Access to Computing Level 2 Laboratories

Depending on your year group and modules, your timetable may have scheduled laboratory sessions, in which case you do not need to do any pre-booking; you can go to any of the rooms indicated on your timetable and use any available space. Your laboratory coordinators will provide full details of how scheduled lab sessions will be organised as part of your induction.

Where a room has workstations, every other workstation is available for you to use, as indicated by the presence of a keyboard. If a workstation has no keyboard please do not sit in front of it, as we must make sure that the occupancy in all rooms is no more than 50%.

If there is no timetabled session in a laboratory you can book a seat up to one week in advance using OfficeSpace, which will come online during week 1 of term here: https://imperial.officespacesoftware.com/visual-directory/floors/27. Please respect the needs of your fellow students when making a booking. In particular, if you book a session you must turn up for it.

Please also refer to the document Behavioural Rules for users of space in the Department of Computing in 2021/22 at https://www.imperial.ac.uk/computing/current-students/current-student-panels/computing-rules-for-use-of-space-in-2122/, in particular regarding the wearing of masks.

If you experience any issues with the lab booking system or the usage of the labs please post the details on the EdStem forum of your year.
