Date of introduction of programme	October 2019
Date of specification revision:	February 2025

Programme Overview

The BSc Biochemistry with Management is a three-year degree. In the first two years students will tackle core subjects to ensure that they receive a solid grounding in the fundamentals.

Studying the Biochemistry BSci programme you will be actively engaged in a curriculum that will be enriched from year 1 onwards by the Department of Life Science's research environment.

All students on Biochemistry programmes follow the same core modules in the first two years of study, where the programme will range from biological chemistry to cell biology and molecular biology. This will be complemented by a Life Science Skills programme that will provide training in quantitative skills, programming, statistics and scientific writing and presentation. You will develop a synoptic understanding of Biochemistry before starting to specialise towards the end of year 2 by taking elective modules.

The third year will be spent in the Imperial College Business School. This year aims to prepare students for a career in business management, management services or management consultancy in the private or public sectors in the UK, Europe or worldwide.

Graduates in Life Sciences go onto range of employments and further study including PhD study, research and development, science policy, research and technical consultancy, business and finance

Learning Outcomes

Please refer to the Teaching Toolkit for advice on the role and purpose of Intended Learning Outcomes (ILO): www.imperial.ac.uk/staff/educational-development/teaching-toolkit/intended-learning-outcomes

On completion of this programme, graduates will be able to:

On achieving the Cert HE:

1. Interpret and apply core terminology and key concepts used in life sciences;
2. Integrate fundamental biological and/or biochemical principles to explore biological complexity;
3. Integrate concepts from a range of disciplines, including physics, chemistry and maths, to solve problems in life sciences;
4. Demonstrate effective verbal, written communication and presentation skills;

On achieving the Dip HE, the ILOs (1-4) above and

5. Explore ethical and social issues in life sciences, and consider the potential impact of novel technologies;

6. Formulate hypotheses, design experiments, and apply lab and/or field skills to collect and critically evaluate relevant data;
7. Conduct statistical analyses using programming skills, adhering to publication standards;
8. Collaborate successfully in diverse, multicultural and international teams;

On achieving the BSc, all the ILOs (1-8) above and

9. Demonstrate excellent verbal, written communication and presentation skills across a range of academic and disciplinary activities, including research, assessment, dissemination and communication with diverse audiences;
10. Solve complex real-world problems within their degree specialisation, using a range of appropriate laboratory, computational or field skills;
11. Create independent, enquiry-based, extended and novel work that demonstrates critical analysis and evaluation.
12. Demonstrate a foundation of knowledge in core business disciplines
13. Demonstrate the capability to apply this knowledge
14. Continue to develop their personal skill set

The Imperial Graduate Attributes are a set of core competencies which we expect students to achieve through completion of any Imperial degree programme. The Graduate Attributes are available at:
<https://www.imperial.ac.uk/about/education/our-graduates/>

Entry Requirements

Academic Requirement	<p><u>A level</u></p> <p>AAA overall, to include: A in Chemistry A in Biology, Mathematics or Physics A in another subject</p> <p>General Studies and Critical Thinking are not accepted.</p> <p><u>International Baccalaureate (IB)</u></p> <p>Minimum 38 overall 6 in Chemistry at higher level 6 in Biology, Physics or Mathematics at higher level</p>
Non-academic Requirements	None
English Language Requirement	<p><u>Higher requirement</u></p> <p>Please check for other <u>Accepted English Qualifications</u></p>
Admissions Test/Interview	There is no admissions test associated with entry to this programme and applicants will not normally be interviewed.

The programme's competency standards documents are available from the department.

Learning & Teaching Approach

Learning and Teaching Delivery Methods

Lectures and large group-teaching incorporating a range of active learning approaches, laboratory practicals working as individuals, in pairs or small groups, computational work, seminars, tutorials and problem classes, interactive online learning material, online concepts and skills videos and interactive group work, student presentations as individuals and small groups, team-based learning, dissertation and individual research projects.

Overall Workload

Your overall workload consists of face-to-face sessions and independent learning. While your actual contact hours may vary according to the optional modules you choose to study, the following gives an indication of how much time you will need to allocate to different activities at each level of the programme. At Imperial, each ECTS credit taken equates to an expected total study time of 25 hours. Therefore, the expected total study time is 1500 hours per year.

Typically in the first two years you will spend in the order of 30% of your time on lectures, laboratory work and small group teaching and seminars and similar (around 400 hours) and in the order of 70% of your time on independent study.

Assessment Strategy

Assessment Methods

Formative assessment.

Performance in problem classes, quizzes in lectures, digital resources for self-assessment including online quizzes and problems, by discussions in tutorials as well as written and or verbal feedback on a range of non-examined tasks, including the types of summatively assessed tasks listed below.

