

**BSc Biological Sciences with French for Science**  
**BSc Biological Sciences with German for Science**  
**BSc Biological Sciences with Spanish for Science**

This document provides a definitive record of the main features of the programme and the learning outcomes that a typical student may reasonably be expected to achieve and demonstrate if s/he takes full advantage of the learning opportunities provided. This programme specification is intended as a reference point for prospective students, current students, external examiners and academic and support staff involved in delivering the programme and enabling student development and achievement.

**Programme Information**

Award(s)	BSc		
Associateship	Associateship of the Royal College of Science (ARCS)		
Programme Title	Programme Code		
Biological Sciences with French for Science	C1R1		
Biological Sciences with German for Science	C1R2		
Biological Sciences with Spanish for Science	C1R4		
Awarding Institution	Imperial College London		
Teaching Institution	Imperial College London		
Faculty	Faculty of Natural Sciences		
Department	Department of Life Sciences		
Mode and Period of Study	4 academic years full-time		
Cohort Entry Points	Annually in October		
Relevant QAA Benchmark Statement(s) and/or other external reference points	<a href="#">Biosciences</a>		
Total Credits	ECTS:	270	CATS: 540
FHEQ Level	Level 6		
EHEA Level	1 <sup>st</sup> cycle		
External Accreditor(s)	None		
<b>Specification Details</b>			
Student cohorts covered by specification	2016/17 entry		

Person responsible for the specification	Dr Huw Williams
Date of introduction of programme	
Date of programme specification/revision	August 2016
<b>Description of Programme Contents</b>	
<p>All students on Biological Sciences programmes follow the same core modules in the first year of study. As the years progress, students will begin to specialise further according to their chosen degree programme or individual optional module choices.</p> <p>All students have the opportunity to attend field courses, including the popular African Biology Field Course which takes place in South Africa.</p> <p>The four-year courses <b>Biological Sciences with French for Science (C1R1)</b>, <b>Biological Sciences with German for Science (C1R2)</b> and <b>Biological Sciences with Spanish for Science (C1R4)</b> are similar to <a href="#">BSc in Biology with a Year in Europe (C102)</a> but with additional language courses.</p> <p>The first year course covers the basic core areas of biology. In the first term, there are also classes in key scientific skills such as information retrieval, literature referencing, and statistics.</p> <p>In the second and third years, we organise courses for those who wish to study for the flexible, broadly based suite of degrees in biology and specialisms in ecology and environmental biology, microbiology, plant biology and zoology.</p> <p>The last term of the final year is devoted to a full-time individual research project. The project is often the most exciting and rewarding part of the degree. Students are allowed considerable freedom in choosing a project and may suggest their own line of research. An academic staff member will supervise student's work.</p>	
<b>Learning Outcomes</b>	
<p>The Imperial Graduate Attributes are a set of core competencies which we expect students to achieve through completion of any Imperial College degree programme. The Graduate Attributes are available at: <a href="http://www.imperial.ac.uk/students/academic-support/graduate-attributes">www.imperial.ac.uk/students/academic-support/graduate-attributes</a></p>	
<p><b>Knowledge and Understanding of:</b></p> <ul style="list-style-type: none"> <li>• Basic biological chemistry; cell biology and genetics; organismal biology; ecology, and evolution (Year 1);</li> <li>• Applied molecular biology, including bioinformatics; genetics statistics; and chosen subject areas (Year 2);</li> <li>• Advanced knowledge and understanding of three specialist modules.</li> </ul> <p><b>Intellectual Skills (thinking) skills - able to:</b></p> <ul style="list-style-type: none"> <li>• Analyse and solve biology-based problems;</li> <li>• Integrate and evaluate information;</li> <li>• Formulate and test hypotheses using appropriate experimental design and statistical analysis of data;</li> <li>• Plan, conduct and write-up a programme of original research.</li> </ul>	

**Practical Skills – able to:**

- Plan and execute safely a series of experiments;
- Use laboratory and field-based methods to generate data;
- Analyse experimental results and determine their strength and validity;
- Prepare technical reports;
- Give technical presentations;
- Use the scientific literature effectively;
- Use computational tools and packages.

**Transferable Skills – able to:**

- Communicate effectively through oral presentations, computer processing and presentations, written reports;
- Apply statistical skills;
- Work independently and as part of a team;
- Integrate and evaluate information from a variety of sources;
- Use Information and Communications Technology;
- Manage resources and time;
- Learn independently with open-mindedness and critical enquiry;
- Learn effectively for the purpose of continuing professional development.

