Programme Overview

The programme is run by Imperial College Business School and is a one-year full-time programme. The programme aims to provide students with the opportunity to utilise their capabilities with coding and programming; to develop quantitative and analytical skills and apply technology to large data sets and financial models used within finance. Students will develop the necessary skills to embark on a Fintech orientated career in the financial services sector or to pursue further academic study (doctoral research).

The programme commences in September with examinations taking place at the end of each term. 6 of the Programme's taught modules are compulsory*. In addition, students take 4 elective** modules (Group A modules) which are taught in the spring and summer terms and must also successfully pass the Foundations in Financial Technology module. Examinations in the relevant compulsory modules take place directly at the end of the term in which they are taught. The elective modules comprise of 27 hours of lectures and are normally examined directly at the end of the term in which they are taught. Students also devote the summer term and the normal summer vacation period to working on their project. Students are assessed by an individual Applied Project of 3,000 words and a short presentation. Students on approved work placements may, with permission from the Programme Academic Director, be allowed to write a report which incorporates their learning from their work placement. As an alternative to the Applied Project, students can, with permission from the Academic Director, write an individual Research Project which is an original piece of work not exceeding 10,000 words. Students who complete a Research Project will be required to take one less elective. The Research Project is particularly suited to those students wanting to do a PhD after their MSc programme.

In addition, there are a number of required online modules: Accounting Primer, Ethics & Professional Standards and the Finance Careers primer, as well as modules in Career & Professional Development.

Students also have access to the optional Introduction to Maths and C++ module.

*Compulsory modules are those which are designated as necessary to be taken as part of the programme syllabus. Compulsory modules can be compensated

** Elective modules are those which are in the same subject area as the field of study and are offered to students in order to offer an element of choice in the curriculum and from which students are able to select. Elective modules can be compensated.

Learning Outcomes

Students who complete the programme successfully will be able to:

- Demonstrate analytical skills to create, manage and interrogate large data sets applicable to the Finance sector;
- Understand, execute, and possibly develop, disruptive financial innovations using appropriate tools and techniques
- Demonstrate a critical awareness of current issues in the fintech landscape;
- Use a range of programming tools to develop live implementations of financial models and use these implementations in practice;
- Analyse and evaluate investment decisions and data - students should be able to apply software to draw valid conclusions about data.

The Imperial Graduate Attributes are a set of core competencies which we expect students to achieve through completion of any Imperial College degree programme. The Graduate Attributes are available at:

www.imperial.ac.uk/students/academic-support/graduate-attributes

Entry Requirements	
Academic Requirement	<p>Normally a 2:1 UK Bachelor's Degree with Honours or equivalent in a highly quantitative discipline such as Mathematics, Engineering, Economics, Finance, Science or computational subject (or a comparable qualification recognised by the College).</p> <p>The Business School does not award credit for Prior Learning (Recognition of Prior Certified Learning (RPCL) or Recognition of Prior Experiential Learning (RPEL)).</p>
Non-academic Requirements	<p>When selecting candidates, the School uses a range of criteria: academic ability, future potential, and the commitment which students will bring to the programme. Candidates should have a well-researched career plan with clear short and long term goals.</p>
English Language Requirement	<p>Higher requirement IELTS score of 7.0 overall (minimum 6.5 in all elements).</p>
Admissions Test/Interview	<p>Students will be required to undertake a video interview comprised of four verbal and one written question designed to assess communication skills, well-roundedness, presence, global-orientation and financial/commercial awareness.</p>
<p>The programme's competency standards documents can be requested from the Business School's Education Quality Office.</p>	
Learning & Teaching Approach	
<p>Learning and Teaching Delivery Methods</p> <ul style="list-style-type: none"> • Lectures • Practical classes • Equipment/technique demonstrations (e.g. Bloomberg, Datastream) • Seminars • Workshops • Case studies • Group work exercises • Formal presentations • Pre-programme on-line modules • On-line discussion forums • On-line lecture materials • Interactive content including video and module quizzes • Individual Project • Work Placement Opportunity <p>Overall Workload</p> <p>Your overall workload consists of face-to-face sessions and independent learning. While your actual contact hours may vary according to the optional modules you choose to study, the following gives an indication of how much time you will need to allocate to different activities at each level of the programme. At Imperial, each ECTS credit taken equates to an expected total study time of 25 hours. Therefore, the expected total study time is 2250 hours per year.</p> <p>Depending on the elective modules selected, you may spend approximately 20% of your total study hours on lectures, seminars and similar, and around 80% of your time on independent study.</p>	
Assessment Strategy	
<p>Assessment Methods</p> <p>Modules will be assessed by one or more of the following types of assessment methods:</p> <ul style="list-style-type: none"> • Essays 	

- Continuous assessments
- Written Examinations/Tests
- Multiple Choice Tests
- Formal Presentations
- Reports
- Case Studies
- Participation

Assessed modules comprise coursework that is designed to help you master key elements of the subject and, in part, to help prepare you for the final assessment, which is typically a report or examination. Examinations are scheduled throughout the year, generally at the end of the term the module is taught or at the start of the subsequent term. Exact timings are detailed in the programme overview section above. The format of examinations may be written, computer-based or timed remote assessment.

Coursework weighting varies among modules. The various assessments allow you to demonstrate that you have met the intended learning outcomes for each module and these collectively contribute towards your achievement of the programme's learning outcomes, detailed above.

