and binding**

There are five multi-function printers in the Skempton Building. The first is in room 317, two are located in the BOSS Space on level 2, and a further two in room 218 adjacent the BOSS Space.

Additionally, the Service Point Print Shop is located in room 024 of the Sherfield Building. Service Point also offer binding at £1.00 per document. Service Point can be contacted by email at: imperial.college@servicepointuk.com

There are networked printers across the South Kensington Campus, which you can access with your College ID card. When you print a document, it is sent to a common print queue, meaning that you can collect it from any touch card printer that your College ID card gives you access to, including the Central Library and Departments across the Campus.

http://www.imperial.ac.uk/admin-services/ict/self-service/computers-printing/printing/

**Lockers**

There are 312 lockers located on Level 3, Skempton, of which 156 have been allocated to MSc students. If you would like to be allocated a locker you need to complete the relevant form below. Numbers are limited and allocated on receipt of the form: https://skempton.wufoo.com/forms/lockermscapplicationform201920/

The Department’s Postgraduate/General Office is located in room 118 in the ground floor of the Skempton Building, open Monday-Friday 08.00-17.30.

**Lost property**

If you think you have lost something within the Department your first port of call is the Reception. If it is not there you should check with the Security Office in Sherfield as it may have been handed in there. (If an item is handed in with ID, an email will be sent to the owner immediately to inform them).

All items found within the Department (e.g. keys/phones/bags) should be handed into the Reception. All items found outside the Department should be handed into the Security Office in the Sherfield Building in the South Kensington campus. http://www.imperial.ac.uk/estates-facilities/security/lost-and-found-property/

**Facilities management**

Showering facilities are available within the Department, and are located in the toilets on levels 0 and 3.

Bicycles are not permitted within the Department. This is College policy. The following link provides information on suitable bicycle storage within the South Kensington Campus: http://www3.imperial.ac.uk/estatesfacilities
Room bookings

Room bookings on weekdays during term-time may be requested via an online form, or in person at the Postgraduate/General Office. This form is to be used only for room booking requests in the Skempton Building: https://skempton.wufoo.com/forms/room-bookings-20192020/

Please note: We do not make room bookings for Imperial College Union Societies. These need to be made via the Student Union.

Room booking requests outside of normal College hours should be made via the Conference Office: conferenceande vents@imperial.ac.uk

Central library

The Central Library at South Kensington is open around the clock pretty much all year. Make sure you find out who your departmental librarian is as they’ll be able to help you find resources for your subject area. Also, don’t forget to check out the Library’s range of training workshops and our other campus libraries for access to specialist medicine and life sciences resources. Alongside these physical spaces and resources, the Library provides over 300,000 electronic books, journals and databases available both on and off campus and a free document delivery service to help you source books and articles from around the UK and the rest of the world:

www.imperial.ac.uk/library

Departmental library

The Civil Engineering Library provides a space for the exclusive use of students and staff of the Department. Funded by the Department, the Library hosts a collection of around 15,000 books, 400 online and print journal titles, a large collection of reports from industry, and historical collections. During term time it is open from 09.00 to 19.00, Monday-Thursday, and 09.00-17.00 on Fridays.

Our dedicated Librarian offers support with coursework and information skills in one-to-one or group formats. The Library engages with students via Twitter @CivEngLib.

Further information about the library and its services is available from the library staff and from the Departmental Library webpage:

Callum Munro
Departmental Library, Room 402
http://www.imperial.ac.uk/civil-engineering/about-us/library/

Institution of Civil Engineers Library (ICE)

The library located at the Institution of Civil Engineers (ICE) is home to the world’s largest dedicated collection of civil engineering materials. In addition to printed books and journals, the ICE library also offers access to a number of digital services, including e-books and advanced search tools, and a quiet place to work. All ICE members can borrow up to three items in person, or by post.
Maps

Campus maps and travel directions are available at:

www.imperial.ac.uk/visit/campuses

Accessibility

Information about the accessibility of our South Kensington Campus is available online through the AccessAble access guides:

www.accessable.co.uk/organisations/imperial-college-london

Smoke-Free Policy

All Imperial campuses and properties are smoke-free. This means that smoking by staff and students is not permitted on or within 20 metres of College land. The policy covers all College properties, including student accommodation and sports grounds.

www.imperial.ac.uk/smoke-free

SafeZone

SafeZone is the College’s new app through which you can quickly and directly contact the Security team whenever you need them. In an emergency situation, whether you’re in need of First Aid or want to report an incident on campus, SafeZone allows you to be immediately put in touch with a member of our Security team and, at the touch of a button, can share your location and personal profile so that they can respond quickly and effectively to your specific needs. It also allows the entire College community to stay informed in the event of a major incident in London or wherever you may be in the world. SafeZone also provides information on other services, such as real-time updates on the College shuttle bus.

SafeZone is optional to register to and is now available to download on the Apple and Android App stores.

All existing phone numbers for the Security team are still operational. In the event of an emergency, you can still call 4444 from any internal College phone. In the event of a wider incident in London, you can now also call 0300 131 4444, Imperial’s Emergency Recorded Message Line, which will point you in the direction of up-to-date information and advice.
8. Working While Studying

If you are studying full time, the College recommends that you do not work part-time during term time. If this is unavoidable we advise you to work no more than 10–15 hours per week, which should be principally at weekends and not within normal College working hours.

Working in excess of these hours could impact adversely on your studies or health.

If you are here on a Tier 4 visa you can work no more than 20 hours a week during term time [for MSc students, this includes the project period]. Some sponsors may not permit you to take up work outside your studies and others may specify a limit.

If you are considering part-time work during term time you are strongly advised to discuss this issue with your supervisor, your Personal Tutor, Course Director or Senior Tutor (Postgraduate). If you are on a Tier 4 visa you should also seek advice from the International Student Support team regarding visa limitations on employment.

The College’s examination boards will not normally consider as mitigating circumstances any negative impact that part-time work during term-time may have had on your performance in examinations or in other assessed work. Examinations or vivas cannot be rescheduled to accommodate your part-time working arrangements.

Please refer to our policy on working while studying:

https://www.imperial.ac.uk/study/international-students/visas-and-immigration/work-rules-during-your-studies/
9. **Health and Safety**

You are responsible for looking after your own health and safety and that of others affected by your College-related work and leisure activities. You must:

- Comply with all local and College policies, procedures and codes of practice and with the arrangements which the College has in place to control health and safety risks.
- Ensure that your activities do not present unnecessary or uncontrolled risks to yourself or to others.
- Attend appropriate induction and training.
- Report any accidents, unsafe circumstances or work-related ill health of which you become aware to the appropriate person.
- Not interfere with any equipment provided for Health and Safety.
- Inform your supervisor or the person in charge of the activity in cases where you are not confident that you are competent to carry out a work or leisure activity safely, rather than compromise your own safety or the safety of others.

**Your Departmental Safety Officer is:**
Dr Geoff Fowler  
SKEM 413, Skempton Building  
020 7594 5973  
g.fowler@imperial.ac.uk

You are required to complete inductions and attend training sessions to safely complete this course. These include:

- Health and Safety induction, at which a checklist must be completed, signed by the student, and a relevant member of staff (Note: ID cards, available from the Postgraduate/General Office will only be given to those presenting the completed and signed Health and Safety checklist).

A copy of the Department Health and Safety Booklet can be found in Appendix E.

**The College Safety Department**

The Safety Department offers a range of specialist advice on all aspects of safety. This includes anything which you feel might affect you directly, or which may be associated with teaching, research or support service activities.

The College’s activities range from the use of hazardous materials (biological, chemical and radiological substances) to field work, heavy or awkward lifting, driving, and working alone or late.

All College activities are covered by general health and safety regulations, but higher risk activities will have additional requirements.
The Safety Department helps departments and individuals ensure effective safety management systems are in place throughout the College to comply with specific legal requirements.

Sometimes the management systems fail, and an accident or a near-miss incident arises; it is important that we learn lessons from such situations to prevent recurrence and the Safety Department can support such investigations. All accidents and incidents should be reported online at:

www.imperial.ac.uk/safety

To report concerns or to ask for advice you should contact your programme director, academic supervisor or departmental safety officer in the first instance. You may also contact the Safety Department directly.

Occupational Health requirements

The College Occupational Health Service provides services to:

- protect health at work
- assess and advise on fitness for work
- ensure that health issues are effectively managed

The Service promotes and supports a culture where the physical and psychological health of staff, students and others involved in the College is respected, protected and improved whilst at work.

www.imperial.ac.uk/occupational-health

Communications

It is not possible to provide a service for incoming telephone messages except in the case of emergency. Please ensure that your family/next of kin are aware of the following contacts:

**Civil Engineering General (Postgraduate) Office**
00 44 (0) 207 594 5929 (Fionnuala Ni Dhonnabhain)
00 44 (0) 207 594 5932 (Yamini Chikhlia)
00 44 (0) 207 594 5931 (Melanie Hargreaves)
00 44 (0) 207 594 6123 (Angela Frederick)

**Geotechnics**
00 44 (0) 207 594 6077 (Sue Feller)

Please ensure that your student-e-service contact details are up-to-date at all times, including your next-of-kin-contact information.

The Department is not able to provide a postal or fax service.
**Working alone and emergency contact numbers**

It is prohibited under College safety regulations for any person to work alone in a laboratory or workshop at any time. At least one other person must be within calling distance. All members of the College must know how to contact the College’s emergency response services.

Please save the following number in your mobile/cell phone for use in all emergencies anywhere on the College’s South Kensington campus – including where an ambulance is felt to be needed, the call will go direct to the College Security Control Desk: **020-7589-1000**. The Security team are on duty 24/7 and will assess the emergency and implement the necessary response for the situation (including calling the London Emergency services).

If using an internal College phone, the number to call is **4444**.

Any activity involving tools or machinery is deemed to be "working in a laboratory or workshop"; purely office or computing activities are excluded.