**Entry Requirements**

Academic Requirement	<p>The minimum entry requirements for all Biological Sciences courses are AAA overall at A2 level, to include:</p> <p>A in Biology  A in Physics, Chemistry or Mathematics  A in an additional subject (excluding Critical Thinking or General Studies)</p> <p>Two AS levels may be acceptable in place of a third A level. This is in addition to Grade B or above in GCSE Mathematics, Chemistry, Biology (or Combined Sciences) and English Language (or an overall score of 7.0 in IELTS with 6.5 in each element).</p>
Non-academic Requirements	None
Offers for our Biochemistry, Biotechnology and Biological Sciences courses are made based on information supplied on the UCAS form. Generally, we do not hold interviews.	
English Requirement	IELTS 7.0 with a minimum of 6.5 in each element or equivalent
<p>The programme's competency standards documents can be found at:  <a href="http://www.imperial.ac.uk/students/academic-support/graduate-attributes/">http://www.imperial.ac.uk/students/academic-support/graduate-attributes/</a></p>	

<b>Learning &amp; Teaching Strategy</b>	
Scheduled Learning & Teaching Methods	<ul style="list-style-type: none"> <li>• Laboratory</li> <li>• Lectures</li> <li>• Tutorials</li> <li>• Seminars</li> </ul>
E-learning & Blended Learning Methods	<ul style="list-style-type: none"> <li>• Computer-based work</li> <li>• Fieldwork</li> </ul>
Project and Placement Learning Methods	<ul style="list-style-type: none"> <li>• Group project</li> <li>• Research project/dissertation</li> <li>• Site visits</li> </ul>
<b>Assessment Strategy</b>	
Assessment Methods	<ul style="list-style-type: none"> <li>• Written Examinations</li> <li>• Coursework</li> <li>• Laboratory write-ups</li> <li>• Essays</li> <li>• Reports</li> <li>• Dissertations</li> <li>• Presentations</li> <li>• Individual research project report</li> <li>• Viva</li> </ul>
<b>Academic Feedback Policy</b>	
<p>Coursework feedback is provided by a feedback form attached to items of coursework. Feedback is also provided via Blackboard on automatically-assessed pieces of coursework and on formative MCQ quizzes. Personal tutors hold timetabled tutorials at the start of the academic year to give feedback on examination performance and can be approached by their tutees at any point in the year for further guidance. The undergraduate teaching office repeatedly informs individual staff via email when coursework is due back at the appropriate time. The Director of Undergraduate Studies routinely monitors the quality and quantity of feedback provided on marked coursework. In some instances, generic class feedback is returned to all students via email or a Blackboard announcement once coursework is marked.</p>	
<p>The College's Policy on Re-sits is available at: <a href="http://www.imperial.ac.uk/registry/exams/resit">www.imperial.ac.uk/registry/exams/resit</a></p>	
<p>The College's Policy on Mitigating Circumstances is available at: <a href="http://www.imperial.ac.uk/registry/exams">www.imperial.ac.uk/registry/exams</a></p>	

## Assessment Structure

### Marking Scheme

#### Regulation of Assessment

Minimum pass mark is 40% overall for each course module, which must include a mark of at least 35% in the coursework component and a mark of at least 35% in the examination.

For course modules that include a written examination, coursework typically contributes 20- 25% of the total marks available. Assessment details are provided in the First, Second and Third Year Student Handbooks.

The final degree mark is calculated from the mean mark achieved in Years 1, 2 and 4. For students admitted in or after October 2013 weighted 11.1: 33.3: 0: 55.6, respectively. For students admitted before October 2013 weighted 5: 35: 0: 60.

To qualify for the award of BSc Honours, students must pass all courses.

#### Assessment Rules and Degree Classification:

For undergraduate programmes classification of degrees will be according to the following range of marks:

First class 70 - 100%

Second class (upper division) 60 - 69.9%

Second class (lower division) 50 - 59.9%

Third class 40 - 49.9%

Fail 0-39%

Year	% Year Weighting	Module	% Module Weighting
Year One	11.1%	Cell Biology and Genetics	20.83r%
		Ecology and Evolution	20.83r%
		Biological Chemistry and Microbiology	20.83r%
		Biology of Organisms	20.83r%
		French/German/Spanish History & Politics	4.16r%
		French/German/Spanish Level 4 (Language for Science)	12.5%
Year Two	33.3%	Applied Molecular Biology	15.15r%
		Genetics	15.15r%
		Tutored Dissertation	12.87r%
		French/German/Spanish Level 5 (Language for Science)	13.63r%
		Science & Technology French/German/Spanish Course	4.45r%
		<i>One module from elective group (A)</i>	12.87r%
		<i>One module from elective group (B)</i>	12.87r%
		<i>One module from elective group (C)</i>	12.87r%
Year Three	0%	Year Abroad	N/A
Year Four	55.6%	French/German/Spanish Scientific and Technical Translation with the use of Translation Technology	9.09r%
		<b><i>EITHER:</i></b> Laboratory Based Research Project <b><i>OR</i></b> Literature Based Dissertation <b><i>AND</i></b> Science Communication	31.81r%
		<i>One module from elective group (D)</i>	19.69r%
		<i>One module from elective group (E)</i>	19.69r%
		<i>One module from elective group (F)</i>	19.69r%
