1. Introduction to the College

Imperial College London is the only university in the UK to focus exclusively on science, medicine, engineering and business. As a member of post-doctoral Research Staff you will be contributing to an expert community, whose research has a profound impact on society and the economy. From Fleming’s discovery of Penicillin and Gabor’s invention of holography, to Kibble’s contribution to the Higgs boson and Stevens’ work on rapid testing for AIDS and Malaria, Imperial’s research has been changing the world for well over 100 years.

Imperial has the greatest concentration of high impact research of any major UK university, according to the Research Excellence Framework (REF) 2014. Our research crosses international boundaries and we are particularly known for our support of research that spans different subject areas. We offer funding, infrastructure and cultural encouragement to bring researchers together across the disciplines to explore different approaches to solving a problem. The result is a dynamic culture of discovery to which you will be an important part of.

We are committed to ‘sharing the wonder’ of what we do through public engagement events. Research staff, alongside our academics and undergraduate students, make a significant contribution to these events, such as our annual Imperial Festival and our term-time Imperial Fringe events.
Postdoc and Fellows Development Centre (PFDC)

The PFDC offers bespoke development opportunities to maximise the potential of Imperial postdocs and fellows. We aim to launch you successfully into the next stage of your career.

For more information on the training and support that the PFDC can provide, please visit their website.

Welcome from your Postdoc Champion:

**Dr Catrin Mair Davies**

"Welcome to the Department of Mechanical Engineering! My role as Postdoc Champion is to represent the postdocs at department and faculty level and to ensure that the postdocs in the Department get the opportunities and access to the support required for their career development. The Department of Mechanical Engineering run a number of activities throughout the year for post docs. I hope to meet you and welcome your input."

Your Postdoc Reps

**Dr Francesco Restuccia**  **Dr Joe Wood**  **Dr Kiron Athwal**  **Dr Riccardo Secoli**

Thermofluids  Mechanics of Materials  Applied Mechanics  Medical Engineering

The post doc reps are a bridge between the Postdoc and Fellows Development Centre (PFDC) and postdocs. They act as a channel for information from and to the PFDC. The reps can influence the nature of what the PFDC offers by being involved in planning and decision-making processes. They are also key in passing on your feedback about the department.
Human Resources

The College’s Strategic aim is to build a supportive, inclusive and high motivated community across all disciplines, functions and activities, this community being based on diversity, mutual respect and a commitment to excellence.

We have four operational HR teams that provide front line recruitment, employment and employee relations services to College departments and support services areas. They support the Faculty of Medicine, the Faculty of Natural Sciences, the Faculty of Engineering, Support Services and the Business School.

Our HR teams work closely with faculty and departmental managers as a basis for ensuring effective service provision and relevant service development. This includes day-to-day employee relations issues, advice on informal performance and conduct management, sickness management, change management, work reorganisations, disciplinary and grievance issues.

Louise Lindsay
Director of Human Resources

Su Nandy
Senior Human Resources Manager for the Faculty of Engineering

Lauren Stevens
Human Resources Advisor

Laura Kenealy
Senior Human Resources Administrator
Research Support

Your first contact for Research information and assistance is the Department. The Departments Finance and Research office (577a) will be able to help, or redirect your query as required.

The Faculty Research Services team is responsible for the administration of research funding and contract management. They support Principal Investigators (PIs) with their applications for external research funding and offer support with administration of projects after research awards have been received.

Funding Opportunities

Non–commercial funders (e.g. charities, Research Councils, Government departments/agencies) provide grants for projects, programmes, fellowships etc. through either Responsive Mode Programmes (applications accepted at any time) or Direct Mode/Managed Programmes (targeted ‘calls for proposals’ in specific areas within set deadlines). Funding opportunities are made available on funder or associated member organisations’ websites.

Funding opportunities by commercial funders are more likely to be developed from established academic/commercial networks or may result from an institutional/commercial framework. Commercial agreements (contracts) are usually considered to be either academically or commercially led.

To supplement internal newsletters and bulletins, College has subscribed to Research Professional. This provides a searchable database of national and international opportunities, news from funding bodies, personalised email alerts and discussion forums. Accounts can be created by selecting the 'Register' option.

To find out more about the Funding Opportunities, visit the Research Support webpages.
Imperial College Essentials

From the 1st August 2017, every new starter in the college is required to complete the Imperial College Essentials induction program. This is to ensure that every individual in the college has received the core required training.

Essentials has been developed with three objectives in mind, to:

- Keep our People Safe
- Keep our Information Safe
- Contribute to a Positive Working Environment

Essentials provide the key information that all new staff need to know in the first six months of their employment with us and Essentials complement local induction.

This program is part of your probation process and the Department will be checking on your progress at your mid probation and final probation reviews.

More information on Imperial College Essentials, and links to the online training courses, can be found using the link below:

Welcome to Imperial College Essentials

In addition to the College Induction and Probation program, on your first day you will also meet the Department Resources Administrator who will go through your Day One Safety Induction and help you to collect your swipe card. You will also be invited to a HR induction meeting within the first 3 weeks of employment with the College.

If you have any queries, please do not hesitate to ask your Supervisor, Group Secretary or Department Resources Administrator who will be able to point you in the right direction.

Imperial Expectations

Imperial Expectations guide the behaviour of all our staff. The seven statements shape the working lives of all of us. They show how we respect and support each other in achieving personal goals and the College’s strategic objectives. They directly impact on what it feels like to work at Imperial and they are a public statement for attracting new staff.

CHAMPION A POSITIVE APPROACH TO CHANGE AND OPPORTUNITY
ENCOURAGE INCLUSIVE PARTICIPATION AND ELIMINATE DISCRIMINATION
COMMUNICATE REGULARLY AND EFFECTIVELY WITHIN, AND ACROSS, TEAMS
CONSIDER THE THOUGHTS AND EXPECTATIONS OF OTHERS
DELIVER POSITIVE OUTCOMES
DEVELOP AND GROW SKILLS AND EXPERTISE
WORK IN A PLANNED AND MANAGED WAY
“Congratulations and welcome to the Department of Mechanical Engineering. We offer a world class research environment encouraging close collaboration with industry. The training you will receive will allow you to approach the latest challenges in engineering and enhance your professional identity. I wish you well in your research and encourage you to take every opportunity to network with colleagues across the Faculty of Engineering; and to develop engagement skills with peers in your field and the wider public.”