Full details are given at the front of the orange Safety Booklet – see Appendix E.
10. College Policies and Procedures

Regulations for Students

All registered students of the College are subject to the Regulations for Students, the College Academic and Examination Regulations and such other regulations that the College may approve from time to time.

www.imperial.ac.uk/about/governance/academic-governance/regulations
www.imperial.ac.uk/students/terms-and-conditions

Academic Feedback Policy

We are committed in providing you with timely and appropriate feedback on your academic progress and achievement, enabling you to reflect on your academic progress. During your study you will receive different methods of feedback according to assessment type, discipline, level of study and your individual need. Further guidance on the Policy of Academic Feedback can be found on the Academic Governance website:

www.imperial.ac.uk/media/imperial-college/administration-and-support-services/registry/academic-governance/public/academic-policy/academic-feedback/Academic-feedback-policy-for-taught-programmes.pdf

Please note that your examination scripts once completed are belong to the College under the GDPR legislation. This means that you do not have the right to view them. Please see the College GDPR webpages for further information at http://www.imperial.ac.uk/admin-services/secretariat/information-governance/data-protection/internal-guidance/guide-2---exam-records/

Provisional Marks Guidance

Provisional marks are agreed marks that have yet to be ratified by the Board of Examiners. These results are provisional and are subject to change by the Board of Examiners. The release of provisional marks is permitted except in certain circumstances. Further information can be found in the Guidelines for Issuing Provisional Marks to Students on Taught Programmes:

Late Submission Policy

You are responsible for ensuring that you submit your coursework assessments in the correct format and by the published deadline (date and time). Any piece of assessed work which is submitted beyond the published deadline (date and time) would be classed as a late submission. Further guidance on Late Submission of Assessments can be found on the Academic Governance website:

www.imperial.ac.uk/media/imperial-college/administration-and-support-services/registry/academic-governance/public/academic-policy/marking-and-moderation/Late-submission-Policy.pdf
If you submit late due to mitigating circumstances, you may be able to make a claim that means that the cap on your mark is lifted. Please see below and the policy document.

**Mitigating Circumstances**

Sometimes during your studies you may be affected by sudden or unforeseen circumstances. You should always contact your personal tutor for advice and support. If this happens at the time of, or immediately preceding your assessments you may be able to make a claim for mitigating circumstances. If successful this claim enables the Board of Examiners when reviewing your marks at the end of the year to have greater discretion with regards to offering repeat attempts (either capped or uncapped), a repeat year, or with your progression or final classification. Please note, the Board are not permitted to amend the marks that you were awarded.

All claims must be supported by independent evidence and submitted within 10 working days of the assessment deadline. Any claim made after this deadline is likely to be rejected unless there is a good reason (such as you were still unwell) until the point of submitting the claim.

Through the procedure you may also be able to request an extension to deadline to some forms of assessment. This procedure should be used where possible to enable students to complete their studies within the normal College year, rather than outside the teaching session.

Your department will have specific instructions for making a claim for mitigation or for requesting an extension.

Support for ongoing or long-term conditions, or for registered disabilities would not normally fall under the remit of mitigating circumstances and students should be supported through their studies with Additional Examination Arrangements. More details can be found at:

www.imperial.ac.uk/disability-advisory-service/support/exams/

**Academic Misconduct Policy and Procedures**

It is important that you learn how to properly attribute and acknowledge the work, data and ideas of others. Any proven form of academic misconduct is subject to penalties as outlined in the College’s Misconduct Policy and Procedures.

www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/

**Academic Appeal Procedure**

We have rigorous regulations in place to ensure assessments are conducted with fairness and consistency, claims for mitigating circumstances have been considered reasonably and in line with the regulations of the College, and that the decisions of the Boards of Examiners maintain the integrity of our academic awards. In the event that you believe that you have grounds to appeal these decisions, we have laid out clear and consistent procedures through which appeals can be investigated and considered:

www.imperial.ac.uk/about/governance/academic-governance/academic-policy/complaints-appeals-and-discipline
Arithmetic Marks Check

If you consider that there may have been an error in the adding up of your marks, you may request an arithmetic mark check. Please note that this must be requested within 10 working days of the official notification of your results from the Results team. You may not request a marks check for a previous year of study. See [https://www.imperial.ac.uk/about/governance/academic-governance/academic-policy/complaints-appeals-and-discipline/](https://www.imperial.ac.uk/about/governance/academic-governance/academic-policy/complaints-appeals-and-discipline/)

Student Complaints

The College strives to ensure that all students are well supported in their studies and receive a good experience of their programme and the wider College activities. If you feel that your experience has not lived up to these expectations the College has an agreed Students Complaints process through which your concern can be investigated and considered. See [www.imperial.ac.uk/about/governance/academic-governance/academic-policy/complaints-appeals-and-discipline/](http://www.imperial.ac.uk/about/governance/academic-governance/academic-policy/complaints-appeals-and-discipline/)

Student Disciplinary Procedure

The College has the right to investigate any allegation of misconduct against a student and may take disciplinary action where it decides, on the balance of probabilities, that a breach of discipline has been committed. The general principles of the Student Disciplinary Procedure are available on the College website: [www.imperial.ac.uk/admin-services/secretariat/college-governance/charters/ordinances/students/](http://www.imperial.ac.uk/admin-services/secretariat/college-governance/charters/ordinances/students/)

Intellectual Property Rights Policy

For further guidance on the College’s Intellectual Property Rights Policy is available on the College website: [www.imperial.ac.uk/students/enterprising-students/intellectual-property/](http://www.imperial.ac.uk/students/enterprising-students/intellectual-property/)

Use of IT Facilities

View the Conditions of Use of IT Facilities: [www.imperial.ac.uk/admin-services/ict/self-service/computers-printing/staff-computers/conditions-of-use-for-it-facilities/](http://www.imperial.ac.uk/admin-services/ict/self-service/computers-printing/staff-computers/conditions-of-use-for-it-facilities/)

General Data Protection Regulation (GDPR)

All staff and students who work with personal data are responsible for complying with GDPR. The College will provide support and guidance, but you do have a personal responsibility to comply. In line with the above, please see the College’s privacy notice for students which form part of the terms and conditions of registration with the College. See [www.imperial.ac.uk/media/imperial-college/administration-and-support-services/registry/academic-governance/public/academic-policy/admissions/Privacy-notice.pdf](http://www.imperial.ac.uk/media/imperial-college/administration-and-support-services/registry/academic-governance/public/academic-policy/admissions/Privacy-notice.pdf)
11. Wellbeing, Support and Advice

In your Department

Your Department has a system of academic and pastoral care in place to make sure you have access to the appropriate support throughout your time at Imperial.

Your Personal Tutor

Your Personal Tutor is your first point of contact for pastoral support and advice. You can arrange to have a meeting with them at any time during your studies (although most Personal Tutors will have set office hours or may require you to make an appointment).

If necessary, they will direct you to an appropriate source of support.

Senior Tutor (Postgraduate)

In the event of an issue arising, within the Department there are a number of avenues for you to seek support. This will include your departmental Senior Tutor (Postgraduate), Dr Ana Ruiz-Teran, and other designated staff such as:

- Personal Tutors
- Programme directors
- MSc Taught Courses Manager
- Cluster Administrators/General Office

Departmental Wellbeing Officer (part-time)

The Student Wellbeing Advisor can provide you with confidential support and advice with a variety of things such as accommodation, exercise, food and nutrition, sleep, identity, mental health, stress and anxiety and general wellbeing.

Appointments are available by email on m.langan@imperial.ac.uk – she also offers drop in hours on Mondays and Tuesdays. 30 minute of 1 hour confidential appointments to all Civil Engineering students.

Departmental Disability Officers

Departmental Disability Officers are the first point of contact in your department for issues around disability. They can apply for additional exam arrangements on your behalf and will facilitate support within your Department.

Mrs Louise Green

Undergraduate Office, Room 401

020 7594 6045

l.green@imperial.ac.uk
More information on Departmental Disability Officers is available at:
www.imperial.ac.uk/disability-advisory-service/support/ddos

More information about how to request additional arrangements for exams if you have a disability is available at:

If you have any issues regarding a disability that you would like to discuss with your Department, or if you believe you will require special examination arrangements due to a disability, please feel free to speak to Mrs Louise Green in Room 401, or email for an appointment.

Your Union

All Imperial students automatically become members of Imperial College Union when they register at the College. The Union provides a range of independent support.

Imperial College Union Advice Centre

The Union’s advisers are on hand to provide free, confidential, independent advice on a wide range of welfare issues including housing, money and debt, employment and consumer rights, and personal safety. www.imperialcollegeunion.org/advice

Student representatives

Imperial College Union operates two Representation Networks of over 600 elected student representatives – the Academic Representation Network and the Wellbeing Representation Network. Reps represent the voice of students and can direct you to internal and external support services. The Union’s Liberation Officers also work to make sure that the views of under-represented and interest groups are heard at the College.

If you have any feedback about issues in your Department relating to academic or wellbeing issues, you can speak to one of your student representatives. www.imperialcollegeunion.org/your-union/your-representatives/a-to-z

Student Hub

At the Student Hub, you can access advice about accommodation, admissions and financial support and get help with international student enquiries, questions about student records, and exams. www.imperial.ac.uk/student-hub

Student Support Zone

The Student Support Zone has lots of information about the resources available at Imperial and beyond to help you to stay healthy and happy. It’s a great place to start when you’re looking for some support – it covers advice about housing and money, health, wellbeing and maintaining a good work-life balance, and provides the details of who you can contact if you need some extra support. www.imperial.ac.uk/student-support-zone
Welcome from the Graduate School

The Graduate School is responsible for the postgraduate experience at the College and we work closely with the Union and the Graduate Students’ Union to ensure that when decisions are being made, which affect your time at Imperial, your voice is heard. Another important aspect of our role is to offer you a free and exciting range of professional development opportunities which you can access from where ever you are in the world. Whether you wish to pursue a career in academia, industry or something else, professional development training will improve your personal impact and will help you to become a productive and successful researcher.

