

POSTGRADUATE OPEN DAY AT THE NATURAL HISTORY MUSEUM

Wednesday 20 June 2018, 1-5 pm

The **Open Day** gives you the opportunity to learn more about **Masters courses** offered at the Natural History Museum in collaboration with Imperial College, London.

The NHM offers an **MSc in Taxonomy, Biodiversity and Evolution** and a linked **MRes in Biosystematics**. These courses cover the theoretical background and modern techniques for the study of biological diversity, taught in the unique setting of a world-famous museum.

The Open Day will consist of

- short talks and drop-in sessions to introduce the course content
- tours of the modern science facilities at the NHM and behind-the-scenes tour of the collections, libraries and of the adjacent campus of Imperial College.
- Opportunities to meet former students and members of teaching staff.
- Possibility to discuss potential research projects that are part of these courses, possible funding options and future career opportunities.

To register for a place, please email Jennifer Bennett (jennifer.bennett@imperial.ac.uk)
