“Connecting the most capable Electronics students at top UK universities with leading employers.”
Scholarship Scheme – What’s in for me?

- Through the UKESF companies offer scholarships that include:
  - Annual bursaries of £1,000 per year
  - Plus £200 Blackwell’s voucher in the first year
  - Paid summer work placements (minimum 8 weeks each year)
  - Industrial mentoring
  - Professional development training and network building at UKESF Scholar’s Workshop
  - Opportunities to build relationships with potential employers
  - Some companies offer opportunities for longer placements (up to 12 months)
Eligibility for Scholarships #1

- Registered at one of the 20 UKESF partner universities.
- Studying on an IET accredited (or on track to be accredited) BEng or MEng degree which contains a substantial amount of Electronics or Electronic Engineering.
- Have a permanent right to work in the UK:
  - UK National or EU Citizen
- In any year of degree course, except final year
- Not hold any other sponsorship/scholarship funded by a single commercial organisation.
Applying for Scholarships #1

- Check the UKESF website to see if you are eligible to apply

- To make your application stand out, read the Application Advice:

- **Select one company**. Make sure they offer the duration and placements you need, and that you fulfil any company specific requirements.

- Try to **make your application specific and relevant** to the company you are applying to.
You can apply to up to **4 companies** in total.

Complete and **submit your first application**, before you select any other companies.

Then, when you select another company, **most information will copy across from the first application**.

**Application Deadline Wed 24<sup>th</sup> Oct 2018**