The Graduate School also runs a number of exciting social events and competitions throughout the year which are an opportunity to broaden your knowledge as well as to meet other students and have fun. You should regularly check the Graduate School’s website, blog, social media and e-Newsletters to keep up to date with all the latest activities available to you.

Finally, Imperial College is an extremely exciting, stimulating and diverse environment in which to work, to study and to research, do make the most of all that the College and your programme has to offer.

Welcome from the Graduate Students’ Union

I am delighted to welcome you to Imperial College! Let me introduce you to the Graduate Students’ Union (GSU). We are the elected representative body standing up for your interests as a postgraduate student. In addition, we are here to help you to make the most of your time at Imperial. We work towards building a thriving and enjoyable postgraduate community, spanning across all faculties and campuses at Imperial College.

As a postgraduate student, there are facilities and events available just for you. The graduate school provides a range of invaluable courses ranging from communication to professional progression to business skills courses. Our student Union has over 100 different societies for you to get involved in, ranging from boxing to consulting. You also have your own, graduate only, bar (h-bar) which opens Monday to Friday from 5pm till late with tapas style food and events every week ranging from Karaoke to weekly pub quizzes.

So, what are we up to for this coming year? We are going to focus on these major areas of action:

- Develop the GSU to become central to the postgraduate community by improving the two-way flow of information, between the GSU and you across all campuses;
- Improve services at h-bar to your needs;
- Organise exciting events such as student wellbeing workshops and entrepreneurship opportunities throughout the year;
- Continue improving postgraduate wellbeing by increasing the quality of supervision, and by creating strategies to tackle common mental health challenges in higher education.

We are here to make your time here as enjoyable and beneficial as possible, if you have thoughts, ideas or feedback, make sure you get in touch! Finally, I hope that you have a fantastic time here at Imperial and take advantage of the richness of opportunities that await you.

Mohit Devgan, GSU President 2019-20, gsu.president@imperial.ac.uk

12. **Student Records and Data**

The Student Records and Data Team are responsible for the administration and maintenance of the student records for all students studying at the College. This includes enrolments, programme transfers, interruption of studies, withdrawals and processing of examination entry for research degree students. The team also use this information to fulfil reporting duties to the Student Loans Company, Transport for London and the UKVI, as well as other external bodies.

The Team is responsible for the processing of student results and awards on the student record system as well as the production and distribution of academic transcripts and certificates of award.

The Student Records and Data Team produce a variety of standard document requests for both current and previous students including council tax letters, standard statements of attendance and confirmation of degree letters.

13. Work-Life Balance

The pace and intensity of postgraduate study at Imperial can be demanding so it’s important to find time for outside interests.

Civil Engineering Society (CivSoc)

The Civil Engineering Society is the departmental student society, of which all Undergraduate and Postgraduate students are automatically members. Run by an elected committee of students, CivSoc is one of the most active departmental societies in the College and organises regular events throughout the academic year. These include numerous lunchtime lectures given by industrial companies, site visits, social events and parties. The highlight of the CivSoc year is the extremely popular international trip in the spring, open to all students in the Department. Additionally, CivSoc writes and publishes the departmental student newspaper LIVIC.

All students are encouraged to participate in CivSoc-run activities. Announcements concerning upcoming events and society news are emailed to all members, displayed on the screen in the second floor Breakout Student Space, as well as being available on CivSoc’s website and social media pages.

Chair: Remi Pelletier

Secretary: Jaime Artaza Guerrero

Treasurer: Alberto Garcia Sinobas

LIVIC Editor: Lijithan Kathirkamanathan

Events Officer: Rhys Rickard-Frost

Industrial Liaison Officer: Will Dubin

Tour Officer: Sima Jovanovic

Alumni and Mums & Dads: Lilas Gimard

Marketing and Web Officer: Meena Bashier

Departmental Wellbeing Representative: Louise Benard

Department Representative: Tomas Schuscheim
Imperial College Union

The Union’s range of 375+ student-led clubs, societies and projects is one of the largest of any UK university, opening up lots of ways for you to enjoy your downtime.

www.imperialcollegeunion.org/about-us

Graduate Students’ Union

The Graduate Students’ Union is the postgraduate arm of Imperial College Union. The GSU works alongside the Imperial College Union President to ensure that the requirements of postgraduate students are catered for. It also organises a number of academic and social events during the year.

Active Imperial

Imperial College has a wide range of sports and activities on offer that cater for all standards and abilities. We have a recreational activity offer, competitive sports teams and an elite sport programme. We are dedicated to ensuring we have a diverse, inclusive and exciting offer for all.

With an annual fee of £30 you will get use of the gym and swimming facilities on our campuses.

www.imperial.ac.uk/sport
14. Student Feedback and Representation

Feedback from students

The College and Union is committed to continually improving your education and wider experience and a key part of this is your feedback. Feedback is thoroughly discussed by your student representatives and staff.

Student representation

Student Representatives are recruited from every department to gather feedback from students to discuss with staff. More information about the role, and instructions on how to become an academic representative, are available on the Imperial College Union (ICU) website.

www.imperialcollegeunion.org/your-union/your-representatives/academic-representatives/overview

Due to the number and complexity of our MSc programme configuration, elections to the positions of Programme Student Representatives are managed within the Department. You will be advised of the processes, both on self-nomination for the positions, and the selections processes, during the cluster induction sessions. Typically we look for one representative from each of the core programmes and one or two from Business Management.

Staff-Student Committee

The Staff-Student Committee is designed to strengthen understanding and improve the flow of communication between staff and students and, through open dialogue, promote high standards of education and training, in a co-operative and constructive atmosphere. College good practice guidelines for staff-student committees are available here:

www.imperial.ac.uk/about/governance/academic-governance/academic-policy/student-feedback

There are three committees: Undergraduate, Master's and Research Students/Staff. They meet once each term, and their remit is as follows:

- To provide a forum for debate about important matters.
- To receive feedback from students.
- To initiate enquiries or investigations on matters of concern to students.
- To represent the interests and requirements of the student body.
- To air grievances.

The membership is drawn from the student body, with members being elected by their peers at the beginning of term, the Student Union, the Graduate Student Association and relevant Departmental Officers.

The Undergraduate SSLC is chaired by the Director of Undergraduate Studies and both the MSc and PhD are chaired by the Senior Tutor (Postgraduate), with the MSc and PhD Departmental Representatives acting as Deputy-Chair.
15. **Student Surveys**

Your feedback is important to your Department, the College and Imperial College Union. Whilst there are a variety of ways to give your feedback on your Imperial experience, the following College-wide surveys give you regular opportunities to make your voice heard:

- PG SOLE lecturer/module Survey
- Student Experience Survey (SES)
- Postgraduate Taught Experience Survey (PTES)

The PG SOLE lecturer/module survey runs at the end of the autumn and spring terms. This survey is your chance to tell us about the modules you have attended and the lecturers who taught them.

For PG SOLE your lecturers will receive their individual numerical results and comments shortly after the survey closes. To make the most of your opportunity to give your feedback, please do not use offensive language or make personal, discriminatory or abusive remarks as these may cause offence and may be removed from the results. Whilst this survey is anonymous, please avoid self-identification by referring to personal or other identifying information in your free text comments.

The Student Experience Survey (SES) is another opportunity to leave your views on your experience. This survey will cover your induction, welfare, pastoral and support services experience.

The Postgraduate Taught Experience Survey (PTES) is the only national survey of Master’s level (MSc, MRes, MBA and MPH) students we take part in. This is the only way for us to compare how we are doing against the national average and to make changes that will improve our Master’s students’ experience in future. PTES covers topics such as motivations for taking the programme, depth of learning, organisation, dissertation and professional development. PTES last ran in spring term 2018.

All these surveys are anonymous and the more students that take part the more representative the results so please take a few minutes to give your views.

The Union’s response to surveys can be found here:  
[https://www.imperialcollegeunion.org/your-union/your-representatives/responses](https://www.imperialcollegeunion.org/your-union/your-representatives/responses)

If you would like to know more about any of these surveys or see the results from previous surveys, please visit:  
[www.imperial.ac.uk/students/academic-support/student-surveys/pg-student-surveys](www.imperial.ac.uk/students/academic-support/student-surveys/pg-student-surveys)

For further information on surveys, please contact the Registry’s Surveys Team at:  
[surveys.registrysupport@imperial.ac.uk](mailto:surveys.registrysupport@imperial.ac.uk)
16. After Your MSc

Alumni Services
When you graduate you will be part of a lifelong community of over 190,000 alumni, with access to a range of alumni benefits including:

- discounts on further study at the College and at Imperial College Business School
- alumni email service
- networking events
- access to the Library and online resources
- access to the full range of careers support offered to current students for up to three years after you graduate
- access to our Alumni Visitor Centre at the South Kensington Campus, with free Wifi, complimentary drinks, newspapers and magazines, and daytime left luggage facility

Visit the Alumni website to find out more about your new community, including case studies of other alumni and a directory of local alumni groups in countries across the world.

www.imperial.ac.uk/alumni

Opportunities for Further Study
After you have completed your Master’s programme, you may choose to continue your studies on a PhD, CDT or other CPD programme at Imperial.

http://www.imperial.ac.uk/civil-engineering/prospective-students/postgraduate-research-admissions-phd-engd-mphil/

Appendix A: Monitoring Attendance

Since the introduction of Tier 4 of the Points Based System in March 2009, the College has held a license permitting us to sponsor the visas of students from outside the European Union to enable them to attend our courses.