Assessments are designed to ensure that you have acquired the core knowledge and skills expected of a Business School graduate and that you are able to apply these in your career aspirations upon completion of the programme

Feedback can take many forms. You will receive written feedback on all coursework along with other forms of feedback such as verbal feedback on presentations.

Academic Feedback Policy

The School aims to provide feedback to students on coursework within two weeks and to provide provisional examination marks six weeks from the examination date. With each returned coursework assignment, a written evaluation or assignment solutions will be provided. General feedback to the cohort is provided on examination performance. Students will be provided with a percentage mark. All percentage marks received during the year are deemed provisional until confirmed by the External Exam Board.

The College's Policy on Academic Feedback and guidance on issuing provisional marks to students is available at:
www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/

Re-sit Policy

The College's Policy on Re-sits is available at: www.imperial.ac.uk/student-records-and-data/for-current-students/undergraduate-and-taught-postgraduate/exams-assessments-and-regulations/

Mitigating Circumstances Policy

The College's Policy on Mitigating Circumstances is available at: www.imperial.ac.uk/student-records-and-data/for-current-students/undergraduate-and-taught-postgraduate/exams-assessments-and-regulations/

Additional Programme Costs

This section should outline any additional costs relevant to this programme which are not included in students' tuition fees.

Description	Mandatory/Optional	Approximate cost
Costs related to the international electives	Optional- if international elective is selected	£1000 - £1500

Programme Structure					
Year 1 – FHEQ Level 4					
Students study all compulsory modules. On the Applied Project route students select 4 electives. On the Research Report route students select 3 electives

* 'Group' refers to module grouping (e.g. a group of electives from which one/two module(s) must be chosen).

Progression and Classification

Award and Classification for Postgraduate Students

Award of a Postgraduate Degree (excluding MRes)

To qualify for the award of a postgraduate degree a student must have:

1. accumulated credit to the value of no fewer than 90 credits at level 7 or above of which no more than 15 credits may be from credit level 6;
2. and no more than 15 credits as a Compensated Fail;
3. met any specific requirements for an award as outlined in the approved programme specification for that award.

Classification of Postgraduate Taught Awards

The College sets the class of Degree that may be awarded as follows:

1. Distinction: The student has achieved an overall weighted average of 70% or above across the programme.
2. Merit: The student has achieved an overall weighted average of above 60% but less than 70%.
3. Pass: The student has achieved an overall weighted average of 50% but less than 60%.
 - a. For a Masters, students must normally achieve a distinction (70%) mark in the dissertation or designated final major project (as designated in the programme specification) in order to be awarded a distinction.
 - b. For a Masters, students must normally achieve a minimum of a merit (60%) mark in the dissertation or designated final major project (as designated in the programme specification) in order to be awarded a merit
 - c. Modules taken at level 6 as part of the programme specification for a named postgraduate award will contribute to the determination of pass, merit or distinction for any taught postgraduate award and are included in the calculation of the overall weighted average.

Programme Specific Regulations

All modules are equally weighted with the exception of the Research Project which carries a double weight and the Foundations in Financial Technology module which is zero weighted.

There are three module groups;

- Compulsory Modules
- Pathway Modules
- Specialised Modules

Pass

- An average of 50% or above in each of the 3 module groups
- At least 70% of the largest individual component marks in each module being a minimum of 50%;
- A pass mark in the Foundations in Financial Technology module (an average of 50% or above across the assessments, with a minimum mark of 40% in each individual component)

Merit

- An average of 60% or above in each of the 3 module groups:
- At least 70% of the largest individual component marks in each module being a minimum of 60%;
- A pass mark in the Foundations in Financial Technology module (an average of 50% or above across the assessments, with a minimum mark of 40% in each individual component)

Distinction

- An average of 70% or above in each of the 3 module groups:
- At least 70% of the largest individual component marks in each module being a minimum of 70%;
- A pass mark in the Foundation in Financial Technology module (an average of 50% or above across the assessments, with a minimum mark of 40% in each individual component)

Supporting Information

The Programme Handbook is available at: <https://www.imperial.ac.uk/business-school/programmes/programme-information/>

The College's entry requirements for postgraduate programmes can be found at: www.imperial.ac.uk/study/pg/apply/requirements

The College's Quality & Enhancement Framework is available at: www.imperial.ac.uk/registry/proceduresandregulations/qualityassurance

The College's Academic and Examination Regulations can be found at: www.imperial.ac.uk/about/governance/academic-governance/regulations

Imperial College is an independent corporation whose legal status derives from a Royal Charter granted under Letters Patent in 1907. In 2007 a Supplemental Charter and Statutes was granted by HM Queen Elizabeth II. This Supplemental Charter, which came into force on the date of the College's Centenary, 8th July 2007, established the College as a University with the name and style of "The Imperial College of Science, Technology and Medicine".
www.imperial.ac.uk/admin-services/secretariat/college-governance/charters/

Imperial College London is regulated by the Office for Students (OfS)
www.officeforstudents.org.uk/advice-and-guidance/the-register/

This document provides a definitive record of the main features of the programme and the learning outcomes that a typical student may reasonably be expected to achieve and demonstrate if s/he takes full advantage of the learning opportunities provided. This programme specification is primarily intended as a reference point for prospective and current students, academic and support staff involved in delivering the programme and enabling student development and achievement, for its assessment by internal and external examiners, and in subsequent monitoring and review.
