Date of programme specification/revision	September 26

Programme Overview

The programme is run by Imperial Business School and is a one-year full-time programme.

The financial world's demand for innovation has always been intense. Today, as the international markets become increasingly complex, the need for understanding advanced systems and sophisticated financial instruments has never been greater. Success in these markets calls for intellectual rigour. Against this background, the MSc in Finance and Accounting equips you to meet the contemporary challenges and enjoy the rewarding career opportunities offered by a dynamic industry. It provides a very broad range of skills which will equip you for exciting careers which require both a thorough technical foundation and an understanding of the more practical aspects of designing a strategy and managing the finances and risk of a business.

The programme commences in September with examinations taking place at the end of each term. Eight of the programme's taught units are compulsory* and are taken in the first two terms. In addition, you will take four elective** modules, which are taught in the spring and summer terms and must successfully pass the Foundations in Finance & Accounting module. Examinations in the relevant compulsory modules take place directly at the end of the term in which they are taught. The elective modules comprise of 27 hours of lectures each and are normally examined directly at the end of the term in which they are taught. You will also devote the summer term and the normal summer vacation period to working on your Applied Project. You will be assessed by an individual Applied Project of 3,000 words and a short presentation. Students on approved work placements may, with permission from the Programmes' Academic Director, be allowed to write a report which incorporates their learning from their work placement. As an alternative to the Applied Project, you can, with permission from the Academic Director, write an individual Research Project which is an original piece of work not exceeding 10,000 words. Completion of a Research Project will require you to take one less elective. The Research Project is particularly suited to those wanting to do a PhD after their MSc programme. It may be possible for projects to be carried out partly or wholly at an external organisation and requests will be considered on a case by case basis.

In addition, there is an online Accounting Primer, online Ethics & Professional Standards, online Finance Careers Primer and the Career & Professional Development module. These modules do not, however, contribute to the calculation of the final award.

You may also take the optional online module *Introduction to Maths*, as well as the in-person modules *C++* and *VBA*.
If you secure an extended Work Placement opportunity (4-6 months in duration) you will be able to transfer to the 16 month programme Option in consultation with the Academic Director

Graduates from this programme typically go on to careers in; investment banking, consulting, general finance, M&A, asset management, energy/ utilities, sales/ trading, private equity.

*Compulsory modules are those which are designated as necessary to be taken as part of the programme syllabus. Compulsory modules can be compensated.
** Elective modules are those which are in the same subject area as the field of study and are offered to students in order to offer an element of choice in the curriculum and from which students are able to select. Elective modules can be compensated.

Learning Outcomes

The programme aims to provide a balance of professional, quantitative and analytic skills that will enable the student to choose from a wide variety of careers from management consultancy to the financial sector. Possible roles include a role in the investment banking division, an advisory or executive role in an equity research department or capital markets group; a specialist within a treasury department of a large corporate; role in retail banking; or further academic study (doctoral research).

Upon successful completion of the programme, you will be able to:

- Appraise financial accounts and use them in decision making, particularly in regard to capital budgeting and valuation.
- Explain fundamental finance theories and models and their use and context in real financial markets.
- Use the above models to look at funding solutions and managing corporate risk.
- Apply mathematical tools to financial problems including the pricing of financial instruments and products.
- Analyse economic and financial data and evaluate investment decisions. Apply econometric theory and software to draw valid conclusions.

The Imperial Graduate Attributes are a set of core competencies which we expect students to achieve through completion of any Imperial degree programme. The Graduate Attributes are available at: https://www.imperial.ac.uk/about/education/our-graduates/

Entry Requirements

Academic Requirement	Normally an Upper Second Class Honours Degree (or international equivalent) in a quantitative discipline such as Finance, Accounting, Economics, Mathematics, Engineering, Science or Business. The Business School does not award credit for Prior Learning (Recognition of Prior Certified Learning (RPCL) or Recognition of Prior Experiential Learning (RPEL)).
Non-academic Requirements	When selecting candidates, the Business School uses a range of criteria: academic ability, future potential, and the commitment which students will bring to the programme. Candidates should have a well-researched career plan with clear short and long term goals. Two references are also required.
English Language Requirement	Higher requirement IELTS score of 7.0 overall (minimum 6.5 in all elements).

Admissions Test/Interview	You are required to take an online interview via the Shortlister platform. All interviews are reviewed and scored as part of the Admissions process.

The programme's competency standards documents can be requested from the Business School's Education Quality Office.

Learning & Teaching Approach

Learning and Teaching Delivery Methods

- Lectures
- Practical classes
- Equipment/technique demonstrations (e.g. Bloomberg,)
- Seminars
- Workshops
- Case studies
- Group work exercises
- Formal presentations
- Pre-programme on-line modules
- On-line discussion forums
- On-line lecture materials
- Interactive content including video and module quizzes
- Work Placement Opportunity

Please refer to the Teaching Toolkit for advice on learning and teaching approaches:
https://www.imperial.ac.uk/staff/educational-development/teaching-toolkit/

Overall Workload

Your overall workload consists of face-to-face sessions and independent learning. While your actual contact hours may vary according to the optional modules you choose to study, the following gives an indication of how much time you will need to allocate to different activities at each level of the programme. At Imperial, each ECTS credit taken equates to an expected total study time of 25 hours. Therefore, the expected total study time is 2250 hours per year.