Sponsorship of students, under our Tier 4 Visa License, brings with it an obligation for us to inform the Home Office whenever we withdraw sponsorship from a student. This may be as a result of a student withdrawing or being expelled from their course, interrupting their studies, or not being in attendance. This is reflected in the College’s regulations and procedures to ensure the welfare and academic progress for all students. See Academic Regulation Paragraph 9.4 of the General Regulations for Students:

http://www.imperial.ac.uk/about/governance/academic-governance/regulations/

The College does not wish to discriminate in its treatment of students from outside the European Union, and so all procedures for monitoring attendance and reporting student activity apply equally to all students.

The procedure for compliance adopted for the Master of Science Programme within the Department of Civil and Environmental Engineering is to base the monitoring of attendance around a number of ‘check-points’, which are:

- Start-of-Session Induction.
- Confirmation of attendance at the Health and Safety Induction, which is a requirement of the College for issue of ID cards.
- Submission of selected items of coursework.
- Attendance at Field Trips/Site Visits.
- Examinations and Progress Tests.
- Randomly selected lectures/laboratories/tutorials.
- Scheduled meetings with Personal Tutors and/or Project Supervisors.

In order to make this process efficient, the following shall apply.

- The Cluster Administrator (or other relevant staff) shall conduct the monitoring using a class list supplied by Imperial College Registry.
- There shall be one location (which will be notified to you by email) for the submission of **randomly selected** coursework related assessment items.
- Each student shall sign (digitally or paper) the class list at each check-point.
- The Cluster Administrator shall inform the relevant Senior Tutor and Course Director of any student who fails to interact with the College on **three** consecutive occasions.
- The student will be invited for interview, and a warning may be issued.
- If non-attendance continues, the Senior Tutor shall inform the Head of Department and the College Registry.
- The Imperial College Registry report directly to relevant authorities, including HEFCE, the UK-VI and sponsors.

The Department expects students to demonstrate their commitment to their degree programme by attending lectures, complying with specific requests within specified deadlines, and submitting coursework on time. If students cease to engage properly with the course, e.g. by being absent without permission or adequate cause, this may be reported to the relevant authorities, and may result in being asked to leave the College. In the case of those attending with Student Visas, this could jeopardise the individual’s ability to stay in the UK.
Internships

Postgraduate students can only undertake work placements if they are an approved part of their course of study (an example of which might be as part of the project element). Students who may wish to interrupt their studies to take an internship (in the UK or overseas) will have the sponsorship of their visa withdrawn and will need to apply for a new visa in order to return to their course at a later date.

Recording Study Leave

This form should be used to cover any and all study time which is spent outside of the UK for the following situations:

a. Field work and data collection.
b. Study Leave which is not subject to the Placement Learning Policy, such as extended field work. The College’s Off-Site Working procedures should be followed: http://www.imperial.ac.uk/safety
c. For Tier 4 students the College is required by UKVI to report any time away from the College as a ‘change of study location’ within 10 days of this change taking place. This will not impact on a student’s visa status in the UK.

The form is to be:

- Completed by the student,
- Authorised by the supervisor
- Submitted to the Cluster Administrator (who will file a digital copy with the General Office, Skempton Building (cvpgo@ic.ac.uk))

The General Office will be responsible for any further notifications required.

Queries regarding this form should be addressed to Fionnuala in the General Office or by email to f.donovan@imperial.ac.uk

For students with Tier 4 visas

The Visa Compliance Team may be contacted by email on visacompliance@imperial.ac.uk for advice.

Appendix B: Cheating Offences – Policy and Procedures

The Policy and Procedures contained in this document apply to all students and former students at Imperial College registered for Imperial College or University of London awards. A complete copy of the College regulations governing Cheating Offences: Policy and Procedures, under which Plagiarism is categorised, is available to download from the following link:

In any proceedings under these Policy and Procedures, the student shall be presumed to be innocent until the contrary is established beyond reasonable doubt.

Where the offence is an instance of suspected plagiarism, it shall be dealt with in accordance with the following procedures, commensurate with the severity of the suspected offence.

If you are not sure, please ask. Useful reference points are academic and library staff.

Plagiarism is defined as the presentation of another person’s words, ideas, judgement or data as though they were your own. For example; not referencing the source of your ideas or arguments when they have derived from your reading; taking verbatim the words of someone else’s work and putting it into your project without quotation marks and referencing; taking whole sections out of books, the internet, articles, lecture notes, other reports or other students’ work, and including them in your report uncited. Plagiarism may also occur in formal written examinations - the above document addresses this possibility. An example might be where candidates have been able to learn text by heart (by rote) and simply reproduce this without acknowledgement of source. Where the examination is based on technical knowledge, this may be acceptable and not regarded as plagiarism. In other subjects where candidates are asked to write essay-type questions, the examiners may regard text reproduced without reference or critical analysis as plagiarism. This will be clarified, where appropriate, in the examination rubric on the front page of the examination paper.

You should be aware that you have a collective responsibility for the integrity of group work submitted for assessment. This means that if part of the work is plagiarised, all group members will be held accountable unless proof can be provided by each individual member of their contribution. You should, therefore, retain an audit trail of your contribution for this purpose.

When submitting (both individual and group) assessed coursework you will be required to complete and attach a Coursework Cover Sheet (examples on the following page) confirming that you have read and understood the definition of plagiarism. Submitting this form will certify that the work presented is entirely your own, except where indicated.

Plagiarism is a serious offence. The Examination Board reserves the right to take further action as it deems appropriate to protect the name of the Department and the College, and this may involve expulsion of a student from the programme or delay or withdrawal of a degree award.
19. Appendix C: Cover Sheets

You will be required to complete and attach a cover sheet (examples given below) to all of your paper assignments. These can be collected from the General Office, just behind the door, at any time. You must read the Plagiarism Declaration, and, in signing the cover sheet, you agree that you have understood and complied with the Department’s guidelines on plagiarism.

For more information on plagiarism, please refer to section 5 of this handbook.
The Plagiarism Declaration Guidelines, which are printed overleaf on the individual/group cover sheets read as follows:

You are reminded that all work submitted as part of the requirements for any examination (including coursework) of Imperial College must be expressed in your own writing and incorporate your own ideas and judgements.

You must NEVER give your coursework, whether electronically or in paper copy, to someone else to submit, nor should you accept to hand in coursework on someone else’s behalf. If copying of material occurs as a result of such activity, both parties are considered to have actively taken part in plagiarism.

Plagiarism, that is the presentation of another person’s thoughts or words as though they are your own, must be avoided with particular care in coursework, essays and reports written in your own time. Note that you are encouraged to read and criticise the work of others as much as possible. You are expected to incorporate this in your thinking and in your coursework and assessments. But you must acknowledge and label your sources.

Direct quotations from the published or unpublished work of others, from the internet, or from any other source must always be clearly identified as such. A full reference to their source must be provided in the proper form and quotation marks used. Remember that a series of short quotations from several different sources, if not clearly identified as such, constitutes plagiarism just as much as a single unacknowledged long quotation from a single source. Equally if you summarise another person’s ideas, judgements, figures, diagrams or software, you must refer to that person in your text, and include the work referred to in your bibliography and/or reference list. Departments are able to give advice about the appropriate use and correct acknowledgement of other sources in your own work.

The direct and unacknowledged repetition of your own work, which has already been submitted for assessment, can constitute self-plagiarism. Where group work is submitted, this should be presented in a way approved by your Department. You should therefore consult your tutor or course director if you are in any doubt about what is permissible. You should be aware that you have a collective responsibility for the integrity of group work submitted for assessment.

The use of the work of another student, past or present, constitutes plagiarism. Where work is used without the consent of that student, this will normally be regarded as a major offence of plagiarism.

Failure to observe any of these rules may result in an allegation of cheating. Cases of suspected plagiarism will be dealt with under the College’s Cheating Offences Policy and Procedures and may result in a penalty being taken against any student found guilty of plagiarism.

HEALTH AND SAFETY CONTACT INFORMATION

Emergency procedures:

- MEDICAL, FIRE or SECURITY EMERGENCIES - DIAL 4444 or 020 7589 1000
- FIRST AID – Contact the nearest First Aider (see separate sheet)
- BUILDING EVACUATION – Know your evacuation route, use the nearest staircase (east, west or central stairs). DO NOT USE THE LIFTS. Leave the building quickly and safely. Do not return to collect personal belongings.
- ACCIDENTS + DANGEROUS OCCURRENCES – All accidents and near misses, however minor, MUST BE REPORTED using the online system “SALUS”

</tr>
</tbody>
</table>
INTRODUCTION

The Health and Safety of all students whilst studying at Imperial College is a primary concern to the Staff and College. There are several major pieces of legislation that dictate the implementation of Health and Safety Policy and Practice. We must ensure that students are not put at risk during their study at Imperial College. However, there is also a responsibility upon yourself to follow, to the best of your abilities, all instructions and guidance provided. This booklet has been written to provide an outline of Health and Safety arrangements within the Department and to provide you with guidance to your own responsibilities.

GENERAL INFORMATION

Health and Safety within the Department is organised and managed by the Departmental Safety Officer, Dr G. Fowler (room 413, ext. 45973). He is always available to provide advice and guidance on all aspects of Health and Safety. All major Health and Safety decisions are made by the Skempton Building Safety Committee, which meets every term. The committee comprises representatives from all the Sections in the Department, Users of the Building, Student representatives (UG & PG), plus staff with specialist advisory roles for particular activities that may present a risk.

The Orange Health and Safety and Green First Aid/Lifesaver notices provide Health and Safety guidance and list the members of staff with specific safety related duties and responsibilities. Copies of these notices are included inside this book and further copies are spread throughout the Department. These signs are updated regularly. You must yourself familiar with their content.

The College has a significant amount of safety-related information available via its web site: http://www.imperial.ac.uk/safety.

