

# Undergraduate Research Opportunity Programme

## APPLICATION QUESTIONS

Please note that in addition to these questions your Supervisor will need to submit a Supporting Statement, by the deadline date of **midday on Thursday 28 February 2019**, in order for your application form to be valid.

Name of Member(s) of Academic Staff who will act as the Supervisor.
Department in which the research experience will be (primarily) hosted.
Faculty (where relevant)
<b>or</b> cross-faculty institute/lab/centre (where relevant)
Brief title of the research experience
Who will supervise the research experience on a day-to-day basis? (if known at this stage)
<b>Duration: Please be as precise as possible in the sections below.</b> If your application is successful, any allocation of an award will be based initially on this information. If dates change after an award has been allocated then the value of the award may change or may be withdrawn entirely (in such cases repayment of part or all of the award may be required).
Number of weeks: <i>see requirements for individual schemes</i>
Provisional start date (DD/MM/YY): <i>ordinarily no earlier than the end of the academic year, but where agreeable to the student's host department it may be earlier, however in no circumstances earlier than 28 June 2019 (1 June 2019 for MBBS students).</i>
Provisional end date (DD/MM/YY): <i>no later than 28 September 2019</i>
Periods of absence: <i>please specify any absences within the research experience, e.g. holiday.</i>

**Please explain your motivations.** What motivates you to undertake this placement?  
The student(s) is expected to provide a clear indication as to the source of their motivation.

Max 200 words

**Please explain your expectations.** What benefits do you expect to derive from this experience?  
The student (s) is expected to identify clear and distinct expectations linked to their personal and educational progress. It is expected that a student(s) will have multiple expectations.

Max 200 words

**Please provide a brief summary of the research behind the experience/placement you will undertake for an amateur/non-technical audience.** The student is expected to provide a synopsis of the nature of the research, its context, significance and its potential impact.

Max 300 words

**Project or placement description.** Please describe the scope of the research experience for which provisional agreement has been reached.  
It is accepted that the detail of the research experience on offer may not always have been finalised at this stage.

Max 200 words

**Please note that the project or placement description is not scored**
