

Edward Mullins

EDUCATION

2009-2014 Imperial College, London
2000-2005 Nottingham University Medical School
1992-1999 St George's School, Harpenden

QUALIFICATIONS

2020 CCT Obstetrics and Gynaecology
2015 PhD Imperial College, London
2013 MRCOG
2005 BMBS (Honours) Nottingham University
2003 BMedSci (2:1) Nottingham University

POSTS

December 2022 – present, Clinical Senior Lecturer and honorary consultant obstetrician, Imperial College London, The George Institute for Global Health and ICHT. *Clinical activities: Maternity Safety and Risk Management, Labour ward, Maternal Medicine and diabetes.*

February 2021- November 2022, Clinical Lecturer and Locum Consultant O&G, Imperial College London, ICHT and the George Institute for Global Health. *Clinical activities: Maternity Safety and Risk Management, Labour ward, Maternal Medicine and diabetes.*

October 2017-January 2021 NIHR Academic Clinical Lecturer, O&G, Imperial College and Queen Charlotte's and Chelsea Hospital

February 2020-April 2021 Consultant to Anthem Healthcare (USA) Digital Care Delivery team, developing a corporate Women's Health Strategy

February 2020-May 2020 Clinical Advisor to the Chief Medical Officer, Professor Chris Whitty, UK Department of Health and Social Care, acute policy response to COVID-19 providing clinical advice on pregnancy and neonates

October 2016- October 2017 ST6 O&G Mr W Dennes, Queen Charlotte's and Chelsea Hospital

October 2015-October 2016 ST5 Miss N Jackson, Hillingdon Hospital.

October 2014-October 2015 Editor-in-Chief, Chief Medical Officer's annual report, Professor Dame Sally Davies. Scoping, commissioning, writing for and editing the CMO's annual report which in December 2015 focussed on women's health in England. I was based in the Department of Health in Whitehall. The CMO's annual report receives national professional and media attention and made evidence-based recommendations to stakeholders.

October 2013-October 2014 ST4 Mr M Nawar, Northwick Park Hospital.

October 2012-October 2013 ST3 Prof. Dame Lesley Regan, St Mary's Hospital, London.

October 2009-September 2012 Clinical Research Fellow Dr Sailesh Kumar, Queen Charlotte's and Chelsea Hospital and Imperial College London, 2nd supervisor Prof. Irene Roberts, Haematology. Thesis, '*Volumetric blood flow and the maternal and fetal inflammatory response in normal pregnancy and fetal growth restriction: An ultrasound, flow-cytometry and immunoassay study*'.

October 2008-October 2009 ST2 Mr DK Edmonds, Miss S Paterson-Brown, Queen Charlotte's and Chelsea Hospital

August 2007-September 2008 ST1 Mr K Duncan, Mr M Stafford, Chelsea and Westminster Hospital

August 2006-July 2007 FY2 Mr D. Harriss, Mr A. Simm, Mr R. Hammond, Dr S Chan, Nottingham City Hospital

August 2005-July 2006 FY1 Mr A. Gee, Dr M. Ghandi, Dr C. Day, Royal Devon and Exeter Hospital

RESEARCH FUNDING AND ACTIVITY <https://www.imperial.ac.uk/people/edward.mullins>

Parasol Foundation in collaboration with Imperial Health Charity, June 2023, £429,800, Chief Investigator, Blood in Action. Using routine maternal serum samples and linked, anonymised maternity data, I will establish a platform for infection and immunity surveillance, biomarker discovery and health policy evaluation. This grant funds a PhD student, Alison Perry, who will investigate the optimal methods for engagement of women with their healthcare.

Imperial BRC legacy funding, October 2021, £185,000, co-CI, A pilot UK National Maternity Research Database. Using routine clinical data from MSDS and 4 nations' datasets to create multi-purpose resource. I have led the formation of a UK-wide collaboration (Imperial, UCL, QMUL, Birmingham, Edinburgh, Swansea) combining expertise in big data science, real-world data, data linkage, AI and mother and baby clinical trials alongside groups with responsibility for mother and baby patient safety, service improvement and audit. Under the aegis of HDR-UK, this collaboration will deliver a UK Mother and Baby data hub.

PI for ICHT, PregCov trial, COVID vaccination in pregnancy, October 2021-present. Recruitment target for ICHT met. **Jameel Community Imperial College COVID-19 Excellence Fund, June 2020, £147,000**, Community Seroprevalence of SARS-CoV-2 in NW London (COM-SARS-2): historical study using stored maternal booking serum samples, co-PI, Christl Donnelly, September 2020-February 2021, 11,000 routinely collected residual maternal booking serum samples from NW London for SARS-CoV-2 IgG/IgM from June 2020 back to December 2019. Pilot for national study.