YOUR RESPONSIBILITIES

Each student is responsible for looking after their own health and safety and that of others affected by their College-related work and leisure activities. To this end, each student must:

a) Comply with all local and College policies, procedures and codes of practice and with the arrangements which the College has in place to control health and safety risks.

b) Ensure that their activities do not present unnecessary or uncontrolled risks to themselves or to others.

c) Attend appropriate induction and training.

d) Report any accidents, unsafe circumstances or work-related ill health of which they become aware to the appropriate person.

e) Not interfere with any equipment provided for Health and Safety reasons.

f) Where a student is not confident that he or she is competent to carry out a work or leisure
activity safely, inform his or her supervisor or the person in charge of the activity rather than compromise his or her own safety or the safety of others.

DEPARTMENT SAFETY SHAREPOINT SITE

The Department operates an electronic safety registration and risk assessment system. It is based around an online resource for H+S using the Microsoft SharePoint platform. This system provides a single resource for safety management, including: risk assessment creation and final approval and laboratory safety information. Appendix 1 in this booklet provides a summary of the how you can access the system and complete a risk assessment. As taught students, you will only need to use this system for the research project element of your course where your work may include laboratory or fieldwork activities. Risk assessments will not be needed for desk or computer-based projects. Appropriate training in using this system will be provided when required.

DEPARTMENT SECURITY

Security and safety are closely linked. Please help us keep the building secure and safe by following the following simple rules:

ALWAYS wear your College Security/ID card whilst at College. Belt clips or neck lanyards are available from the Department General Office.
DO NOT allow strangers to enter the building out of hours (deliberately or via tailgating) NEVER lend your ID card to anybody, if they cause damage or present a risk to security or safety, YOU will be liable.

DEPARTMENTAL WORKING HOURS

The nature of the College is such that it appears to operate 24 hours per day - research never stops. Nevertheless, there are times of the day which the College considers are “outside normal hours” or access is limited and so special safety procedures including specific risk assessments and or lone working approval may be needed for your work to continue. In addition, there are times of the day when the College is “closed”. The Department open and closed hours are as follows:

Normal opening hours: 8am – 6pm Monday to Friday
Swipe card access only: 7am – 8am & 7pm – 12pm, Weekdays 7am – 12pm Weekends & Public Holidays
College “Closed” (swipe inactive): 12pm to 7am every day and during selected whole days during College Closure at Christmas.

Please make sure that you leave the Department before midnight. College Security patrol the buildings out of hours and any persons found on the premises will be removed from the building and have their access rights curtailed.
SAFE BEHAVIOUR IN THE DEPARTMENT

This is a large and busy building where many varied and potentially dangerous processes occur. You should always be careful when in the building to ensure that you do not put yourself or others in way of harm. For example, be aware of people around you when walking down corridors, so that you do not obstruct them or inadvertently release a door into their path. All doors on the corridors are fire doors and have automatic closer devices fitted which cause the door to swing back, almost instantaneously, to the closed position. Please note that some of these doors (mainly on Level 5) have a delayed close and should not be forced to close – this will damage the closer device. Fire doors must never be propped open with a wedge or other heavy object.

Also, please note:

- Do not run in the corridors.
- The wearing and use of roller blades, inline skates and the use of scooters in the building is forbidden. They are a hazard to other people and damage the floors.
- You must not enter any of the laboratories or workshops without prior permission.
- **Bicycles are not allowed** in the building – this is a College-wide policy. Bicycles must be stored in the racks provided on Campus.

WASTE DISPOSAL

There are very strict laws governing waste disposal. The College is proactive with regard to waste management and recycling, there are numerous recycling points around the building. Certain wastes generated in the Department are separated for recycling/safety reasons. The following is a brief guide to the recycling and waste disposal mechanisms operating throughout the campus and applied within the department.

The College is striving to recycle as much of the waste it generates. One way to achieve this is by segregating waste at source. To achieve this the College has a number of different waste bins in use, which are colour-coded, each one designated for different wastes:

- **Waste domestic Glass** (not broken glass): Use the red-topped bins
- **Paper and Card** (no paper cups or food wrappers): Use the blue-topped bins
- **Cans and plastic bottles**: Use the green-topped bins
- **Non-recyclable waste**: Use the black-topped bins

Special arrangements exist for non-domestic, electronic and laboratory wastes:

- **Batteries**
a dedicated bin for batteries is located on level 2 (BOSS area) in the area near the photocopiers.

- **Chemical wastes**
Any waste arising from laboratory activity which is contaminated or classified as hazardous (laboratory staff will advise you if you are unsure) must be disposed of in a controlled manner. Each Laboratory has special containers for segregating these wastes, including solvents, flammable waste, oils, corrosive materials, powders, etc. Please follow the guidance in each laboratory appropriate for the waste requiring disposal.
Clinical waste: Of main concern are syringe needles and any bodily fluids. If you find anything which may fall into this category around the department, please contact the Department Safety Officer (DSO) immediately.

Electrical equipment: Waste electrical equipment must not be disposed of via the non-recyclable waste route. Please contact the DSO for details of the procedures which exist for disposing of these materials.

Laboratory waste Every laboratory has rules regarding the disposal of laboratory waste. You will be advised by laboratory staff what is expected in each laboratory.

Laboratory Glass: The College operates special disposal systems for laboratory glassware which is contaminated or made from Pyrex – it **MUST NOT** be put into the red recycling bins in communal areas.

Toner cartridges There is a bin on L2 (BOSS area) and L4 outside room 415, dedicated to printer and toner cartridges.

If you have any doubts regarding the best way to dispose of a laboratory waste, ask the Laboratory staff, your Supervisor or the Department Safety Officer. Your risk assessment should specify all waste disposal procedures required for your work.
FIRE EQUIPMENT AND ESCAPE ROUTES

The Department has several means of escape in an emergency. The plan below shows the building in relation to the rest of Imperial College.

Emergency exit locations and Assembly point for Skempton Building

There are four primary exit routes from the upper levels of the Skempton Building

The East Stairs adjacent Mechanical Engineering/Unwin Road
The West Stairs which are part of Electrical Engineering
The Main (Central) Stairs beside the lifts, through reception
Through the BOSS area on Level 2 into the City and Guilds Building

The emergency evacuation assembly point is the stepped area at the base of the Queen’s Tower

All the corridors in the building must be kept clear. Do not put chairs or tables into corridors, as they reduce the width and cause an obstruction. Similarly, because all the doors in the Department corridors are fire doors, they must NEVER be propped open with wedges, fire extinguishers or by any other means.

You MUST know which way is the quickest emergency escape route from your location in the building. All the emergency escape routes are indicated with an “arrow and running directional figure” green sign. The evacuation alarm is a Claxon sounder with voice instructions. If this activates you must stop what you are doing and leave the building.
IMMEDIATELY by the nearest emergency escape route in an orderly manner, making sure that you close any doors behind you.

There are evacuation notices in every room in the building (please following for an example) indicating with a green arrow the preferred exit route from that part of the building. Please follow these arrows as they will ensure that you can evacuate from the building with the minimum of delay. Please try to avoid using the main staircase during an emergency evacuation. The congestion on the Main Staircase can be significant and your evacuation will be much delayed.

Emergency

For all Emergencies dial 4444

Direction of the nearest escape route

The assembly point is adjacent the base of the Queens Tower

For further details see the Department Safety notices

This notice must NOT be removed from this room
IF THE FIRE EVACUATION ALERT SOUNDS, **DO NOT:**

- Wait or return to collect any belongings
- Leave the assembly point until instructed to do so
- Return to the building until the all-clear is given

THERE WILL BE A FIRE DRILL DURING THE FIRST TERM, TO FAMILIARISE YOU WITH EMERGENCY PROCEDURES.

**FIRE PREVENTION & SAFETY**

The consequences of a fire in any building can be several fold. Apart from the unacceptable loss of life which may result, there are the lesser consequences of damage to the building, the cessation of activities in the damaged area (or the whole building) and the loss of research and data in an Academic building. None of these outcomes are acceptable.

There is a responsibility upon all users of the building to ensure that fire prevention is a core part of all risk assessments and our day-to-day activities. The College has suffered several fires in recent years. The most serious occurred in the Department of Chemical Engineering and resulted in 3 laboratories being destroyed. The consequence of the lost research, equipment and data was very costly to the students and staff concerned, irrespective of the fiscal implication for the College and Department.

Current UK Fire Brigade policy is to not place fire fighters at risk, if there are no members of the public (College personnel) in the burning building. Thus, they could allow the building to be destroyed.

There have been several fire incidents in the Skempton Building, mostly caused by faulty electrical equipment. Most recently there have been several incidents involving the communal microwave ovens. When using the microwave ovens, the instructions on the ovens must be followed. **Failure to use the ovens responsibly and safely may result in them being removed.**

**MICROWAVE OVEN SAFE USAGE**

- Follow the instructions on the front of the microwave oven
- Never microwave loose food – always place it in a container
- Only use “microwave oven safe” containers
- Do not use metallic containers or utensils in the microwave
- Loosen/open the lid on the container
- Do not leave food cooking unattended
- If food spills in the microwave, please clean it up.
- Report any problems with the microwave to the Technical Services Manager (b.whiting@ic.ac.uk)
ACCIDENTS AND DANGEROUS OCCURRENCES

The College has a policy that ALL accidents or dangerous occurrences, however small, MUST be reported. This is because there is a very strict law with regard to reporting accidents to the authorities. There is an online system “SALUS” available for reporting all accidents or dangerous occurrences. A dangerous occurrence is an incident that does not result in personal injury.

SALUS is accessible from the Safety Department web page via a quick link:

http://www.imperial.ac.uk/safety

Typical accidents in the Department tend to occur due to “slips, trips, falls” and poor lifting practice. Many of the corridors in the Department are linoleum or terrazzo. When wet, the floors are slippery. If you see a wet floor, or cause a floor to become wet, for example by spilling coffee or tea, please do not walk away, clear it up with paper towels (these are available from the General Office).

