

CHEMICAL ENGINEERING

Distinguished Seminar Series 2015

The Imperial Forum

THURSDAY 04 DECEMBER 2014 (17:30)

The Professor Roger W.H. Sargent Lecture

“Multi-Parametric Programming & Control 25 years Later: What is Next?”

Professor Stratos Pistikopoulos

Imperial College London

~ ~ ~

WEDNESDAY 18 MARCH 2015 (16:00)

The Professor Dame Julia Higgins Lecture

“The Design and Engineering of Bioactive Glasses for Dental and Medical Applications”

Professor Robert Hill

Queen Mary University of London

~ ~ ~

WEDNESDAY 25 MARCH 2015 (16:00)

The Professor Dame Julia Polak Lecture

“Disruptive Science and Engineering at the Interface between Biology, Chemistry and Material Science: Polymer-Based Protein Engineering”

Professor Alan Russell

Carnegie Mellon University

~ ~ ~

WEDNESDAY 13 MAY 2015 (16:00)

The Professor Felix Weinberg Lecture

“Turbulence, Quantum Chemistry and Combustion”

Professor Peter Lindstedt

Imperial College London

~ ~ ~

WEDNESDAY 10 JUNE 2015 (16:00)

“Carbon Capture from Flue Gas and Air Sources, Analysis, Design and Optimization”

Professor Matthew Realff

Georgia Institute of Technology

~ ~ ~

MONDAY 29 JUNE 2015 (09:30)

Professor Geoff Hewitt Lecture

PhD Research Symposium

“Shape Optimization of Fluid Flow Ducting Using a Shape Function, a Search Method and CFD: Some Early Results”

Professor Jayanti Sreenivas

IIT Madras

Department of Chemical Engineering