Innovate Imperial inaugural grant, April 2020, £83,727, 'Contraception at delivery in NW London: equal access for all women,' co-PI with Charity Khoo. This project will deliver education and training to deliver reliable contraception to women immediately after delivering their baby.

UKRI/NIHR COVID-19 rapid response call 2, March 2020 £253,257, 'A global registry for women affected by COVID-19 in pregnancy,' co-PI with Christoph Lees, provide detailed clinical registry to understand natural history and guide treatment and prevention. Urgent Public Health research priority, to date recruited 1283 women from 152 sites worldwide.

2020-2024 – UK and European co-ordinator, Trial Management Group member, TRUFFLE 2 RCT, Optimum strategy to time delivery in late pre-term fetal growth restriction, CI Christoph Lees

2020-present Imperial NIHR BRC CL grant £4000, PI, 'Health in Pregnancy', feasibility study of app-based monitoring tool for health before, during and after pregnancy'. Commercial collaboration with Medopad. Recruitment complete, study completion August 2020, CI Christoph Lees

2019-present ICHT Women and Children's divisional grant, £10,312, CI, 'Determining the normal range for Intrapartum glycaemia in non-diabetic women'. Recruitment to commence August 2020.

2019-present ICHT Women and Children's divisional grant, £36,058, Co-applicant with C Lees, CONCEIVE 2; Pre-conception interventions to improve Blood Pressure, a feasibility RCT'. Recruitment to commence February 2020.

2018-present, local investigator, Guar gum to prevent recurrent GDM, recruitment completion March 2020

2019-present, PI ICHT, OPHELIA study, Observational study in Pregnancy Hyperglycaemia: Endocrine causes, Lipids, Insulin and Autoimmunity, CI Claire Meek, Cambridge. Recruitment target met.

2018 Imperial NIHR BRC PPI grant £1500, PI, Preconception focus group which planned CONCEIVE 2 study, below.

2017 Imperial College European Partners Fund, £5000, co-PI, supported development TRUFFLE 2 RCT, NIHR HTA funded for £2.5m, CI Christoph Lees

POLICY EXPERIENCE

Clinical Advisor CMO (England), Professor Chris Witty, DHSC, February 2020, acute policy response to COVID-19 outbreak. Prepared briefing, *'Coronavirus : Impact on Pregnancy,'* for CMO, DHSC and AoMRCs. Presented rapid reviews to SAGE. Supported setup up New and Emerging Respiratory Virus Threats Advisory Group (NERVTAG) therapeutics committee.

Invited policy advisor to RCOG by Prof. Lesley Regan, 2018-2019

Member of Public Health England's (PHE), 'Reproductive Health consensus', 2016-2017

Rapporteur at, 'A Global Roadmap for Tackling Childhood Obesity Within and across countries,' St George's house Consultation, Windsor Castle, June 2-3rd 2016 in association with the RCPCH.

Briefed Minister for Public Health PS(PH), on amendment to serious crime bill relating to restricting sex-selective abortion, CMO's annual report, menopausal health in the workplace

Briefed Minister for Women, Equalities and Family justice on menopausal health in the workplace

Member of PHE, 'Women who have sex with women,' advisory group, 2015.

Member of PHE, 'Missed Opportunities in Pregnancy,' advisory group on contraception pathways post-pregnancy, 2015.

Invited speaker and chair of session, PHE 'Gender in health,' round table meeting, 20th February, 2015

Attended monthly **Chief Medical Officer's Public Health meetings**, where regional directors of public health, leaders of PHE and invited speakers discuss current and emerging issues in public health 2015/2016

NHS SERVICE IMPROVEMENT

I lead the NW London post-birth contraception service, which I worked with colleagues in obstetrics, midwifery, SRH, commissioning and the local authority to set up before and during the pandemic. Women in NW London can now leave maternity services with their choice of reliable contraception including Long-Acting Reversible Contraception (LARC). The aims of the service are equitable access to contraception in maternity services, to reduce short inter-pregnancy intervals (associated with pre-term birth and neonatal death), and to educate and train maternity staff in contraception counselling and delivery.

I led bids to win £100k in charitable funding from Imperial Health charity and CW+ charity to create two midwife posts and fund a training programme in contraception counselling and delivery for the 6 maternity centres in NW London. We have trained 36 HCPs in fitting LARC and embedded contraception counselling and LARC provision in maternity services for 29,000 women a year. I chair the steering group and have presented our experience and evaluations to the National SRH commissioners' group, the APPG for SRH and to multiple regional commissioners to support national introduction of this essential service.

