

2018 Seminar Series: New Frontiers in Systems Engineering

Prof. Jordi Bascompte (University of Zurich)

Plant-animal mutualistic networks: the architecture of biodiversity

14 February 2018, 11am, RODH 615

Prof. Roger Guimerà (Universitat Rovira i Virgili)

Network modeling and network inference for prediction: From movie recommendations to strategic decision making

21 March 2018, 11am, RODH 615

Prof. Mark Huijbregts (Radboud University Nijmegen)

Size scaling in ecological and industrial systems

25 April 2018, 11am, RODH333

Prof. Stephanie Hellweg (ETH Zurich)

Environmental optimization of wood resource use

3 May 2018, 11am, RODH333

Prof. Fengqi You (Cornell University)

When Machine Learning Meets Robust Optimization:

Data-driven Adaptive Robust Optimization Models, Algorithms & Applications

23 May 2018, 10am, RODH333

Prof. Uwe Sauer (ETH Zurich)

Coordination of Microbial Metabolism

20 June 2018, 11am, (TBC, UCL)

Organisers & Contacts: Dr. Gonzalo Guillen Gosalbez (g.guillen05@imperial.ac.uk), Dr. Alex Kiparissides (alex.kiparissides@ucl.ac.uk), Ms. Cristina Romano (c.romano@imperial.ac.uk)
