

# Clean Power Program

Help us move towards a world with cleaner power

A program of three free online courses

## What you will learn?

- Learn why the transition to a cleaner power sector is so important.
- Gain an understanding of the changes needed to clean up our power supplies.
- Equip yourself to be part of this vital, global change.
- Explore how policies can help stimulate the growth of clean power.

## A program of three free online courses:

Delivered by experts  
at Imperial College  
London

Taken at your own  
pace over 5 to 6  
weeks

Illustrated with case  
studies from across  
the world

Gain a certificate to  
advance your career