Professor Peter Cawley
Head of Department for Mechanical Engineering
Faculty of Engineering

The Faculty of Engineering is one of three faculties within Imperial College London and is led by the Dean, Professor Nigel Brandon.

The Faculty seeks to provide international leadership in engineering research and education and is widely recognised as a world leading engineering school. Our departments consistently excel in prominent league table rankings, while the College as a whole enjoys similar success.

Our Faculty is unique in the UK in supporting world class education and fundamental research across the full range of engineering disciplines.

All ten of our academic departments are located on a single campus in South Kensington, giving a concentration of talent that creates a stimulating and vibrant research culture, which promotes multidisciplinary collaborations and attracts internationally leading researchers and scholars.

- Department of Aeronautics
- Department of Bioengineering
- Department of Chemical Engineering
- Department of Civil and Environmental Engineering
- Department of Computing
- Dyson School of Design Engineering
- Department of Earth Science and Engineering
- Department of Electrical and Electronic Engineering
- Department of Materials
- Department of Mechanical Engineering

Our academic departments deliver world class education in engineering so that our graduates possess the skills, knowledge and attitudes necessary to become international leaders in engineering industry and academia.

We provide our students with an outstanding engineering education that brings together cutting edge researchers, exceptional teachers and state-of-the-art facilities in inspiring physical and virtual environments. Students at Imperial will meet, work and live with people studying every aspect of engineering.

The Faculty is home to 1,575 staff (395 academics, over 800 researchers and 365 support staff) and 5,785 students (of whom over 1,200 are research students). The Faculty is a powerhouse in research across the engineering sciences, with research funding in excess of £100m per year.
Mechanical Engineering

Although the Department of Mechanical Engineering is now based in the City & Guilds Building at Imperial College London, built in the 1960s, the origins of this prestigious Department dates back to 1884 when the City & Guilds College was formed by Professor W. C. Unwin. He became the first professor of Engineering at the University of London. The City & Guilds College was then merged with the Royal School of Mines and the Royal College of Science in 1907 to create Imperial College London. In 1957, construction began on what is now the Mechanical Engineering building, which when completed was located just behind the original Victorian construction.

Over the following 60 years the Department has continued to expand and has become the parent to multiple infant Departments since 1971. The Departments of Bioengineering, Aeronautics and Design Engineering as well as the Imperial College Business School, have all spawned from the original Mechanical Engineering. The Department today has undergone a recent major refurbishment and houses over 100 Research Staff, 70 Academic staff, 30 Professional, Technical and Teaching staff as well as over 500 high achieving undergraduate and postgraduate students. The structure of the Department is split into three major divisions; Mechanics of Materials; Applied Mechanics and Thermofluids.

The Mechanics of Materials Research Division

The (now demolished) City and Guilds building, Exhibition Road.

The Exhibition Road entrance to the College, including part of the modern City and Guilds building and Business School entrance.
Research Divisions and Groups

Mechanical Engineering is a highly rated department performing multi-disciplinary research. It is organised into three broad Research Sections. All PhD students and academic staff belong to one of these sections. Research Groups operate across Research Sections in a matrix of scientific interaction.

The **Applied Mechanics Division** is concerned with a wide range of topics and academic disciplines and is made up of the following research groups:

The **Dynamics group** focuses on the aeroelasticity and structural dynamics phenomena in turbomachinery. Much of the research is undertaken through the Rolls-Royce Vibration University Technology Centre. Recent highlight successes include extensive application of the VUTC-developed forced response calculation methodology (the AU3D code) to the design of the Joint Strike Fighter LiftFan.

The **Medical Engineering group** is concerned with Biomechanics, Mechatronics in medicine and Magnetic Resonance Imaging (MRI). Research in this group ranges from the study of human joints and the musculo-skeletal system in order to develop better orthopaedic surgical procedures to developing a number of robotic and mechatronic systems to aid in medical and surgical tasks and looking at disciplines including magnetic design, MRI systems, control, signal processing, engineering analysis and design, shape modelling.

The **Non-destructive Evaluation group** solves real problems in industrial inspection and monitoring, achieved by conducting thorough scientific research. Covering the whole range of activity from fundamental scientific studies through to the transfer of technology to industry, we have an outstanding international reputation throughout this spectrum of activities.

The **Nuclear Energy group** are engaged in a range of research into nuclear engineering, with major efforts on nuclear thermal hydraulics, and nuclear reactor physics. In addition to this, we host the Rolls-Royce Nuclear University Technology Centre.

The **Tribology group** carries out research in lubrication and damage of contacting mechanical and biological components, lubricant additives, durability of machine elements, and special new topics such as the lubrication of MEMs. Applications include helicopters, motor vehicles, micro-machines, marine propulsion, industrial machinery, personal care products and scientific instruments.

The **Mechanics of Materials Division** focuses on understanding and predicting the deformation and failure behaviour of a range of materials from metals, ceramics, polymers and composites to adhesives and soft solids. Most of our research is done in collaboration with key industry sectors such as power generation, automotive, aerospace, defence and food technology.

