How Students Learn is a compulsory, core module that all students will attend. Students are divided into group 1 or group 2 and must attend both session A **and** session B of that group.

*These three sessions are part of the Higher Education in Context module. Students taking this module should choose two of these three topics.

The EDU will also run a number of other educational events throughout the year, for example Education Day and a series of Perspectives lectures. These will be advertised as dates are confirmed, and while your attendance at these is not compulsory it is highly encouraged.