FIRST AID & LIFESAVERS

The College has a very well organised First Aid system. There are several qualified First Aiders working within the building. The offices of these staff are identified by the Universal first aid sign (a Green & White cross). If you feel unwell or need First Aid assistance please contact any of the staff identified on the list in the front of this book for assistance. In addition, most of the College Security staff are trained in First Aid and can be contacted by calling the College emergency number 4444 or 020 7589 1000. There are supplies of sticking- plasters and bandages available to treat minor injuries (cuts, scrapes and bumps). Any injuries which cannot be readily treated by a First-Aider must be looked at by the Health Centre, who may decide that hospital treatment is necessary.

ELECTRICAL EQUIPMENT

The Department has a very strict policy regarding mains-powered portable and desk- based electrical equipment brought onto the premises. This is detailed below. The key aspect of this policy requires that any electrical equipment in the building must be either new or safety tested prior to use. The periodic testing of electrical equipment in the Department is undertaken by external contractors. Thus, unless your electrical equipment meets any of the conditions below, you are NOT PERMITTED to plug it into the Department electrical 240V sockets.

All equipment which has been tested and passed the electrical safety test will have attached a green sticker indicating that it may be used in the Department (see image following). Any equipment not displaying this sticker or meeting the exceptions criteria described below the image, will be confiscated.
New equipment brought into the Department

New equipment brought into the Department may be used for the first year without the need for a Portable Appliance Test (PAT). The user is asked to perform a simple visual check on all equipment prior to use. Records of the equipment purchase, usually through the College finance system or a receipt from the supplier, must be kept to be able to prove the date of purchase. It must also be marked with a European CE mark or an otherwise equivalent international directive.

Personal electrical equipment brought into the Department

Personal electrical equipment brought into the Department will be PAT tested as Departmental equipment. To ensure that personal electrical equipment is tested within an acceptable timeframe (limit of one year of safe usage), only new personal equipment may be brought into the Department. Proof of date of purchase will be required. Under no circumstances may old equipment be brought into the Department. If old equipment is found then it will be confiscated and may be destroyed. The exception to the above is personal mains chargers for devices such as laptops, tablets and phones, etc. for which there is no age restriction.

Unauthorised electrical equipment

The list below gives some examples of unauthorised electrical equipment which must not be brought into the Department:

- Electric fires and heaters of any form
- Any form of equipment used for cooking or warming food (kettles, toasters etc.)
- International equipment which is not compatible with the UK mains voltage (220-240V)
- International equipment which is not marked with either the European CE mark or an equivalent international standard.
Electrical equipment belonging to visitors

Electrical equipment belonging to visitors and brought into the Department will be subjected to the normal Departmental rules.

Electrical equipment belonging to third parties

Electrical equipment belonging to third parties, such as contractors working within the Department, are the responsibility of the third party who will be required to demonstrate that their policies and procedure are at least in accordance with and of a standard compatible to those of the Department.

Design, construction, checking and testing of electrical equipment

Those involved in the design and construction of electrical equipment will be required to ensure that such equipment is suitably tested to ensure that it performs within the general conditions of the Departments “Electrical Equipment – Policy and Code of Practice”.

Repair, installation or modification of electrical equipment

Unless otherwise directed, staff and students in the Department are not allowed to undertake any repair, installation or modification to electrical equipment.

Disposal of electrical and electronic equipment

Consult the Facilities Management web pages to arrange for the collection and disposal of unwanted College Equipment (there may be a charge for this service).

http://www.imperial.ac.uk/estates-facilities/buildings/services/waste-disposal/waste-disposal-forms/weee-forms/

LABORATORY COURSES

There may be several occasions when you will undertake laboratory work as part of your course. The Department is very unusual within the College in that it operates all major classes of laboratories with many diverse activities, which include the traditional mechanical and engineering testing through to specialised chemical and biological work. Each laboratory has their own specific safety procedures which will be explained in detail before any work commences, you MUST abide by the following general rules for any laboratory behaviour/work.

Work in any laboratory must only be conducted during normal College hours (9am-6pm), with at least one other person in sight at all times. Lone laboratory working is NEVER PERMITTED. Additionally, the other person in the laboratory must know the College emergency procedures and be familiar with the working environment so that if they need to isolate a service or make safe an experiment in an emergency, they know what to do.
### Laboratory “Do and Do Not”

**DO**
- Follow all instructions from the demonstrators/lab staff
- Wear all necessary personal protective equipment, especially your safety glasses, at all times in all laboratories
- Tie back long hair
- Wear appropriate clothing and stout shoes or safety boots, as required.

**DO NOT**
- Wear long/dangly clothing or jewellery which may become snagged in moving machinery
- Wear sandals or open-toed shoes
- Run or fool about in the laboratories
- Eat or drink in ANY laboratory

### RISK ASSESSMENTS

Risk assessment is the cornerstone of Health and Safety management. No activity should be started before a risk assessment has been completed. To be able to perform a risk assessment you need to know what you are going to do and have an understanding of the steps and processes required in the task being assessed. If all the information is at hand, the assessment should be a straightforward task. If the risks are considered to be too high, this does not mean that the activity cannot be completed but it may mean that a different approach or better control measures are required to reduce the potential risks.

For most laboratory classes, the assessment will have been undertaken by the course or laboratory organiser. They will explain the assessment to you and indicate the main risks from the work to be conducted and advise you how to avoid these risks. However, some laboratory or fieldwork classes will require you to complete your own assessment (particularly for project work). The Department has standard online forms for this purpose, accessed via the SharePoint site mentioned earlier. Guidance on the completion of these forms will be provided in special introductory sessions prior to you undertaking the projects requiring assessments.

When completing risk assessments, if you need further information or require advice, you must ask the staff supporting your work (Academic or Technical). If they cannot provide the necessary answer or information, please do not hesitate to ask the DSO.

### FIELD COURSES

During the time of your studies within the Department of Civil and Environmental Engineering, there are several major courses of varying duration that require you leave the Department and College premises. Whilst away from these premises, your Health and Safety is still our responsibility. We take this responsibility very seriously. The College is covered for most events by its insurance (see: [https://www.imperial.ac.uk/finance/financial-services/insurance/](https://www.imperial.ac.uk/finance/financial-services/insurance/) for detailed information about the College’s insurance policy and its provisions), but there is an important onus (and a legal responsibility) upon you to abide by College Health and Safety rules. Every field course has its own specific set of instructions which detail the risks and methods for minimising these. Copies of these instructions will be given to you prior to your undertaking of the course. The following information is meant as a general benchmark for you to use and apply at all times when away for course purposes.
The course leader or coordinator must provide you with course details and risk assessments before commencing the field work activity. If you do not receive this information, ask the coordinator for it. Undergraduate MEEng Students must take the supplied PPE on all the field courses. Failure to do this will result in you being refused participation in the course which may mean you fail that element and hence the year.

When we organise any field course, the course co-ordinator carefully considers all the potential risks that may occur and are attributable to the particular situation. For example a visit to a quarry has particular dangers which are different to a visit to a bridge or road, but there are several common risks which can be controlled and minimised if not entirely eliminated by applying several basic rules.

1. Whilst on any field course, the most important rule is that you MUST follow the instructions of the course leader. Pay particular attention to guidance on safe practices whilst on that trip.

2. Do not try to take too much luggage with you, heavy bags can be difficult to carry and cause back strain, as well as being a potential danger if they fall from luggage racks on buses.

3. Ensure that you are suitably dressed for the trip or course i.e.: a hard hat, warm and waterproof clothing and stout shoes would be a minimum requirement for a winter visit to a site – forget fashion!

4. Take particular care when crossing roads checking in both directions for traffic before crossing. When walking alongside roads not designed for pedestrians try to stay at least 1m from the traffic at all times.

5. Make sure that you inform the course leader of any medication which you use or any ailment which you suffer from that may be a problem during the course. For example if you are a diabetic or have food allergies, it is vital that the course leader of a residential trip is aware of this in advance for dietary purposes or in case you require medical assistance on the course. Ensure that you are carrying sufficient medication for the duration of your course. A less obvious condition, but equally dangerous would be if you suffer from vertigo and visits to a bridge or tall building may be a problem or conversely, claustrophobia would be an issue for a visit to sewers.

6. Be aware of problems like dehydration and sunburn which may occur on summer field trips.

7. Any accident or dangerous occurrence, however minor, must be reported immediately to the course leader.

8. The evenings of residential courses may seem like an ideal opportunity to relax and have fun, but alcohol abuse can be dangerous and antisocial behaviour resulting from this will NOT BE tolerated.

9. You are representing Imperial College whilst on the course. Any public nuisance or criminal prosecution resulting from disreputable behaviour whilst on the course will be your liability and not the College’s. For example, some sites are classified as SSI’s (Special Scientific Interest), damaging them by even walking across them can result in prosecution.

10. Visits to sewers, building sites or other outdoor environments may expose you to pathogens such as Tetanus or Leptospirosis (Weil’s Disease). The course of study in the Department has several components which involve field work and visits to active construction sites. The nature of the activities and locations of these sites means that
there is an enhanced risk of injury (a deep cut) whilst undertaking the field courses and hence tetanus infection may result through contact with soil if you are injured. It is normal practice in the UK for children to receive a full course of tetanus immunisation injections whilst growing up (5 injections in total). Thus, you must be able to prove that you have received these injections. If you have not had them, you need to be aware of this and should consider having the necessary immunisation programme to ensure that you have up-to-date tetanus protection prior to starting the filed-based activities. It is a requirement for the course that your tetanus jab is kept up to date. It is usually valid for 10 years.

Wiel's disease is an often overlooked risk. The text box below explains how it can be caught, precautions to take to minimise the risk and the disease’s symptoms to be aware of.
Leptospirosis is spread in the urine of infected animals – most commonly rats, mice, cows, pigs and dogs.