The **Thermofluids Division** combines experimental and computational modelling studies at a fundamental level. Focusing on Combustion, Heat and Mass Transfer and Fluid Flow, the division has well equipped laboratories hosting a wide range of laser sources and detectors, as well as extensive facilities for computational flow modelling methods (CFD).
**Mentoring in Mechanical Engineering**

Mentoring is available for all Research staff in the Department and is a great way for a senior member of staff to share knowledge, skills and experience in order to assist the progress of others. Mentoring is intended to be more than “giving advice” and aims to identify issues and goals by understanding and respecting different ways of working. This is not a formal process, simply a way of providing independent support. It is also voluntary and operates in addition to the supervision as part of your research project. Support comes from the following individuals, as well as their deputies:

- Prof. Ferdinando Rodriguez y Baena – Postgraduate tutor
- Dr Catrin Davies – Postdoctoral Champion
- Dr Julie Varley – Advisor to Women Students

Research Assistants can also approach their Head of Research Division: Prof. Jianguo Lin (Mechanics of Materials), Prof. Ricardo Martinez-Botas (Thermofluids) and Prof. Mike Lowe (Applied Mechanics) as mentors. If the Head of your Research Division is your direct supervisor, you may contact Prof Peter Lindstedt.

Research Associates and Fellows should contact one of the above individuals that is **not** their Head of Research Division in order to provide a wider view.

**Professional, Technical and Operational Teams**

The department is underpinned by a Professional, Technical and Operational Structure which works in collaboration with academics, research staff and students to deliver the Department’s research and educational activities.

**Undergraduate Education Office** which is responsible for the administration and implementation of the department’s undergraduate education activities in line with the College’s Education and Student Strategy, as well as being responsible for term time room bookings.

**Postgraduate Education Office** which is responsible for implementing, administering and supporting the department’s postgraduate teaching and research education activities, undertaken in line with the College’s Education and Student Strategy.

**Group Administration** which is responsible for the day-to-day management of the Research Sections and Groups, including travel bookings, purchase orders and desk allocations specific to each group’s needs.

**Central Administration** which is responsible for the managing the Department’s research activities including pre- and post-award administration, HR related issues and finance, as well as contributing to the Department’s strategic management of its finances and research funding.
Equality and Diversity

Imperial College London is committed to promoting and embedding equality and diversity throughout the College. Equality and diversity forms an integral part of Imperial Expectations, the set of seven statements which articulate how the College expects its leaders, managers and supervisors to behave. The College’s Equality Objectives provide an overarching plan over a two year period, and are published in accordance with Imperial’s Public Sector Duty.

The College is committed to Equality and Diversity. We are a Athena SWAN Silver Award Winner, a Stonewall Diversity Champion, a Disability Confident Employer and are working in partnership with GIRES to promote respect for Trans people.

What we do in the Department

The Department of Mechanical Engineering welcomes staff and students from all over the world with a diverse range of beliefs and cultures. We believe this diverse cultural background complements the diverse technical background and expertise of our staff. Racist, sexist or any other discriminatory behaviour is not tolerated.

We aspire to create an environment where all individuals within the Department can achieve their potential and develop their career, removing barriers, eliminating discrimination and providing opportunities to thrive.

The Department of Mechanical Engineering aspires to be an Athena SWAN Departmental Award holder and we will be submitting our Athena SWAN Bronze application in April 2018.

We believe creating an equal, diverse and inclusive culture is everyone’s responsibility. We look to you, our Research staff, to join us in our aspirations, provide feedback on our action plans, events and help shape the department into the best place to develop your career.

If you would like more information on how to become involved in shaping the future of the department, please contact Catrin Davies or Helen Stoneham.
# Key Administrative Staff

The Department of Mechanical Engineering has a centralised Professional services team who will be able to help you with your day-to-day queries.

Department Communications

If you have news, the Department would like to hear about it!

Share news about your latest projects, events, awards, celebrations, grants, publications, etc with audiences of your choice:

The Department/Faculty/College:

- The Departmental News Website
- The College News pages

The outside world:

- The Department & College website
- Social Media (Twitter, YouTube & Flickr)

We can also provide support in developing and editing webpages, with text & design for posters, leaflets, brochures, presentations & any other communications materials.

The Department also has facilities to help you with shooting photos and videos to showcase your events and research.

For more information, please contact Nadia Barbu, Monday-Wednesday in Room 577E, n.barbu@imperial.ac.uk.
3. Getting Settled

Settling yourself into life in the UK and London and establishing all the practical arrangements can distract you from getting on with your research in the first few months. So don't have big expectations for how much you will achieve in your research in the first few weeks.

It will take time to arrange accommodation and there are many things you need to arrange, apply for or set up. This can be overwhelming but there are many sources of support and advice. The PFDC webpages have some advice to help you get settled.

Accommodation

“Living in London is expensive, it will help if you have properly worked out your net income, planned your finances, know the cost of living and have your budget worked out. You will have to realise that things will take time to arrange – particularly finances and housing, it can distract you from getting on with your work so prepare for it to take 2-3 months before things are arranged! ... I recommend that you use the Imperial accommodation service department (once you have a user name). It is also important to get your National Insurance number and bank account as soon as possible. You will need the NI number as proof of address” Dr Matteo O. Ciantia, JRF, Civil and Environmental Engineering

As one of the world’s leading research centres for Mechanical Engineering, we are comprised of a diverse international cohort of staff and students. Many of our staff have moved here from overseas; coupling the stress of changing jobs with the need to move house, city, or even country can be stressful and we are here to reassure you that living in London is not all bad.

Whether you are looking to rent a room, a flat/house or purchase property, there are plenty of websites and companies that you can use. If you are unfamiliar with some of the local websites, feel free to begin your search with the below:

- College Accommodation site – The College does not have housing for staff members however the website does provide guidance on letting agreements and expectations, along with suggestions for private landlords.
- Staff notice board – this often has details of rooms for rent, as well as items for sale, from people already working in the College
- https://www.spareroom.co.uk/ - For house sharing/lodging
- http://www.rightmove.co.uk/ & https://www.zoopla.co.uk/ - For Rent of Sale properties
Below is a map of where the current Research staff in Mechanical Engineering live within the London orbital motorway (M25); the location of Imperial is shown in yellow. Some staff also live outside of the London postcode areas, predominantly in Croydon (CR) and Kingston (KT) areas.

