**Imperial College
London**

Synopsis

The Biological and Medicinal Chemistry Sector (BMCS) of the RSC is hosting a postgraduate symposium for PhD and postdoctoral students undertaking chemical biology research in areas related to agriculture and the agrisciences. Chemical biology in this context is referring to physical sciences tools and technologies (in chemistry, physics, mathematics and engineering) which are being applied to tackle biological problems on a molecular level. The symposium will be held in the **Department of Chemistry, Imperial College, London on Monday 29th September 2014. All students and researchers utilizing a combination of chemistry and fungal, insect or plant biology** in their research projects, from any UK or European university, are invited to attend.

Outline Programme

Registration will open at 9 am on 29th September, and the first talk will begin at 10 am. The symposium will consist of eight oral student presentations, plus student flash presentation and talks from academic and industrial keynote speakers. A free conference lunch will be provided on the day.

Call for Papers

If you are interested in presenting your relevant PhD or post-doctoral work, please submit a half-page abstract by 1st September 2014 along with your registration form. Those selected by the organising committee to give oral presentations will be notified. Please download your registration form and abstract template from the event website. Prizes will be awarded for the best two oral presentations and for the best two posters.

Travel and Accommodation

The travel costs of students selected to give an oral presentation will be refunded and a limited number of additional travel bursaries are available for students travelling from outside the London area. All other participants will need to cover their own travel and accommodation costs. A list of affordable hotels may be found on the registration webpage.

Application and Fees

Registration is FREE for all academic attendees but places are limited so please notify the conference organisers if your attendance plans change. Registration for industrial participants from non-sponsoring companies costs GBP 50. Registration will close on 15th September 2014.