You can catch it if:

- **soil or freshwater (such as from a river, canal or lake) containing infected pee gets in your mouth, eyes or a cut** – usually during activities like kayaking, outdoor swimming or fishing
- **you touch an infected animal’s blood or flesh** – usually from working with animals or animal parts. It’s very rare to get leptospirosis from pets, other people or bites

Precautions against the risk of infection by Leptospiro Jaundice:

After working in contact with sewage of anything which might have been contaminated by it, wash your hands and forearms thoroughly with soap and water. If your clothes or footwear are contaminated with sewage, wash thoroughly after handling them. It is particularly important to do this before eating any food or drink. Wet protective clothing should be dried as so as possible.

Infection may enter through breaks in the skin, so thorough first aid treatment of all wounds is important. Take particular care to wash thoroughly any cut, scratch, or abrasion of the skin as soon as possible, whether the injury was caused at work or not. Apply an antiseptic to the wound with a clean piece of cloth or cotton wool and protect it with a strip of gauze completely covered until it is quite healed. Antiseptic gauze and impermeable plaster are available from first aiders.

If you suffer any cut, scratch or abrasion of the skin, it must be covered with a waterproof plaster before entering a place of work.

Avoid rubbing your nose or mouth with your hands during work.

**See a GP if you might have been exposed to infected pee and you have:**

- a very high temperature, or feel hot and shivery
- a headache
- feeling and being sick
- aching muscles and joints
- red eyes
- loss of appetite

These are symptoms of leptospirosis.

**Ask for an urgent appointment if you have:**

- yellow skin and eyes ([jaundice](#))
- swollen ankles, feet or hands
- chest pain
- shortness of breath
- coughing up blood
Visits Abroad

Trips outside the UK are a feature of some of the courses. However, depending on the reason for your trip abroad, the College’s insurance may not provide full cover in all eventualities (i.e. terrorism and war zones). There may be particular risks which must be considered alongside the normal risks discussed above.

The most obvious hazards are from disease, both insect and water-borne, which will generally be regional specific i.e. tropical climates – Malaria, so advice on the require vaccinations will be needed. The availability of clean drinking water cannot be overlooked.

There may also be hazards due to wildlife, for example, predators such as large cats, venomous creatures (snakes, spiders, fish etc.), Sharks, Polar Bears and so forth.

Despite the growth of global communications, some parts of the world do not have very comprehensive satellite or mobile phone coverage, so communications with other part of the country or globe may be limited. In addition, battery life on mobile telephones must be carefully managed as you cannot guarantee to be able to find a suitable electrical supply to boost your telephone’s charge.

A further factor to consider is the political stability of the country you will be visiting. The risk of kidnap is a real threat in some countries. It is advisable to register with your national Embassy when you arrive in a foreign country, so that they know you are there. There are some countries around the world where organised society has broken down or is badly eroded due to Civil war or natural disasters. There must be very compelling reasons to travel to countries with these particular problems and comprehensive risk assessments will be required. In addition, approval for trip to countries which fall into this category will need to be given by the Head of Department. Your supervisor or course leader should make all the necessary arrangements to cover your trip. This includes activating the College insurance, which is a comprehensive policy. Nevertheless, it is very important to recognise that no travel insurance is truly and fully comprehensive. There are limits to what an insurance company can do to recover you from danger or protect you from harm. [International Rescue (“Thunderbirds”) do not exist].

There are several sources of information relevant to trips abroad:

The UK Foreign & Commonwealth Office web pages contain all the information to help make your trips as safe and enjoyable as possible: http://www.fco.gov.uk/. Follow the links for “travel advice”.

The USA Government’s CIA “World Fact Book” also contains a large amount of details on every country recognised by the USA Government:

http://www.cia.gov/cia/publications/factbook/

IMPORTANT

The College Insurance Policy is NOT VALID if you take personal holiday whilst away for College purposes. YOU MUST ensure that you have separate, personal travel insurance for recreational activities, holidays and non-College related travel whilst away.
If you need to undertake international trips for project etc., please plan ahead. Discuss the project needs with your supervisors and the DSO, as required and submit the risk assessment form at least 3 weeks before you intend to travel.

College Occupational Health will provide advice on travel medication, injections etc., and will also undertake immunisation injections for College-required trips. However, you must arrange these well in advance of your trip (ideally, at least 1 month before travel).

PERSONAL PROTECTIVE EQUIPMENT

Personal Protective Equipment, (PPE) is an essential part of Civil Engineering site safety. In recognition of this PPE is an essential requirement for the field courses run by the department.

All **first year undergraduate (MEng) students** will be issued with a personal safety pack after Christmas, just prior to the commencement of their first fieldtrip. This safety equipment must be kept safe and looked after because the items will be needed throughout the four year MEng degree. If you lose any items you will be charged for replacements. If you do not bring them to your course when required, you will not be permitted to undertake the module and may fail the course as a result.

The safety pack will comprise the following items:
- **Hard Hat**
- **Safety Glasses Site**
- **Gloves High-Viz Vest**

**Hard Hat**

British Standard Hard Hats must be thrown away after 4 years, as their safety performance cannot be guaranteed after this time. **MSc students** will be issued with hard hats during field courses and other times as required, but these must be returned to the Department. The Department issues Hard Hats as part of the safety pack above for all undergraduate students in the Department. The Hats will be needed for most field courses over the 4 year course and must be looked after.

**Safety Glasses**

MSc students will be issued with safety glasses as required for laboratory and field courses. These are issued as part of the safety pack to the undergraduate students. Safety Glasses are required for all laboratory courses and most field courses. If you do not have a pair of safety glasses, you will be unable to undertake the course.

**Gloves**

Increasing concerns over dermatitis (from cement) and cuts and grazes from construction site activity has seen the compulsory wearing of gloves on all construction sites. A pair of cotton gloves suitable for site are included in the safety pack issued to the undergraduate students and these are needed for all site visits. **MSc Students** will be issued with a suitable type of glove for laboratory and fieldwork courses.

**High-Viz Vests**

Site visibility is a key part of safety management, hence all site visits require the wearing of high-viz vests or jackets. A high-viz jacket forms part of the Safety Pack, for UG students whilst MSc students will be issued with them as required.
Safety Boots

All undergraduates and some MSc students (check your course information) must own a pair of safety boots. The footwear needs to be classified as complying with EN ISO 20345-S3, which provides the highest level of impact resistance in the toe area and be fitted with a steel mid-sole with steel toe caps and offer ankle support.

Not only are safety boots essential for any visits to construction sites, but some laboratories within the Department require that they be worn at all times and they are needed for the Surveying, Geology and Constructionarium field trips during the 1st and 2nd years of the MEng degree respectively.

The Department will be arranging for a specialist supplier to attend the Skempton Building during the first week of term to sell these boots (check your course information for more details). The wearing of safety boots is compulsory during certain courses and failure to abide by this rule will result in you being barred from the course and possibly failing that module (and hence the year). Safety boots can be readily purchased from many high-street suppliers, but these must meet the minimum requirement described above.

Some MSc courses will issue the safety equipment as the class need arises, but this must be returned to the Department at the end of the class.

WEB RESOURCES FOR HEALTH AND SAFETY AT THE COLLEGE

The College Intranet, which is accessible for all College networked PC’s, has comprehensive health and safety information covering most aspects of the activities undertaken by the College. This information can be readily accessed from either the Safety Department or the Occupational Health web pages, which can be reached under the “A-Z” tab (admin and Services) on the right-hand side of the College main menu bar of the Home Page.

Some of this information is protected and you will need your College username and system password to view all the information contained within. You can access SALUS for reporting accidents and dangerous occurrences (as described above) from this site, plus view the College policy on health and safety and guidance on many aspects of safety.

COMPUTER USE

The Department is particularly well equipped with open access computing laboratories on levels 2 and 3 that are used for teaching as well as research purposes. However, it is becoming increasingly common for people who use computers or “display screen equipment” (DSE) for long hours to start to suffer from eye and skeletal/musculature problems, particularly if you use a laptop rather than a “fixed” desk computer. This may result in eye strain, back, neck and shoulder pain, problems with wrist and arm joints. The College has produced detailed guidance on ways of minimising/eliminating potential problems from DSE use. A copy of this information sheet is appended to this booklet. Please read and apply this information, it may save you much discomfort later in life.

If you undertake a project which involves long hours of computer use then you should follow the guidance below and undertake a DSE assessment of the workstation you are using. The “Computer Health & Safety Checklist” (DSE assessment) form is available to download from the following link:

http://www3.imperial.ac.uk/OCCEALTH/formsandchecklists
Computer Use – Healthy Working

All members of the college community use computers to a greater or lesser extent. You should undertake a simple DSE assessment of the workstation you are using.

It is becoming increasingly common for people who use computers or “display screen equipment” (DSE) for long hours to start to suffer from eye and skeletal/musculature problems, particularly if you use a laptop rather than a “fixed” desk computer. This may result in eye strain, back, neck and shoulder pain, problems with wrist and arm joints. This is called “Cumulative Trauma Disorder”. The set-up of your computer workstation is very important. A poor set-up may cause the above health issues. If you start to suffer from any of the above symptoms from using computers, you must contact the departmental Display Screen Assessor (Dr Fowler) for any questions or concerns you have with regard to healthy computer usage.

The following guidance will help you in minimising the likelihood of the symptoms developing indicative of Cumulative Trauma Disorder.

Staying Healthy With Your Computer Avoiding Cumulative Trauma Disorder

Computers can damage your health. Every year we see several cases of Cumulative Trauma Disorder (CTD) formerly called RSI or Repetition Strain Injury in staff & students and the problem is becoming more common. Avoid it happening to you by taking care to organise your work-station and organise your time spent using a computer both at work and at home.

Follow these simple rules & find that your computer can work for you without causing harm.

Take Breaks - The Key Issues

1. Intersperse with other work (take note laptop users!): phone calls, writing/reading work, filing, proof reading, photocopying, talking with colleagues. Even coffee breaks!
2. Five minute break every hour & don’t spend a whole day on computer-based activities (applies equally to work at home). Web Surfing, updating Facebook, Blogging or Online gaming do not count as a break!