Depending on the elective modules selected, you may spend approximately 20% of your total study hours on lectures, seminars and similar, and around 80% of your time on independent study.

Assessment Strategy

Assessment Methods

Modules will be assessed by one or more of the following types of assessment methods:

- Essays
- Continuous assessments
- Written Examinations/Tests
- Multiple Choice Tests
- Formal Presentations
- Reports
- Case Studies
- Participation

Assessed modules comprise coursework that is designed to help you master key elements of the subject and, in part, to help prepare you for the final assessment, which is typically a report or examination.

Examinations are scheduled throughout the year, generally at the end of the term the module is taught or at the start of the subsequent term. Exact timings are detailed in the programme overview section above. The format of examinations may be written, computer-based or timed remote assessment.

Coursework weighting varies among modules. The various assessments allow you to demonstrate that you have met the intended learning outcomes for each module and these collectively contribute towards your achievement of the programme's learning outcomes, detailed above.

Assessments are designed to ensure that you have acquired the core knowledge and skills expected of a Business School graduate and that you are able to apply these in your career aspirations upon completion of the programme.

Academic Feedback Policy

Feedback can take many forms. During lectures and classes, you will receive verbal feedback on the ideas that you contribute to discussions and on in-class presentations. The online teaching materials contain exercises with built-in, immediate, feedback that is received when you submit an answer.

The Business School aims to provide feedback on coursework within two weeks. This will be sent in written form to the individual or the group, as appropriate. Academic staff may also provide verbal feedback of a general nature in class or posted to our virtual learning environment. Office hours offered on all modules also provide an opportunity for individual feedback.

The Business School aims to provide provisional examination grades twenty-five days from the end of the examination period. General feedback to the cohort is provided on examination performance, usually in written form. If you need to resit an examination, you may also approach the module leader for feedback on your performance in the first sitting.

You will be provided with a percentage grade for coursework and examinations with the final numerical mark only confirmed after the Board of Examiners Meeting and then released by Registry. Grades received during the year are deemed provisional until confirmed by the Final Board of Examiners.

The university's Policy on Academic Feedback and guidance on issuing provisional marks is available at: www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/

Re-sit Policy

The university's Policy on Re-sits is available at: www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/

Mitigating Circumstances Policy

The university's Policy on Mitigating Circumstances is available at: www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/

Additional Programme Costs

This section should outline any additional costs relevant to this programme which are not included in students' tuition fees.

Description	Mandatory/Optional	Approximate cost

Costs related to the international electives	Optional- if international elective is selected	£1000-£1500* *exact costs will vary by location
The below section only applies to students who transfer to the 16-month programme		
Extended Programme	Mandatory	Students who choose the Extended Work Placement will need to transfer to the 16-month programme and will be required to pay a fee of £1500. Students will also need to pay to extend their student visa if required, and they are expected to arrange their own accommodation throughout their placement. Other costs vary according to the location of the extended work placement

Important notice: The Programme Specifications are the result of a large curriculum and pedagogy reform implemented by the Department and supported by the Learning and Teaching Strategy of Imperial College London. The modules, structure and assessments presented in this Programme Specification are correct at time of publication but might change as a result of student and staff feedback and the introduction of new or innovative approaches to teaching and learning. You will be consulted and notified in a timely manner of any changes to this document.

Programme Structure (12 month) [1]					
Year 1 – FHEQ Level 7 **You will study all compulsory modules. On the Applied Project route, you must select 4 electives. On the Research Report route, you must select 3 electives.**

Progression and Classification

Award and Classification for Postgraduate Students

Award of a Postgraduate Degree (including MRes)
To qualify for the award of a postgraduate degree a student must have:

1. accumulated credit to the value of no fewer than 90 credits at level 7
2. and no more than 15 credits as a Compensated Pass;

Classification of Postgraduate Taught Awards
The university sets the class of Degree that may be awarded as follows:

1. Distinction: 70.00% or above.
2. Merit: 60.00% or above but less than 70.00%.
3. Pass: 50.00% or above but less than 60.00%.

For a Masters, your classification will be determined through the Programme Overall Weighted Average meeting the threshold for the relevant classification band.

Your degree algorithm provides an appropriate and reliable summary of your performance against the programme learning outcomes. It reflects the design, delivery, and structure of your programme without unduly over-emphasising particular aspects.

The university's Academic and Examination Regulations can be found at: www.imperial.ac.uk/about/governance/academic-governance/regulations
Imperial College London is an independent corporation whose legal status derives from a Royal Charter granted under Letters Patent in 1907. In 2007 a Supplemental Charter and Statutes was granted by HM Queen Elizabeth II. This Supplemental Charter, which came into force on the date of the university's Centenary, 8th July 2007, established Imperial as a University with the name and style of "The Imperial College of Science, Technology and Medicine". www.imperial.ac.uk/admin-services/governance/university-governance-structure/charters/
Imperial College London is regulated by the Office for Students (OfS) www.officeforstudents.org.uk/advice-and-guidance/the-register/
This document provides a definitive record of the main features of the programme and the learning outcomes that you may reasonably be expected to achieve and demonstrate if you take full advantage of the learning opportunities provided. This programme specification is primarily intended as a reference point for prospective and current students, academic and support staff involved in delivering the programme and enabling student development and achievement, for its assessment by internal and external examiners, and in subsequent monitoring and review.