Renting in London can be expensive compared to other places in the UK (and Europe), and each part of the city is unique. Please use the below links to get a rough idea of market rates, along with information about the different areas, boroughs and postcodes in London:

- Major of London’s analysis of property prices in London
- London house prices by postcode
- UK rental prices by town
- Information on living in London boroughs
- The best places to live in London

Bank accounts

In order to open a UK bank account, you will need proof of address. Once you have opened an account you will be able to change this address at any time. If you are from overseas, the bank may also ask you for proof of employment. Often you will be able to use a copy of your contract, however if this is not sufficient please speak to either your Group Secretary or the Department Resource Administrator who will be able to provide you with a letter confirming your employment.
Registering for a Doctor & Dentist

We recommend that once you get settled, you register with a GP surgery and a Dental practice. The National Health Service (NHS) is the public health service in England, Scotland and Wales and part of your NI contributions each month contribute to your use of this service.

Health Centres/Doctors surgeries

Most GP surgeries will allow you to register as long as you either live or work nearby. The Imperial College Health Centre provides 24 hour care for its NHS registered patients in conjunction with the local after hours GP service.

Dentist (based in the Health Centre)

Not all Dental surgeries are part of the NHS. It is worth checking this if you choose to register with an independent dentist. The Imperial dental clinic welcomes all new patients. New patients and current patients are required to sign up annually to be entitled to NHS dental treatment.

Finding your way around

Imperial College London has multiple large campuses. You will be predominantly based on the South Kensington Campus. Check the South Kensington Campus Map for directions around the site.
4. Facilities in Mech Eng

College Access

On starting at the College you will be supplied with your College swipe card. You are required to carry this card at all times as it is essential for:

- Identification
- Access to the library & Departmental spaces
- Out of hours access (18:00–24:00, plus weekends)
- Discounts at all College outlets, e.g. Union shop & Catering

If you lose your card, you are entitled to one free replacement, after which you will be charged. For all security card enquiries please go to the main security window, level 1, Sherfield Building which is open on weekdays at 8.30-10.30am, 12.00-2.00pm and 3.45-4.45pm.

Your swipe card will provide you access to the building between 7am and 11pm. Outside of these hours you will be locked in/out unless you have been granted out of hours access.

Once you have collected your swipe card, you will be able to activate your online account. Please follow the instructions on the Activate a College account webpage. If you have problems activating your College username please contact the ICT Help Desk (service.desk@imperial.ac.uk) ext. 49000; in West Wing, Level 4, Sherfield Building, South Kensington campus or your local campus service desk.

Please contact Mech Eng Info for Departmental access enquiries.

Desk Allocation & Keys

You will be provided with a desk and sufficient workspace upon arrival. For details of your desk allocation please contact your Group Secretary. Please do not move to desks that are temporarily vacant, or use these desk spaces as storage for your books and other materials. Items incorrectly placed on vacant desks, left in corridors, gangways etc may be disposed of without warning.

Computing Facilities

Your supervisor should ensure that you have access to a computer, or should purchase you a new PC. The College currently has an account with Hewlett Packard, and it is recommended that you use this supplier.

If you need to purchase a computer please visit the following web address:
http://www.imperial.ac.uk/ict/services/softwarehardware/purchaseandrenewal/deptpurchases

If you purchase a computer through an alternative supplier, you will have to receive authorisation from the Department’s finance section before a purchase order can be raised. For installation or computer problems/queries please contact ICT Help Desk (service.desk@imperial.ac.uk) ext. 49000. A range of competitively priced software, eg, Endnote, Secure Shell, drawing packages, etc., can be bought from the ICT shop.

Information regarding ICT (Information & Communication Technologies) can be found at:
http://www3.imperial.ac.uk/ict
Software

Imperial College London participates in several schemes that allow you as a member of the College to purchase quality software for academic use at discounted prices. Academic use is defined in different ways by different suppliers and under different discount schemes.

We strongly advise that you check that your proposed use of the licence is lawful under the terms of the discount agreement.

Please visit the College’s software information pages for more information.

Imperial File Exchange

The Imperial file exchange allows you to send large files that you are unable to send via email.

Personal Web Pages (PWP)

Each member of Research staff has a PWP. Your supervisor will likely ask you to update this soon after you arrive at the college. Remember to keep this up-to-date as your career progresses. Information on how to update your PWP can be found at http://wwwf.imperial.ac.uk/blog/webguide/category/pwp/.

Door codes and Room bookings

The majority of the Department’s rooms require swipe card access.

Please ensure that if you are using a room for a scheduled event that you have booked it via the Undergraduate team (during term time) or your Group Secretary (outside of term time) in advance of the event.

Internal and External Mail

Post can be collected from mailboxes located from the mailboxes in the corridor on the 5th floor of the City and Guilds building. For all postal or faxing enquiries please contact your group secretary. For the purpose of receiving mail, the preferred address is as follows:

Your name
Research Associate/Assistant
Department of Mechanical Engineering
Imperial College London
London SW7 2AZ

Photocopying/Printing

Printers and photocopiers are supplied free of charge in the Open Plan Areas. Your ID card will contain printer credit shortly after you receive it. You are given £50.00 each month, which should be adequate for your needs. However, please note that we do check for excessive use, and environmental issues should be considered.

Please speak to your Group Secretary about requesting printing credits.

Link up your ID to the College printers: https://www.imperial.ac.uk/ict/printservice/.
5. Etiquette in Open Plan Areas

We request that you respect the privacy and space of those around you when working in the open plan areas.

Noise

• **Try to be quiet.** Individuals have different working practices, but for most people a quiet environment is most conducive to work.

• **Hold meetings in meeting rooms.** Please do not hold meetings in open plan areas where your colleagues are trying to work.

• **Hold social events in social spaces.** Please do not have group or social discussions in the open plan areas; these spaces are for work.

Space

• **Keep to your allocated workspace.** Please do not encroach on, or clutter, the desks of your colleagues.