Keep Your Desk Tidy

Avoid cluttering it up with books, papers etc. Make sure you have enough clear space to operate your mouse easily & to access your keyboard. Keep most frequently used items close to hand to avoid stretching.

Adjust Your Computing Equipment to Suit You

1. Set your screen to a comfortable height, usually with the top just below eye level, so you do not have to stretch your neck. Avoiding any twist in your spine, sit face-on to your screen.
2. Ensure sufficient room to rest your hands in front of keyboard when not keying. Interchange position of keyboard and mouse depending on data input device predominantly in use at the time.
3. Adjust your seat height so your arms are horizontal to the keyboard and avoid flexing/extending wrists. If you use a laptop, work with it on a table, never on your lap.
4. Ensure room for your feet to rest under your desk. A footrest may be beneficial for small people.
Get Comfortable

Make use of the illustrations below to see whether you’ve organised your desk and your work to avoid unnecessary problems. The rules for desktop users apply to work with laptops; whenever possible the same advice should be followed.

Don’t ruin your work by poor practice. Be organised, be sensible with your work-time & be successful—without damaging your health.

The ideal working posture

- Forearms at keyboard height and eyes level with top of screen.
- Chair adjusts to provide back support and feet securely rested (in this case by use of a footrest).
- Use this as a guide to finding a comfortable working posture for yourself.

An ideal work station arrangement

- Desk uncluttered, space for documents etc.
- If needed and to rest hands when not typing.
- Screen positioned to avoid reflections from light coming in from the window or the fluorescent light tubes.
1. Adjust the seat height & back tilt/height to fit you. Twisted or cramped posture to be avoided.
2. If you are copying documents, use a document holder.
3. Sit back when you are thinking, rather than staying hunched over your screen.
4. Use a soft touch when keying and avoid flexing your wrists. Try to adopt a neutral position. If possible, learn how to use short cut keys and touch typing.
5. Give your eyes a comfort break too. Look away from your screen or close your eyes when thinking. Avoid staring at the screen & throw in a few extra blinks as natural blink reflexes are often unconsciously suppressed.

DON'T IGNORE SYMPTOMS

If your arms or shoulders start aching/tingling, follow steps below.

1. Take a break and re-organise work to give yourself more breaks in future.
2. If symptoms persist or keep recurring, contact your occupational health (OH) service for help.

Make Use of the Experts

1. All College Departments should have a DSE (Display Screen Equipment) Assessor who knows about computer ergonomics & can help you check your workstation. They’ll help you with the computer checklist if you don’t feel confident to complete it yourself. Also if you identify problems through the checklist which you can’t solve yourself or which may affect your or other’s safety.
2. Your local OH service can assess and advise on CTD problems.
3. Students can arrange vision screening with the OH service.

Personal Safety for Laptop Users

1. Do not endanger your health by carrying too heavy a total load with the addition of your laptop.
2. Take precautions to avoid theft while your laptop is in transit and check your insurance cover. Your personal safety is more important than loss of your laptop.

Dr G. D. Fowler
Departmental Safety Officer  September 2019
Risk Assessments

- All research activities undertaken in the College MUST have a risk assessment.
- Risk assessments MUST be done BEFORE the work starts.
- All the necessary forms and processes are available via a SharePoint system.
- Academic Supervisors must approve the assessment and electronically sign it off.
- Secondary Checker also approves (Lab manager or DSO)
The SharePoint Site

- An automated system to enable the creation of risk assessments and manage their approval and archiving

- Accessible from any Networked PC or VPN connection – use College ID and Logon

- Works with most internet browsers. It does not work in Linux

The SharePoint site allows you to attach extra information linked to your General Risk Assessment:

- COSHH Assessment

- Computer use (DSE)

- Fieldwork Risk Assessment

- These separate Word forms are all on Blackboard & SharePoint for download
Risk Assessment – A Step-by-Step guide

• Log onto SharePoint:
  https://imperiallondon.sharepoint.com/sites/foe/CivilEng/HealthandSafety/default.aspx

  The Microsoft SharePoint logon page may open first, asking for your College username ("USERNAME@ic.ac.uk"). Enter your details and then you will be transferred to the Imperial College SharePoint logon page. Enter your College Password and then:

• The Department H&S SharePoint site will open

  Use Explorer v10, Firefox or Chrome. It does not work in Linux or Explorer v11

Logging on to SharePoint – Initial 365 sign in
Logging into SharePoint – Imperial 365 site

Enter your College password. Then click the "sign in" button. 
The department Health and Safety site should open.

Department SharePoint Site

The menu on the left hand side of the page shows the site structure and the site functionality. Use this to navigate around the site.

Civil and Environmental Engineering Safety Site

Welcome to the Department Health and Safety site. On the left, you will find links to every theme and place in the world. To start using the site, please follow the guide below:

- New starters: Registration is a link to the day 1 induction, where your supervisor or designate will talk you through. When you know what work you're doing, you must then complete the departmental training online. The departmental Code of Practice must be read and followed by all.
- Risk Assessment: Click on 'Find a Risk Assessment Form' – click 'Civil and Environmental Engineering' in the menu. If you want to upload a site risk assessment and Submitting Operating Procedures (SOPs) to the site, you must complete the 'Risk Assessment and SOPs' form.
- Leading for Innovation: To "Innovation", you can apply your usual risk assessment, then your equipment details and health and safety service details.

"Safety Links" will get you to the main College safety support pages. e.g., mental health, the Safety Occupational Health and Safety Training.
Using the Site

- **1st step:** Complete a General Risk assessment:
  - This covers many activities, but occasionally you will need to use special forms for certain tasks (COSHH, Fieldwork, Biological work)
  - You need to identify all the risks and quantify them
  - Attach extra information including Engineering/experimental designs, SOPs etc.

- **2nd Step:** submit your form(s) for approval:
  - Approvers may include: Your Supervisor, the Laboratory Manager, A qualified 2nd engineering academic (for Structures), the HoD (for hazardous fieldwork) & the DSO.

- **3rd Step:** Forms are assessed and approved (or rejected) by your Supervisor & Lab Manager
SharePoint General Risk Assessment
How to complete the form (2)
Lone Working & Hazard identification

Lone Working is a significant issue of concern for the College. This section must be completed accurately & honestly.

Use these options to help identify hazards. Ticking a box opens a guidance section with links to a specific specialist risk assessment forms. The specialist forms (COSHH, Fieldwork etc.) must be completed too and attached to this form for submission and approval as part of this risk assessment process.

Complete all the sections. Any unanswered parts will prevent submission of the form.

Read the guidance & advice to understand what is needed here.

SharePoint General Risk Assessment
How to complete the form (3)
Risk assessment

Raw risk:
Probability is always 4
Severity is selectable (1-4)

Use the help box to understand what severity and probability mean and the difference between each numerical value (1-4)

Identify each hazard on a separate line (lines can be added using the "insert another hazard box")

Attach all supporting documents here. These can include: COSHH forms, Fieldwork Forms, method descriptions, Isot approval forms, experiment design notes and other supporting documents.

Residual risk: Probability should have reduced
Severity is unlikely to change

Do not leave an empty line in this table – it will prevent the form from being submitted.
SharePoint General Risk Assessment
How to complete the form (4).
Completion and Submission

Answer all these questions. Use the risk analysis outputs to ensure that you do not overlook any required measures.

Select a review period longer than the planned length of the project. If the assessment is for a 3 month MSC project, pick at least 6 months as the review period etc.

You do not need to complete the form in a "single sitting". You can save the form at any time and return to it later.

This box will remain unavailable until you have completed all the required sections/boxes.

Once you have completed the form and are happy with the content. You should submit it and await the assessors' opinion. Hopefully, they will approve it. If they do not, you should receive feedback on the rejection email stating what improvements are required. You will need to make the changes and resubmit the form. You CANNOT start work until the form has been approved.

The SharePoint site allows you to attach extra information linked to your General Risk Assessment:

- **COSHH Assessment (Dept specific form)**
  - Legally required for any work involving harmful substances, Acids, glues, gases, solder, flux, dyes, etc

- **BIO1 form**
  - College requirement for any work involving biological agents. Any Biological work MUST be discussed with the DSO before you do any preparation work

- **Fieldwork Risk Assessment (FW1)**

- Each of these forms are separate WORD documents available through SharePoint
5 Steps for undertaking a risk assessment

• Step 1: Identify the hazards
• Step 2: Decide who might be harmed and how
• Step 3: Evaluate the risks and decide on precautions
• Step 4: Record your findings and implement them
• Step 5: Review your assessment and update if necessary

Hazard & Risk Defined

• HAZARD: anything that may cause harm, such as chemicals, electricity, working from ladders, an open drawer etc;

• RISK: the chance, high or low, that somebody could be harmed by these and other hazards, together with an indication of how serious the harm could be.
Lone Working

- There must be at least one other person in a laboratory with you outside of normal hours.

- That person must know what to do in an emergency (A "BUDDY").
  - How to stop the experiment
  - Emergency procedures
  - Who to call

- The best way to avoid lone working concerns is to plan your work

Research Specific Training

- It is essential that you know how to perform your research competently and safely.

- You are forbidden to use any item of Laboratory equipment or undertake a procedure until you have been appropriately trained

- If you have any doubts or concerns about the equipment or methods, even after training, then you must ask for more instruction.

- Failure to do this may result in harm to you, your colleagues and/or the equipment.

- This may result in prosecution of the College, your Supervisor and you.
FINALLY…

- If in doubt about any safety issue, ALWAYS ask somebody:

  1. Your Supervisor
  2. Laboratory Staff
  3. Department Safety Officer

If you have any questions about using the SharePoint Site, need assistance to complete a risk assessment or have any other safety-related questions, please contact the department Safety Officer:

Dr Geoff Fowler
Room 413
g.fowler@ic.ac.uk
