

BSc Biotechnology with Research Abroad
BSc Biotechnology with a Year in Industry/Research

This document provides a definitive record of the main features of the programme and the learning outcomes that a typical student may reasonably be expected to achieve and demonstrate if s/he takes full advantage of the learning opportunities provided. This programme specification is intended as a reference point for prospective students, current students, external examiners and academic and support staff involved in delivering the programme and enabling student development and achievement.

Programme Information			
Programme Title	Biotechnology with Research Abroad; Biotechnology with a Year in Industry/Research		
Award(s)	BSc		
Programme Code	J701; J702		
Associateship	Associateship of the Royal College of Science (ARCS)		
Awarding Institution	Imperial College London		
Teaching Institution	Imperial College London		
Faculty	Faculty of Natural Sciences		
Department	Department of Life Sciences		
Main Location of Study	South Kensington Campus		
Mode and Period of Study	4 academic years full-time		
Cohort Entry Points	Annually in October		
Relevant QAA Benchmark Statement(s) and/or other external reference points	Biosciences		
Total Credits	ECTS:	240	CATS: 480
FHEQ Level	Level 6		
EHEA Level	1 st cycle		
External Accrator(s)	None		
Specification Details			
Student cohorts covered by specification	2017/18		
Person responsible for the specification	Dr Huw Williams		

Date of introduction of programme	
Date of programme specification/revision	August 2017
Programme Overview	
<p>The Biotechnology with Research Abroad and Biotechnology with a Year in Industry/Research programmes allow students the opportunity to gain experience within commercial companies or research organisations.</p> <p>In the first two years students will tackle core subjects to ensure that they receive a solid grounding in fundamentals.</p> <p>For BSc Biotechnology with Research Abroad, the third year will be spent carrying out research in an industrial, medical or other appropriate biochemical/biotechnological work environment overseas. Links with various universities in the EU have been established for the overseas scientific and cultural component of the Year in Europe/Research Abroad degrees.</p> <p>For BSc Biotechnology with a Year in Industry/Research, the third year will be spent carrying out research in an industrial, medical or other biochemical work environment.</p> <p>Students will then specialise in the final year, making their choice from a wide range of options and research projects.</p> <p>Our biochemistry and biotechnology courses contain topics covering all aspects of the applied biochemistry and the biotechnology industry, such as intellectual property and patents, commercialising technology, and entrepreneurship, with lectures and case studies from biotechnology business leaders and academics.</p>	
Learning Outcomes	
<p>The Imperial Graduate Attributes are a set of core competencies which we expect students to achieve through completion of any Imperial College degree programme. The Graduate Attributes are available at: www.imperial.ac.uk/students/academic-support/graduate-attributes</p>	
<p>Knowledge and Understanding of:</p> <ul style="list-style-type: none"> • Biological chemistry; molecular biology and genetics; cell biology; protein and enzyme structure and function; (Year 1) • Genes and genomics; macromolecular structure and function; integrative cell biology; (Year 2) • Advanced knowledge and understanding of three specialist modules; (Year 3) <p>Intellectual Skills (thinking) skills - able to:</p> <ul style="list-style-type: none"> • Analyse and solve biochemistry-based problems; • Integrate and evaluate information; • Formulate and test hypotheses using appropriate experimental design and statistical analysis of data; • Plan, conduct and write-up a programme of original research <p>Practical skills – able to:</p> <ul style="list-style-type: none"> • Plan and execute safely a series of experiments; • Use laboratory methods to generate data; • Analyse experimental results and determine their strength and validity; 	

- Prepare technical reports;
- Give technical presentations;
- Use the scientific literature effectively;
- Use computational tools and packages.

Transferable skills – able to:

- Communicate effectively through oral presentations, computer processing and presentations, and written reports;
- Work independently and as part of a team
- Integrate and evaluate information from a variety of sources;
- Use Information and Communications Technology;
- Manage resources and time;
- Learn independently with open-mindedness and critical enquiry;
- Learn effectively for the purpose of continuing professional development.

Entry Requirements

Academic Requirement	Grade Requirement	Normally a minimum AAA overall
	Subject Requirements	<p>A in Chemistry A in another science subject (Biology is preferred but not mandatory) or Mathematics The ideal combinations would be Chemistry and two further science subjects or Chemistry and one further science subject and Mathematics (or a comparable qualification recognised by the College)</p> <p>Two AS levels may be acceptable in place of a third A level</p>
	Excluded Subjects	General Studies Critical Thinking
International Baccalaureate (IB)	Grade Requirement	Minimum 38 overall
	Subject Requirements	<p>6 in Chemistry at higher level 6 in Biology, Physics or Mathematics at higher level (or a comparable qualification recognised by the College)</p>
English Requirement		<p>Standard requirement IELTS 7.0 with a minimum of 6.5 in each element or equivalent</p>
Admissions Tests		Candidates may be asked to undertake an admissions test set by the College in order to provide additional information for the Admissions Tutor in support of an application.