• **Refrain from unauthorised desk migration.** Please do not move to desks that are temporarily vacant, or commandeer these desk spaces as storage for your books and other materials. Desk spaces that appear empty are likely to have been allocated to future new starters. If you have a strong reason to change desks, please contact your supervisor or group administrator, who will try to find a suitable alternative.

Phones

• **Keep phone calls brief and work-related.** Your peers will appreciate it if you do not hold lengthy conversations in the open plan area.

• **Set your mobile to vibrate or silent.** Please do not allow your mobile phone to annoy others.

Kitchens

It is the responsibility of the users of the communal kitchens to keep the area clean.

• **Keep the microwave oven, refrigerator and sinks clean.** Please do not leave food or drink in the refrigerator past the date at which it starts to turn bad.

• **Keep the area tidy and return departmental crockery and cutlery**

Security

• **Secure your valuable items.** Do not leave any valuables on your desk; they are safer in a locked drawer or carried with you when you leave. Your belongings are left at your own risk.
6. Departmental Procedures – General

Salary Payments

All contracted members of staff will receive their salary on the 24th of each month, or the closest previous working day. Payslips can be found through the My Payslips system in ICIS where a breakdown of the salary payment and deductions can be found. There is also a mobile application to be able to see your payslips, please visit the Imperial Mobile Application site for more information.

New staff will automatically be entered into the payroll system once the following documentation has been received:

- Signed contract
- Employee details form

Any changes to an individual’s details can be made using the Change to Personal Details or Back details form.

Notify the Department Resources Administrator, Helen Stoneham, of any issues regarding your HR file or payroll details as soon as you notice the problem so that we can work to minimise any problems.
Expense Policy Summary

Expense claims will be processed by the Department within 2 weeks of submission.

**Principles**

Imperial College is a charity and a large recipient of public funds. You are expected to be prudent in your expenditure and use College approved purchasing such as preferred and approved suppliers through Purchase Orders (PO) – you should not purchase directly without pre-approval from the Head of Department (HoD) and Faculty Finance Officer (FFO), unless specified in the Policy.

### Pre-Approval

<table>
<thead>
<tr>
<th>Expenditure</th>
<th>Pre-Approval required from</th>
</tr>
</thead>
<tbody>
<tr>
<td>First Class Travel and Conference Hotels exceeding rates below.</td>
<td>HoD</td>
</tr>
<tr>
<td>Business Class Travel and any Equipment over £100 not purchased via a PO/Department Credit Card</td>
<td>DOM</td>
</tr>
</tbody>
</table>

### Timeframe

You should submit claims as soon as possible after incurring. You are expected to submit claims within three months. Expenses submitted more than six months after incurring will be rejected unless there are exceptional circumstances explicitly approved by your FFO.

### Receiving

A receipt may take many forms but it must identify the following and be clearly legible:
- The date of purchase
- The vendor name
- VAT number (where applicable)
- VAT amount paid
- Itemised list and unit price of the purchased items
- Total amount paid

### Hotels & Subsistence Meals

If you find a fare/hotel at a lower cost Egencia will always match that price as part of their price guarantee. Contact Purchasing if you have any questions in relation to Egencia bookings.

- **If claiming a 24-Hour Meal Rate, no individual meal should exceed 60% of the allowable rate.**
- **The 24-Hour Meal Rate is NOT a per diem and all meals must be receipted.**
- **If exceptional circumstances mean you cannot obtain a receipt, such as the purchase of food from Markets or local Street Food, the meal claim is limited to £5 for Breakfast, £5 Lunch and £10 for dinner. This is not in lieu of retaining receipts, or lost receipts.**
- **Approvers must check all 24-Hour Meal Rate claims against rates below as MyExpenses will not show Subsistence violations for these.**
- Conference Hotel bookings exceeding amounts below require HoD pre-approval

**Entertainment**

- **Business Entertainment (with external attendees):** £54 per head including alcohol and service ($29.00 per head including alcohol and service (max. £37.00 for a Christmas meal held during December))
- **HoD post-approval if over limit**
- **Staff Student Entertainment:** £29.00 per head including alcohol and service (max. £37.00 for a Christmas meal held during December)
- **DOM post-approval if £5+ over limit/person**
Foreign Currency Fees
You can claim overseas transaction fees and currency conversion charges/commission (Not foreign currency purchases). You will need to include a copy of your statement to back up these charges.

Duty of Care
Imperial College has a Duty of Care to all staff and students at all times, including when abroad. A critical component of this is the traveller tracking of staff which includes emergency contact assistance and travel security alerts. Booking through Egencia offers this, along with other added benefits to the traveller and to the College. You must also register your overseas trip for insurance purposes on http://www.imperial.ac.uk/finance/financial-services/insurance/.

| Rail/Tube                      |
|-----------------------------|-------------------------------------------------------------------------|
| UK under £100               | Book via Red Spotted Hanky or alternatively book through the train operating company and make an expense claim |
| UK £100+                    | Book the ticket well in advance and you must use RedSpottedHanky         |
| Overseas                    | Tickets costing over £100 must be booked via Egencia                    |
| Oyster/Contactless Touch    | Only for incremental travel (i.e. the extra costs incurred if travelling beyond the zones covered by any Travel card). |
|                            | If using Pay As You Go, you should provide a Journey History from the TfL website (only available for 8 weeks from journey date) or a bank/credit card statement if using Contactless Payment required, unless you have a claim that is below £6 in value and evidence of that journey is not readily available. |
|                            | Normal travel to work will not be reimbursed                            |

| Car Hire                      |
|------------------------------|-------------------------------------------------------------------------|
| £75/£35 per day              | Book the minimum size and specification necessary. High cost locations (e.g. Scandinavia) at higher £75 rate but typical rate should not exceed £35. Book through Avis, Budget, Enterprise or Egencia. For overseas car hire you should use the hire company’s insurance and the fullest policy available |

| Car                           | 45p/mile - Must be business travel, not normal travel to work. After 10,000 miles per year becomes 25p/mile. Additional 5p per mile for every additional passenger. |

| Motorbike                     | 24p/mile - Must be business travel, not normal travel to work. |

| Bicycle                        | 20p/mile - Must be business travel, not normal travel to work |

| Taxis                          |
|------------------------------|----------------------------------------------------------------|
| At managers discretion if working after 9pm. |
| Not to be used as a means of getting to/from work at weekends, unless after 9pm |
| If carrying heavy equipment/suitcases. |
| If travelling in a group and cheaper than public transport. |
| Never use unlicensed minicabs – ask your hotel for recommendations if possible |

| Fire Safety Coordinator | Julia Easton: j.easton@imperial.ac.uk |

Upon arrival to the Department you will complete a Day One Safety Induction. This will then be supplemented by the Essentials training that you will complete as part of your probation.

