

**Centre for Process Systems
Engineering
Seminar Series 2011**
<http://www.ps.ic.ac.uk/seminars.html>

16th September 2011

Professor Daniel Favrat

*Ecole Polytechnique Fédérale de Lausanne (EPFL,
Switzerland)*

Envrionomic optimization of integrated
energy systems

30th September 2011

Dr Ard Louis

*Rudolph Peierls Centre for Theoretical Physics,
Oxford University*

Self-assembly in Nature and in
Nanotechnology

7th October 2011

Professor Frank Allgower

*Institut for Systems Theory and Automatic Control
University of Stuttgart, Germany*

Dimensions of Complexity in Intercon-
nected Systems:
Limitations and New Perspectives

28th October 2011

Professor Jeremy Gunawardena

Harvard Medical School, USA

A linear framework underlying nonlinear
biochemical systems

**Seminars will be held at 3.00 pm in CPSE Seminar Room
(Coffee at 2.30 pm),
C-615 Roderic Hill Building, South Kensington Campus, Imperial College**
For further information on these and other special CPSE seminars, please
contact:

Dr Krishnan (krishnan@icex.imperial.ac.uk); Tel: 020 7594 6633
