

## CHEMICAL ENGINEERING

### Distinguished Seminar Series 2012 - 2013

### The Leader's Forum

*THURSDAY 6 DECEMBER 2012 (5:30 pm)*

**The Nineteenth Professor Roger W.H. Sargent Lecture**

**Optimization under Lack of Knowledge - the Key to Operational Excellence**

Professor Sebastian Engell, Technische Universität Dortmund

~ ~ ~

*WEDNESDAY 13 FEBRUARY 2013 (4:00 pm)*

**Molecular Design of Solid Catalysts**

Professor Avelino Corma, Polytechnic University of Valencia

~ ~ ~

*WEDNESDAY 27 MARCH 2013 (4:00 pm)*

**The Professor Dame Julia Higgins Lecture**

**Protein Analogous Micelles: Versatile, Modular Nanoparticles**

Professor Matthew Tirrell, University of Chicago

~ ~ ~

*WEDNESDAY 1 MAY 2013 (4:00 pm)*

**Molecular Modelling and Simulation of Confined Nano-Phases**

Professor Keith E. Gubbins, North Carolina State University

~ ~ ~

*WEDNESDAY 8 MAY 2013 (4:00 pm)*

**The Professor Dame Julia M. Polak Lecture**

**Biomaterials and Biotechnology: Angiogenesis Inhibitors, Drug Delivery Systems and Tissue Engineering**

Professor Robert Langer, MIT

~ ~ ~

*WEDNESDAY 15 MAY 2013 (4:00 pm)*

**Magnetic Resonance in Chemical Engineering: Recent Advances and Future Prospects**

Professor Lynn Gladden, University of Cambridge

~ ~ ~

*MONDAY 1 JULY 2013 (9.30am)*

**PhD Research Symposium**

**Two-phase Flow: the Search goes on!**

Professor Geoffrey F. Hewitt, Imperial College London

**Lecture Theatre 1, Department of Chemical Engineering**
