Directions to IRDB from East Acton Station

The easiest way is to travel on the underground, CENTRAL LINE (Westbound) to WHITE CITY and then a 15 minute walk.

To walk, turn right out of the station and walk for almost half a mile crossing under the A40 until you come to Du Cane Road which is on your left hand side. You then walk down this road for about 1/3 mile, past some school playing fields on your right until you come to the Hammersmith Hospital.

Alternatively, buses 7, 70, 72 and 283 stop outside Hammersmith Hospital – you can catch these on the opposite side of the road to White City station.

There is also a taxi office outside White City if you would prefer.