Please contact Serena Dalrymple (s.dalrymple@imperial.ac.uk) to enquire into completing a First aid course.

For further information regarding departmental health & safety please see web address below:
http://www.imperial.ac.uk/earth-science/about/health-and-safety/

The College Safety Department

The Safety Department offers a range of specialist advice on all aspects of safety. This includes anything which you feel might affect you directly, or which may be associated with teaching, research or support service activities.

All accidents and incidents should be reported online at: http://www.imperial.ac.uk/safety

Health clearance for travel

Clearance is compulsory for any travel to a tropical country. Information on arrangements for health clearance can be found at: www.imperial.ac.uk/occupational-health

If any vaccinations are required for the destination country then an appointment with the OH Service should be sought at least four weeks in advance of travel. Students will need to provide evidence that their trip is directly related to their study or research activity.

Clearance will be notified to the supervisor named on the health clearance questionnaire.
UKVI requirements & Certificates of Sponsorship

The UK Government requires that all employers with staff from outside of the EEA must monitor employee whereabouts with respect to their work. This means that individuals who are in the UK on a Visa must notify the College if they are unable to attend work due to leave, or are attending business outside of their normal work location (including working from home). This is completed using the Teamseer system, which you use to record your absences and leave. Access to this system will be automatically granted to you. All leave will then need to be raised and subsequently approved by your supervisor.

For individuals that already have a Tier 4 (student) visa prior to obtaining their PhD, they may work for a maximum of 20 hours per week until either:

- They are successful in applying for a Tier 2 visa
- They are awarded their PhD

Once the individual receives one of these documents, they should bring the confirmation letter, or visa to the Department Resource Administrator to verify. HR will then confirm that they can work full time. Please do not begin to work full time until you receive this letter.

If the individuals PhD is awarded before the Tier 2 visa, the individual must receive their Tier 2 visa within 3 months of the PhD being awarded in order to satisfy UKVI requirements.

More information on Visas and UKVI requirements can be found on the GOV.uk Visas and Immigration webpage.

Support for EU Staff following the 2016 UK/EU Referendum

We know that the EU Referendum decision has caused many of our staff great uncertainty as we employ many diverse nationalities in our community. The College has set up a legal and financial support package for European Economic Area (EEA) staff and their dependants to help staff understand their options.

Staff can contact directorofhr@imperial.ac.uk if there is any further information that would be helpful and we will attempt to respond to queries as soon as possible. We are committed to making this time of transition as painless as possible for our staff.
Timesheets

Timesheets must be completed by individuals whose funding requires that their time management on the project be reported.*

*If this applies to you, it is a condition of your contract and failure to complete timesheets in a timely manner may result in disciplinary action.

Timesheets may be required for the below reasons:

- The grant is funded by the Commission of the European Union. This can include Marie-Curie Fellows, Marie Skłodowska-Curie Fellows and staff charged to a FP7 or H2020 funded project.
- The individual is funded across multiple grants, where at least one of the grants is funded from a Research Council (i.e. the funding from the research council does not account for 100% of that individuals time)
- Any other stipulation from a grant funder

The completion of timesheets is the responsibility of the individual and is often a requirement of the funding. If timesheets are not completed in a correct and timely manner when required, this can lead to disciplinary action being taken against the individual. Completion of required timesheets is also a requirement of the probationary period.

Imperial College currently operates two types of timesheets. Their use is dependent on funder requirements:

1. Comprehensive timesheet – a paper version timesheet completed using Microsoft Excel. This is available for all categories of staff working on projects where the funder requires comprehensive time records for a person’s entire time, including absences.
2. *New* Project level timesheet – a paper version timesheet completed using Microsoft Excel. This is available for all categories of staff working on projects where the funder requires timesheets at award/project level.

If you are required to complete timesheets at any point during your contract, you will be contacted by a Timesheet Champion or Group Secretary. For more information or assistance on the completion of timesheets please contact your Group Secretary.
7. Paperwork & Procedures

Probation

Every member of staff at Imperial College must be subject to a probationary period of 6 months. During this time, new staff can assess and be assessed on productivity and capabilities. It is also a time for new staff to raise any concerns that they may have.

At approximately 3 months into their contract, staff should complete the Mid-Probation review with their Line Manager. This review allows for progress to be documented and reminders to complete any compulsory training or timesheets to be given. The End of Probation review then occurs at the 6 month mark of the contract. In both cases, the Probation review form should be completed and forwarded to the Department Resource Administrator.

If there are no concerns, and the Imperial College Essentials training has been completed, the Department will approve the probationary period and the member of staff will receive confirmation of their probation from HR.

Fixed Term Contracts

Most Research Staff come to the Department on a Fixed Term Contract. This is usually due to the appointment being to develop research on a time-limited externally funded project for with there is no expectation that the work will continue beyond the availability of that external funding. Further information can be obtained from the Fixed Term Workers guidance.

4 Years of Service

After 4 years of continuous service, a member of staff’s contract changes from Fixed term to being Open Ended. In most cases relating to Research Staff this means that the contract is externally funded and there is a reasonable prospect that external funding will continue from whatever source for the foreseeable future and that the work is central to the future plans of the department and therefore such that the department will wish to continue support it for at least as long as external funding is available.