Interview	No
The programme's competency standards documents can be found at: http://www.imperial.ac.uk/students/academic-support/graduate-attributes/	
Learning & Teaching Strategy	
Scheduled Learning & Teaching Methods	<ul style="list-style-type: none"> • Laboratory • Lectures • Tutorials • Seminars
E-learning & Blended Learning Methods	<ul style="list-style-type: none"> • Computer-based work
Project Learning Methods	<ul style="list-style-type: none"> • Group project • Research project/dissertation
Placement Learning Methods	<ul style="list-style-type: none"> • Site visits
Assessment Strategy	
Assessment Methods	<ul style="list-style-type: none"> • Written Examinations • Coursework • Laboratory write-ups • Essays • Reports • Dissertations • Presentations • Individual research project report • Viva
Academic Feedback Policy	
<p>Coursework feedback is provided by a feedback form attached to items of coursework. Feedback is also provided via Blackboard on automatically-assessed pieces of coursework and on formative MCQ quizzes. Personal tutors hold timetabled tutorials at the start of the academic year to give feedback on examination performance and can be approached by their tutees at any point in the year for further guidance. The undergraduate teaching office repeatedly informs individual staff via email when coursework is due back at the appropriate time. The Director of Undergraduate Studies routinely monitors the quality and quantity of feedback provided on marked coursework. In some instances, generic class feedback is returned to all students via email or a Blackboard announcement once coursework is marked.</p>	
Re-sit Policy	
The College's Policy on Re-sits is available at: http://www.imperial.ac.uk/student-records-and-data/for-current-students/undergraduate-and-taught-postgraduate/exams-assessments-and-regulations/	
Mitigating Circumstances Policy	
The College's Policy on Mitigating Circumstances is available at: http://www.imperial.ac.uk/student-records-and-data/for-current-students/undergraduate-and-taught-postgraduate/exams-assessments-and-regulations/	

Programme Structure

Year Four	
Written Examinations	January and February
Coursework Assessments	Continuous
Project Deadlines	June
Practical Assessments	Continuous
Assessment Structure	
Marking Scheme	
<p>Regulation of Assessment</p> <p>Minimum pass mark is 40% overall for each course module, which must include a mark of at least 35% in the coursework component and a mark of at least 35% in the examination. For course modules that include a written examination, coursework typically contributes 20- 25% of the total marks available. Assessment details are provided in the Student Handbook. The final degree mark is calculated from the mean mark achieved in Years 1, 2 and 4. The year weightings for students admitted in or after October 2013 are 11.1:33.3: 0:55.6, respectively. The year weightings for students admitted before October 2013 are 5:35:0:60. To qualify for the award of BSc Honours, students must pass all courses.</p> <p>Assessment Rules and Degree Classification:</p> <p>For undergraduate programmes classification of degrees will be according to the following range of marks: First class 70 - 100% Second class (upper division) 60 - 69.9% Second class (lower division) 50 - 59.9% Third class 40 - 49.9% Fail 0-39%</p>	

Year	% Year Weighting	Module	% Module Weighting
Year One	11.1%	Molecular Biology	25%
		Proteins and Enzymes	25%
		Biological Chemistry	25%
		Cell Biology	25%
Year Two	33.3%	Genes and Genomics	16.6r%
		Integrative Cell Biology	16.6r%
		Fundamentals of Molecular Biochemistry	16.6r%
		Protein Science	16.6r%
		Tutored Dissertation	11.6r%
		Topics in Biotechnology	11.6r%
		<i>One module from elective group (A)</i>	10%
Year Three	0%	Year Abroad (J701 only)	N/A
		Year in Industry/Research (J702 only)	
Year Four	55.6%	<i>EITHER:</i> Laboratory Based Research Project <i>OR</i> Literature Based Dissertation <i>AND</i> Science Communication	35%
		<i>One module from elective group (B)</i>	21.66r%
		<i>One module from elective group (C)</i>	21.66r%
		<i>One module from elective group (D)</i>	21.66r%

The College's Academic and Examination Regulations can be found at: <http://www.imperial.ac.uk/about/governance/academic-governance/regulations/>

Imperial College is an independent corporation whose legal status derives from a Royal Charter granted under Letters Patent in 1907. In 2007 a Supplemental Charter and Statutes was granted by HM Queen Elizabeth II. This Supplemental Charter, which came into force on the date of the College's Centenary, 8th July 2007, established the College as a University with the name and style of "The Imperial College of Science, Technology and Medicine".
