

CHEMICAL ENGINEERING

Distinguished Seminar Series 2013 - 2014

The International Forum

THURSDAY 5 DECEMBER 2013 (5:30 pm)

The Twentieth Professor Roger W.H. Sargent Lecture

Engineering the Artificial Pancreas

Professor Francis J. Doyle III, University of California, Santa Barbara

~ ~ ~

WEDNESDAY 12 FEBRUARY 2014 (4:00 pm)

On-line Monitoring of Polymerization Processes by Spectroscopic Techniques

Professor Reinaldo Giudici , University of São Paulo

~ ~ ~

WEDNESDAY 5 MARCH 2014 (4:00 pm)

**Systems Metabolic Engineering of Microorganisms: Enabling Technology Towards
Bio-based Chemical Industry**

Professor Sang Yup Lee, Korea Advanced Institute of Science and Technology

~ ~ ~

WEDNESDAY 12 MARCH 2014 (4:00 pm)

**Science & Engineering of Pores, Particles and Interfaces in Development of Green Chemical
and Biological Processes**

Professor G. D. Yadav, Institute of Chemical Technology, Mumbai

~ ~ ~

WEDNESDAY 7 MAY 2014 (4:00 pm)

Sustainable Energy and Resource Development in China

Professor Zheng Li, Tsinghua University

~ ~ ~

WEDNESDAY 14 MAY 2014 (4:00 pm)

Process Integration Tools for Hybrid Power Systems

Professor Zainuddin Abdul Manan , Universiti Teknologi Malaysia

Lecture Theatre 1, Department of Chemical Engineering
