Project Submission Instructions for MSc Students

Please submit your FINAL electronic MSc Project in a PDF format. Note: close to this deadline the electronic upload may become slow. You are strongly advised to have an early upload in place at least one hour before the deadline in case any last-minute submission goes wrong. It is your responsibility to submit everything on time.

You can re-submit a newer version of your project anytime up to the deadline; the **latest version present in the app at the deadline** will be accepted.

There is an MSc project template available on the web at: http://www.imperial.ac.uk/electrical-engineering/study/current-students-course-handbook/msc-individual-research-project/. Select 'Writing and submitting Initial Project report and Final Project report' and then choose 'MSc Project report template (latex)'. You will also find examples of highly- rated past projects under the 'Useful links and samples of past projects' tab.

Plagiarism

You are also reminded of the College's regulations on plagiarism. Plagiarism advice for MSc students can be found at: http://www.imperial.ac.uk/admin-services/library/learning-support/plagiarism-awareness/. Please also read the Department Plagiarism Committee Basic Principles in Assessed Coursework.

You will have had an in-person Turnitin session with the EEE librarian who will show you how Turnitin can be used to support you in avoiding plagiarism, how to generate a Similarity report and how to interpret a Similarity report. This session will **not** be recorded.

BLACKBOARD SUBMISSION FOR REPORT PLAGIARISM CHECKING

You can submit early versions (separated by 24 hours) of your project report to the MSc Cohort Blackboard module for Turnitin checking. You should already be enrolled in this module. Once you have uploaded your report PDF, you can then download a Turnitin Similarity Report. Please make sure that the version you upload to the Blackboard module by the deadline is the same final version you submit on the app, as this is the version we will use for plagiarism checking.

Once you submit your project report on Blackboard for Turnatin checking, you cannot resubmit another version for 24 hours, please bear this in mind near the deadline.
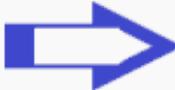

IMPORTANT: FINAL REPORT SUBMISSION

1. Your Final Project Report a must be submitted on time to the EEE app (as below).
2. Allow time for EEE app uploads near the deadline. Slow upload is not a valid mitigating circumstance for failure to meet the deadline, and many uploads at the same time will make the system slow.
3. You are strongly advised to upload a "safety" report copy more than two hours before the deadline.
4. Incorrect use of images in a PDF document can lead to very large PDF size. Any report larger than 30MB should be PDF compressed before upload. This can be done with a web compression utility, such as Adobe. Check how to do this well before the deadline.

FINAL REPORT SUBMISSION INSTRUCTIONS

1. Log in to the app: https://apps.ee.ic.ac.uk/mscproj/
   The app works well on Chrome/Firefox/Opera

Each student will see their own submission page such as:

2. To submit your Project:
   a. Click on *Submit Project* button
   b. *Student can update the project title before submitting the report. If there is no change click Continue without Change button*

   c. On the submit Project page: Choose a file to upload and click on Upload button

3. Once the Project is submitted a Download Project button will appear on the dashboard under the download column and you will receive a successful upload confirmation from the system.

The Education Office team would be very grateful if you could complete **Next Destination Survey** and tell us what you will be doing after you graduate. The survey aims to help us gain an insight into relevant career destinations and to evaluate the content of our MSc courses. It will only take a few minutes.