Annual Leave

The College provides generous annual leave benefits. You are entitled to paid annual leave and are encouraged to take it to ensure a good work-life balance.

The College leave year runs from 1st February to 31st January. Leave must normally be taken within the leave year. With the agreement of the Head of Department/Division, staff may be permitted to carry up to 5 days’ leave (pro rata for part-time staff) forward into the next leave year. This rule also applies when staff have been absent during the leave year. No payment will be made in lieu of leave not taken except, possibly, when staff leave College employment.

For more information on Annual Leave entitlements please visit the College’s Annual Leave Webpage.
Sickness Leave

The Sickness Absence Policy and Procedure exists to provide a fair and consistent approach to the management of sickness absence in the work place. It applies to all members of staff regardless of contract type. A member of staff on a probationary period or training and development review period will have a contractual entitlement to sick pay and leave which reflects their length of service with the College.

Short term

If you find yourself unwell you should telephone your line manager as early as possible on your first day of absence, making every effort to do so within the first hour of your normal start time. You should inform them of your reason for absence and likely return date, and advise them of any urgent work or other colleagues who should be notified. If you are unable to contact them directly you may leave a voicemail message for them, along with a contact number and time when you will be available, so that your manager can contact you if necessary. A Friend or Relative may only telephone your manager to inform them of your absence in exceptional circumstances, such as hospitalisation.

More information regarding the Colleges sickness leave policies can be found on the HR pages for Sickness absence.

Following any short term sickness leave, your line manager should complete the Return to work meeting with you to ensure that you are fit to return to work. This is confirmed using the Sickness Notification Form. If your sickness absence was for a period of 1 – 7 days (including Saturdays, Sundays, and/or other non-working days, Public Holidays, College Closure), you will not need to provide a medical certificate.

Long term

The College operates a sick pay and leave provision above the statutory entitlements. Within any rolling 12 months sick pay allowances vary according to the length of your continuous service, based on the anniversary of your appointment, as follows:

<table>
<thead>
<tr>
<th>Length of service</th>
<th>Full pay</th>
<th>Half pay</th>
</tr>
</thead>
<tbody>
<tr>
<td>First year</td>
<td>1 month</td>
<td>1 month</td>
</tr>
<tr>
<td>Second and third years</td>
<td>3 months</td>
<td>3 months</td>
</tr>
<tr>
<td>Fourth year and after</td>
<td>6 months</td>
<td>6 months</td>
</tr>
</tbody>
</table>

Sickness during annual leave
If a member of staff is on annual leave when they fall ill and wish to reclaim the annual leave for the sickness period, they must report in sick on the first day of illness and if in the UK provide a medical fit note, signed by a GP. Further information can be found in the Sickness Absence Policy.

Returning to Work

The process of returning to work from long term sickness leave is below. It is also possible to arrange a phased return to work. The Sickness Absence Webpage has more details on this.

Special leave

The Special Leave Policy applies to requests for leave from work for the following reasons:

- Compassionate Leave
- Leave for Domestic Emergencies
- Family Emergencies
- Parental Leave
- Special Leave for Public Duties
- Jury Service
- Leave for Witness Duty
- Leave for Service in the Volunteer Reserve Forces
- Study Leave
- Leave of Absence (including Sabbatical leave requests for Academic or Personal refreshment)
- Unpaid Leave

Maternity Leave & Paternity/Maternity Support Leave

Maternity Leave

The Maternity Policy outlines the entitlement and eligibility of College employees to statutory and College maternity rights and benefits. The policy sets out the procedure for applying for maternity leave, keeping in touch during the leave period and returning to work thereafter.

Please see the full Maternity Leave Policy for more information.

Paternity/Maternity Support Leave

The Paternity/Maternity Support Policy outlines the entitlement and eligibility of College employees to Paternity/Maternity Support Leave. Eligible staff can choose to take one period of leave as either one week or two consecutive weeks, in accordance with the regulations stated within the policy.

Please see the full Paternity/Maternity Support Leave Policy for more information.
Shared Parental Leave

Shared Parental Leave provides eligible parents with the opportunity to choose to share between them the care of their child during the first year following the child’s birth or adoption. Its purpose is to give parents greater flexibility in considering how to best care for, and bond with, their child.

Please see the full Shared Parental Leave Policy for more information.

Adoption and Surrogacy

The Adoption/Surrogacy policy outlines the entitlement and eligibility of College employees to statutory and College adoption/surrogacy leave and pay. The policy sets out the procedure for applying for adoption/surrogacy leave, keeping in touch during the leave period and returning to work thereafter.

Adoption and Surrogacy Policy

Adoption Pay and Leave Request form
8. Academic Matters & Regulations

Academic Integrity

As a member of staff at the College you are expected to conduct all aspects of your academic life in a professional manner. A full explanation of academic integrity, including information on the College’s approach to plagiarism is available here under the Cheating Offences Policy and Procedure.

Guidelines for Proper Scientific Conduct in Research

Information about Proper Scientific Conduct can be found on the Central Secretariat, College Governance webpages.

Copyright

Copyright guidance is available from the Library: http://www.imperial.ac.uk/admin-services/library/learning-support/copyright-guidance/

Ethics

The Imperial College Research Ethics Committee (ICREC) website gives information about ethical approval for certain types of proposed research, and explains the avenues by which this approval can be obtained.

Good Research Conduct

The College expects that all research will be conducted with integrity. The Guidelines for Proper Scientific Conduct in Research describe practices that have been established by several professions and are generally accepted by members of academic staff in the College.

Investigation of Allegations of Scientific Misconduct

The College’s policy on, and procedures for the investigation of allegations of research misconduct is intended to satisfy the requirements of those who fund research at Imperial College London that the College has proper mechanisms in place for the management of complaints of research fraud or misconduct. It is recognised that instances of misconduct are rare, and the procedures set out in this policy will consequently be implemented only in exceptional circumstances.