TEACHING AND SUPERVISION

Thesis Progression Committee member, A Hurrell, PhD candidate, Placental growth factor-based repeat testing in suspected preterm pre-eclampsia, Kings College London

Late stage reviewer, 2019, M Gerval, MD candidate, Imperial College

Supervisor -PhD, Beatrice Ope, No Woman Deserves to Die While Giving Life: An Assessment of Maternal Healthcare Utilization in Nigeria

Alison Perry, A Realist review and evaluation of engagement of women with their healthcare

-8 BSc students (2018,19, 20), Imperial College Reproductive Sciences course. Developed a YouTube channel for pregnancy information, PPI into preconception health and diabetes, achieving a 1st and 2:1s.

-3 MRes (2019-present, obesity and nutrition) students (2019) in related projects;

'The use of a fibre supplement to reduce risk of recurrent GDM in pregnancy,' (completed, August 2019-78% for project and 1st)

'The subjective and objective evaluation of diet in women with previous and recurrent GDM,' (ongoing)

Lectures Diabetes in Pregnancy, Obesity in Pregnancy, PPI and Pre-conception health, Imperial College Reproductive Sciences BSc, 2017, 2018 and 2019.

Education Member, development group for revised syllabus for Imperial College Reproductive Sciences BSc

S Sankaran, **E Mullins**, L Story, S Kumar, PM Kyle: Outcome of pregnancies with severe IUGR detected by ultrasound scan at or before 24 weeks. *British Maternal and Fetal Medicine Society 15th Annual Conference, Glasgow, 2012.*

E Mullins, MS Damodaram, L Story, T Prior, S Kumar, Fetal circulatory redistribution in normal and intra-uterine growth restriction pregnancies by volume blood flow, *BMFMS 2012*

E Mullins, L Story, T Prior, S Kumar, Fetal renal artery volume blood flow is altered in early-onset intra-uterine growth restriction and has a non-linear relationship with AFI, *BMFMS 2012*

T Prior, **E Mullins**, P Bennett, S Kumar, Pre-labour fetal cerebro-umbilical ratio is predictive of intra-partum fetal distress, *BMFMS 2012*

T Prior, M Wild, **E Mullins**, P Bennett, S Kumar, Emergency caesarean section for fetal distress in labour is associated with smaller babies than spontaneous vaginal delivery, *BMFMS 2012*

E Mullins, L Story, M Damodaram, T Prior, S Kumar, IUGR and blood flow redistribution. *Annual Academic Meeting RCOG 2011 (Blair Bell research meeting)*

T Prior, **E Mullins**, P Bennett, S Kumar, Prediction of intra-partum fetal compromise using the cerebro-umbilical ratio. *Annual Academic Meeting RCOG 2011 (Blair Bell research meeting) (Prize- Best poster)*

E Mullins, S Kumar, Does Assisted Reproductive Therapy (ART) increase the risk of neonatal unit admission or mortality for dichorionic diamniotic twins? *Perinatal Medicine 2011*

G Paramasivam, **E Mullins**, R Wimalasundera, S Kumar, Fetal suprarenal masses: case series from a tertiary referral centre. *Perinatal Medicine 2011*

E Mullins, G Paramasivam, S Kumar, Absent end diastolic flow: Progression and perinatal outcome at a tertiary referral centre. *Perinatal Medicine 2011*

E Saha, G Paramasivam, **E Mullins**, S Kumar, L Lakasing, Perinatal outcomes of fetal echogenic bowel. *Perinatal Medicine 2011*

E Mullins, S Kumar, Inflammatory Bowel Disease: did maternal methylprednisolone and gestational diabetes mask IUGR? *London Speciality School Obstetrics and Gynaecology conference, 2011*

E Mullins, A McKewan, D James, Investigating the effect of restricting fetal karyotyping in looking for chromosomal abnormalities. *British Maternal and Fetal Medicine Society (BMFMS) conference, 2005*

UNIVERSITY OF NOTTINGHAM

Distinction (by viva) in Obstetrics and Gynaecology, *University of Nottingham, 2004*

E Mullins, Investigating the effects of folate deficiency and ketosis on limb bud development in chick micromass cell culture. *B Med Sci thesis, University of Nottingham, 2003.*

REFEREES

Dr Muna Noori, Imperial College Healthcare NHS Trust, m.noori@nhs.net

Professor Christoph Lees, Imperial College, Queen Charlotte's and Chelsea Hospital, London, c.lees@imperial.ac.uk

Professor Dame Lesley Regan, Imperial College, UK Women's Health Ambassador, past President RCOG, l.regan@imperial.ac.uk

Professor Dame Sally Davies, former Chief Medical Officer, England, Master of Trinity College Cambridge sally.davies@trin.cam.ac.uk
