

Name: Chris Jai

Age: 26

Course: MSc Genes Drugs
and Stem Cells

Bio

After graduation, Chris was unsuccessful in securing a place on a Graduate Scheme in a large organisation and took a “year out”, which included some temporary work, before applying to study for a Taught Masters at IC.

She is reasonably effective at decision making but thinks she is better than she actually is.

She is anxious about returning to education.

Goals

- To secure employment or a better position, potentially on a different, still unknown, career path

Frustrations

- Concern re. loss of salary
- Lack of time especially with additional commitments

Motivations

Knowing exactly what sort of job she'd like to do (confidence)

Concern about what comes after university studies (fear)

Seeking opportunities to develop and learn (growth)