Research Misconduct

Staff should be aware of the College Guidelines for Proper Scientific Conduct in Research, and the Policy and Procedures for Investigation of Allegations of Scientific Misconduct.

Intellectual Property Policy

For further guidance, please contact the Research Office.
9. Wellbeing and Advice

Human Resources

Human Resources supply a number of Health and Wellbeing policies. For Policies and Guidance, visit the HR Health and Wellbeing webpage for more information.

Occupational Health

Occupational Health is responsible for the provision of specialist advice on health policies and environmental health hazards, health promotion and health surveillance, employment health assessments and a confidential counselling service.

College employees who regularly work on a computer (typically for periods of 90 minutes or longer) are eligible to have an eye test carried out by an optician paid by their department as per the terms of the College Computer Healthy Safety Policy and Computer Health Code of Practice.

Eye care

You can have an eye test once every two years, or more often if the optician advises this is medically necessary. You may also be entitled to spectacles if the optician thinks that you need spectacles specifically for reading a computer screen i.e. with a lens different to that used in spectacles that you may need for reading or distance vision.

Please visit the Occupational Health Eye care pages for more information.

Disability Advisory Service

The Disability Advisory Service offers confidential advice and support to students with a disability, specific learning difficulty, enduring health or mental health condition.

Departmental Disability Officers

Departmental Disability Officers are the first point of contact within your department. They can apply for additional exam arrangements on your behalf, and will facilitate support within your department.

Religious and Faith Support

The Chaplaincy Multi-Faith Centre is a place of resource, help, advice and information relating to issues of faith and spirituality. The Chaplaincy service provides prayer rooms, information about local places of worship, and people from different faiths you can talk with about issues of spirituality and religion.
MeetUp Imperial

MeetUp Imperial is a place where people with similar interests can meet, and everyone is welcome to join it. If you are looking for someone to go with to an exhibition, a concert or any other social event, you can post a message here and you will find someone who is interested in the same event. If you have tickets to an event and have no one to go with, post a message and wait for people to reply. It’s easy to use - you can contact people by replying to their posts or by sending them a private message.

Here is how to find us: https://www.yammer.com/ic.ac.uk/#/groups/suggested

The idea behind MeetUp Imperial is to integrate people, make them feel more like a part of community, which is one of the strategic aims of the College. It is also beneficial to College employees’ wellbeing and mental health ("Live well, work well").

There are over 7000 people working at Imperial College London, many sharing the same hobbies. You might already know them, but you don’t know they have the same interests as you!

MeetUp Imperial is similar to Meetup, but instead of meeting complete strangers we would be meeting with other Imperial staff members, we would meet up with people we almost know. It’s easy to use, it’s convenient (if you want to, you can meet up for a quick coffee before going together to the event for example). It’s also a great way to make new friends and to share your hobbies.
10. Personal Development

The Learning and Development Centre

The Organisational and Staff Development Department, led by Kim Everitt, Deputy Director, HR, comprises the Learning and Development Centre (including Safety Training), Talent Development, Equalities and Diversity and the Post Doctoral Development Centre.

Our aim is to improve the College’s capability to operate as an integrated and productive organisation, where levels of staff motivation and engagement are high. We do this by providing a range of development activities (such as personal training, team building events, consultancy, talent development programmes, coaching, one to one support, blended learning) that enable staff across the College to learn the skills relevant to their current role, and develop skills and abilities that will equip them for promotion.

For more information about the Learning and Development Centre, please visit their webpages: [http://www.imperial.ac.uk/staff-development/learning-and-development-centre/](http://www.imperial.ac.uk/staff-development/learning-and-development-centre/)

Fee Remission Policy for Staff

Fee remission is available to contracted full and part-time staff who have been employed for over one year. Staff may register for higher degrees or the DIC, with the exception of an MBA. Part-time staff remission will be calculated on a pro rata basis. Full details and exceptions to the general rules may be found at the Registry website: [http://www.imperial.ac.uk/study/pg/fees-and-funding/tuition-fees/discounts-for-college-staff/](http://www.imperial.ac.uk/study/pg/fees-and-funding/tuition-fees/discounts-for-college-staff/).

Travel associated with training

This should be claimed as a normal expense from your own department after reference to the latest edition of the College’s Expenses Policy.

Study Loan Scheme

College staff can benefit from an interest free loan to help with the costs of part time study while employed by Imperial. The aim is to help staff engage in study that will further their career aspirations yet falls outside of the provision available within the College. The scheme works in a similar way to the Season Ticket Loan and the i-Cycle scheme.
In essence, staff with at least another 7 months of their appointment to run can apply for a loan to enable them to pay fees for a course of study through a recognised learning provider. Repayments are usually spread over 10 months (fewer if their appointment is shorter) and repaid via their monthly salary.

Full details of the scheme can be found on these pages – please ensure that you meet all criteria before applying.

**Further support for study**

Study loans are not intended as a substitute for departmental investment and particularly not for training that is essential for the job role. We anticipate that departmental investment will continue as before. The Study leave policy provides another possible source of support for members of staff wanting to invest in their own career development and looking to the College to help them.

**Imperial Outreach**

Imperial has a long established reputation for delivering excellent outreach activities to school and college students. Opportunities on offer range from open days for prospective students, inspirational science-based hands-on activities, summer schools, mentoring programmes in schools, exciting lectures and schools visits to raise awareness of Higher Education.

**11. Staff Benefits**

Imperial College London is one of the world’s leading universities, based in a diverse and exciting capital city. Working at the College means that you join generations of Imperial staff who have contributed to solving problems on a global scale. Furthermore, it offers you a competitive salary and a package of attractive terms and conditions of service, along with many optional benefits, which we hope you will take advantage of. In our 2017 staff survey, 87% of our staff were proud to work for the College.

The College offers a large range of benefits and discounts to its staff, ranging from an interest free season ticket loan, to Perks at Work which provide negotiated discounts for a variety of retailers and services, as well as family friendly benefits and social activity groups. Please see the Staff Benefits webpages for more information.