Summative Assessment

Written Examinations
Laboratory write-ups
Essays
Reports
Dissertations
Presentations
Individual research project report
Viva voce examination
Peer assessment
Poster presentations

Assessment Mode	Year 1	Year 2	Year 3
Examination	60	48	60
Coursework	40	52	40

Academic Feedback Policy

Coursework submission is managed by our education office and in most cases coursework is submitted electronically via BlackBoard and feedback is provided electronically or by a feedback form attached to items of coursework. Feedback is also provided via Blackboard on formative quizzes. You will receive feedback normally within 10 working days, but this might be longer for some very substantial pieces of work, such as a dissertation. Personal tutors hold timetabled tutorials to give feedback on examination performance and can be approached by their tutees at any point in the year for further guidance. The education office manages the timely return of coursework feedback and the Director of Undergraduate Studies routinely monitors the quality and quantity of feedback provided. In some instances, generic class feedback is returned to all students via email or a Blackboard announcement once coursework is marked

Re-sit Policy
Imperial's Policy on Re-sits is available at: www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/
Mitigating Circumstances Policy
Imperial's Policy on Mitigating Circumstances is available at: www.imperial.ac.uk/about/governance/academic-governance/academic-policy/exams-and-assessment/

Additional Programme Costs		
This section should outline any additional costs relevant to this programme which are not included in students' tuition fees.		
Description	Mandatory/Optional	Approximate cost
N/A	N/A	N/A

Programme Structure					
Year 1 – FHEQ Level 4 You will study all core modules.					
Code	Module Title	Core/ Elective	Group*	Term	Credits
LIFE40001	Biological Chemistry	Core		Autumn and Summer	15
LIFE40002	Cell Biology	Core		Autumn- Summer	10
LIFE40003	Enzymes and Metabolism	Core		Spring- Summer	10
LIFE40004	Molecular Biology	Core		Spring- Summer	15
LIFE40009	Core Skills for Life Scientists	Core		Autumn- Summer	10
Credit Total					60
Year 2 - FHEQ Level 5 You will study all core modules and one elective module from Group A and one from Group B.					
Code	Module Title	Core/ Elective	Group	Term	Credits
LIFE50022	Structural Biology	Core		Autumn	10
LIFE50010	Genes and Genomics	Core		Autumn	7.5
LIFE50026	Bioinformatics, Programming and Statistics (Biochemistry)	Core		Autumn- Spring	5
LIFE50003	Tutored Dissertation	Core		Spring - Summer	7.5
LIFE50019	Protein Science	Core		Spring	7.5
LIFE50013	Integrative Cell Biology	Core		Spring	10
LIFE50023	Topics in Biotechnology	Elective	A	Summer	7.5
LIFE50007	Challenges in Cell Biology	Elective	A	Summer	7.5
LIFE50001	Applied Molecular Biochemistry	Elective	A	Summer	7.5
LIFE50018	Computational 'Omics	Elective	A	Summer	7.5
	I-Explore	Elective	B	Autumn/ Spring	5/7.5
Credit Total					60 or 62.5

Year 3 FHEQ Level 6 You will study all compulsory modules.					
Code	Module Title	Core/ Compulsory/ Elective/	Group	Term	Credits
BUSI97178	Plagiarism Awareness	Compulsory	N/A	Autumn	0
BUSI60023	Accounting	Compulsory	N/A	Autumn	5
BUSI60033	Business Economics	Compulsory	N/A	Autumn	5
BUSI60025	Global Strategy	Compulsory	N/A	Autumn	5
BUSI60026	Organisational Behaviour and Human Resource Management	Compulsory	N/A	Autumn	5
BUSI60028	Marketing	Compulsory	N/A	Spring	5
BUSI60034	Innovation Management	Compulsory	N/A	Spring	5
BUSI60035	Finance and Financial Management	Compulsory	N/A	Spring-Summer	5
BUSI60027	Sustainable Business	Compulsory	N/A	Spring	5
BUSI60031	Entrepreneurship	Compulsory	N/A	Spring	5
BUSI60032	Research Methods and Practice	Compulsory	N/A	Autumn-Summer	15
Credit Total					60

* 'Group' refers to module grouping (e.g. a group of electives from which one/two module(s) must be chosen).

Progression and Classification

Progression

In order to progress to the next level of study, you must have passed all modules (equivalent to 60 ECTS) in the current level of study at first attempt, at resit or by a compensated pass.

The overall weighted average for each year must be 40%, including where a module(s) has been compensated, in order for you to progress to the next year of the programme.

Classification

The marks from modules in each year contribute towards the final degree classification.

In order to be considered for an award, you must have achieved the minimum number of credits at the required levels prescribed for that award and met any programme specific requirements as set out in the Programme Specification.

Your classification will be determined through:

- i) Aggregate Module marks for all modules
- ii) Year Weightings

For this award, Year One is weighted at 7.50%, Year Two at 35.00% and Year Three at 57.50%.

The university sets the class of undergraduate degree that may be awarded as follows:

- i) First 70% or above for the average weighted module results
- ii) Upper Second 60% or above for the average weighted module results
- iii) Lower Second 50% or above for the average weighted module results
- iv) Third 40% or above for the average weighted module results

Programme Specific Regulations

Imperial's Quality & Enhancement Framework is available at:
www.imperial.ac.uk/registry/proceduresandregulations/qualityassurance

Imperial's Academic and Examination Regulations can be found at:
www.imperial.ac.uk/about/governance/academic-governance/regulations

Imperial College London is an independent corporation whose legal status derives from a Royal Charter granted under Letters Patent in 1907. In 2007 a Supplemental Charter and Statutes was granted by HM Queen Elizabeth II. This Supplemental Charter, which came into force on the date of Imperial's Centenary, 8th July 2007, established Imperial as a University with the name and style of "The Imperial College of Science, Technology and Medicine".
